

THE WOMEN'S clubs of Scranton people who have their homes in Green will undoubtedly begin work in Ridge. earnest immediately after the holidays. This is in no sense a rather apathetic on the club question. They do go down occasionally when they want to meet some persons on business, for the Scranton man takes even his pleasure in a business-like fashion, but on the whole they seem to regard a club as something which sounds well to have their names attached thereto, and looks well when they have outof-town guests. Then, too, it is often a nice place for ladies to have for luncheons, and the odor of violets is

rather grateful at times. So much for the really expensive and elegant organizations. For those of more moderate pretensions, it is necessary to corral a whist contingent-or a prize fight-no not that but Boxers, amateur politicians, fancy world fairs and pink teas, in order to keep up interest. As a rule, the men seem to prefer to stay at home, when they have such a place, and that brings us back to first principles. If our women were not lovely, agreeable and most unmistakably home-makers, men's clubs would flourish more flamboyantly. Our women's clubs are the meekest, mildest, most inuocuous brand.

The meetings are all inoffensive daytime affairs and the members thereof scurry homeward as fast as they can whenever it draws near meal time, for "John doesn't like me to be out when he comes in, you know," and "I mustn't be late for dinner, for it worries Harry."
Now the real club woman-the

emancipated one, with a Career and a Mission, has reached the plane where her movements is supremely immaterial, when she has a great plan of the well being of a few homes and the future of a few human beings are not to be considered when the world must be reformed and only a short life-time in which to accomplish it all. Somehow, our women haven't arrived at that point yet, and are almost willing to leave the task to the Men's union. Most of the clubs are for pleasure or harmless improvement of the mind or cookery. It would take a very hard-hearted man to object to the women's clubs as chiefly represented in Scranton. To be sure, it is rather pathetic to have to pay the higher water rates, because it is necessary to support at least one which had to do things, but the others being content to learn bridge whist or find out why Mrs. Browning wrote such affectionate letters to a mere man, seems to be a guarantee of immediate safety.

Arrangements for the New Year ball are completed, as far as is possible at this time, and promise to result in as perfect a dance as has ever been given in this city. The decorations will be composed of the selections which are

The literature section, under the direction of Mrs. Friedewald, meets on the second and fourth Thursdays in the Green Ridge library and the music section, under Mrs. J. A. Pennington, has been meeting at the Conservatory of Music. The social economics section, of which Miss Amy Gerecke is chairman, have had very interesting sessions, when talks on foods, including grains, cereals, etc were given.

The officers of the Green Ridge Women's club are: Mrs. William Mattes, president: Miss Grace Hicks, recording secretary; Miss Louise Gerecke, corresponding secretary; Mrs. Zimmer man, treasurer. About sixty members are enrolled this year.

Green Ridge has a lively number of clubs and social organizations. Of Ridge is purely frivolous in its aims and does not claim to have other purposes. It is a delightful organization, membership is exclusive and those who are included have beautiful times. The Literary club, under Miss Amy

S. A. D. Bertrand, of Winnipeg, a prominent business man and Liberal politician of Manitoba province and friend of the Canadian premier, Sir Wilfred Laurier, is in the city on a business mission. He is enthusiastic in his praise of the agricultural possessies of Manitoba, and em-phasizes the fact that not only is that province the great wheat field of the Northwest, but that it also is an unsurpassed territory for cattle growing and dairy farming. In butter fats the milk produced in the fertile bottom lands of the Red river and kindred streams between Winni-peg and the international boundary runs as high as 5 and 6 per cent., and the cattle, fed on as a and o per cent., and the carte, ele-inatural growths of grasses, are plump and thrif-ity. Four years ago, before they could be ex-ported across the border they had to remain in quarantine for a period of ferty-five days, and his practically disrupted Manitoba's cattle trade with the states, the figures falling below \$1,000,000 a year. The subsequent abolition of the quarantine has greatly revived this trade, which is now between \$7,000,000 and \$8,000,000 annually and growing rapidly. Americans seem to be un-able to buy enough of Manitoba's cattle and the benefit in this trade is evidently mutual. Mr. Bertrand foresees great developments in Manitoba and is hopeful that better relations will soon declop between the United States and the domin-

A young girl said the other day: "I am at my wits' end to find something which I can afford to get. Last Christmas she sent me such an expensive present." As if the Christmas spirit nust be measured by dollars and cents! After all, down at the bottom of our hearts most of us are not really so nercenary as we seem. We say: "Oh, she gives me such elegant presents. I must try to make an adequate return." when really and truly we would love our friend just as much, would value her remembrance on Christmas day just as much if she sent us something always rich and influential, but like the simpler. Had Catarrh Nine Years -- All Doctors Failed.

HON. GEORGE KERSTEN, OF CHICAGO.

Hon. George Kersten, a well-known Justice of the Peace of Chicago, "I was afflicted with catarrh for nine years. My catarrh was located chiefly in my head. I tried many remedies without avail. I applied to several doctors, but they were not able to cure me. I learned of the remedy, Peruna, through the daily newspapers. After taking the remedy for eighteen weeks I was entirely cured. I consider my cure permanent, as it has been two and a half years since I was cured."—George Kersten.
