A TEAM OF HORSES BURNED. Fire Destroys Bottler Nealon's Barn and Its Contents.

An alarm of fire was turned in last night at 8.50 o'clock from Box 46. When the firemen reached there the fire was seen to be at the corner of Tenth avenue, near South Main street. The barn of Bottler Thomas M. Nea-Ion was totally deriroyed, with two horses, n big double sleigh, harness

and other contents. Mr. Nealon went out to the barn churches will preside at the meetings about cuarter to 9 o'clock, to prepare held in the houses of worship, but the bedding for his horses. With him he carried a little hand lantern, with a tin hoop handle. He hung his lantern on a wooden peg on the side of barn wall, as he has done every night for twenty years. Then he pulled down some hay. Turning around at noise, he saw that the lantern by I follow and that a large blaze was already reaching hungrily out for the

Mr. Nealon immediately rushed back to the house and shouted that the barn tiny. was on fire and told some one to ring alarm. His son Thomas ran out and did so. When the fire companies got there they found that the barn was loomed, and they first turned their hose on the front of Mr. Nealon's grocery store, diagonally opposite, After that had been thoroughly wet, or frozen, for sheets of ice followed the trickling water in the keen air, they quenched the flames in the barn.

There was no hope of saving the horses, although two or three attempts were driven back by the flames. Overhead electric wires were stretched in the seething furnace and shouts of warning were uttered as one of them melted and fell. It struck the Columbia wagon, but was yanked out of the way by some man with gloves on and

The Parish Priest.

At the opera house on Saturday night Daniel Sully will present the New York and Boston success, "The Parish Priest," by Dan L. Hart. There is an at their regular meeting tomorrow abundance of humor in this pretty play, which can almost be styled a comedy. The pathos of the second act. however, makes it a comedy-drama of unusual excellence. The jolly priest is

utilizes as a shuttle with which he takes the tangled skeins and knotted threads of the lives of his friends and weaves them into a cloak of happiness The story of the play tells of the drifting apart of the two lovers, and it is surprising the number of clever complications the author has hung on this slender thread. As Father Whalen. Daniel Sully is given one of the best character creations of recent years. His humor is of the quaint, honest sort, and his sentiment delightful in its naturalness. The play is picturesquely staged and beautiful in its sim-

Silk Millers Meet.

The silk mill union, composed of the Klots Silk Throwing company's employes, who are now on strike, met last night in McTighe's hall, on South Main street, and, with the United Mine Workers' committee appointed to assist of the strike. They are more confident of victory now than they have been at any time previous and claim that the Messrs. Klots must meet their demands very shortly or close the mill, as the number of workers decrease each succeeding day. The strikers claim that only thirty-one employes left the mill at the closing time last night. The assistance rendered by the mine workers' committee has proven very effective and gave the strike a great impetus, and, as still stronger influence will be brought to bear to get out the hands now working, immediate victory is looked for.

Eddie Gorman Improving.

Eddie Gorman, who was shot by Constable Gilby on New Year's night while escaping from custody, was resting very comfortably at the hospital last night. It was said that it was impossible as yet to tell whether he will lose his leg, as the wound was a severe one. In order to extract the bullet an incision had to made from the knee to the ankle, laying the bone bear all the way, and the wound had to washed out bandaged. The principal trouble now is feared from blood polsoning which is liable to result in the case

Locals Nos. 844, 877, 969, 1611, 1606 and 36, of the United Mine Workers of America, have appointed delegates to act as a committee to help the silk mill strikers in carrying on their fight. The unions pledged their financial support, also, and hope in this way to soon bring the trouble to a satisfactory termination. The committee makes the following statement:

The undersigned members of the various local unions of the United Mine Workers of America having been appointed to act as a committee to work in conjunction with the silk mill strik-ers' committee toward bringing about a success-ful termination of the labor troubles between the silk mill owners and their employes, have thoroughly investigated the elecumetances surround ing the case and find, to our satisfaction at least that the claims of the children have sufficient oundation to warrant our support, which we ereby pledge both morally and financially.

While we deplore most sincerely the necessity f any children of such tender years as are many these hands working in the mill, we admit that no blame therefor attaches to the mill ownto more consideration than they seem to have received heretofore.

The silk mill business has so many technical ms that it would be hard for anyone not engaged in the business to understand the demands made by the strikers so we have had the schedule reduced to more simple terms and we find the concessions asked by the hands are as

Mr. Frieder claims that he now pays more wages than any of the mills competing with him. This my or may not be so, but the employes in the Carbondale mill who may receive not over ter ser cent, more than a like worker in the other nills does fully fifty per cent. more work on account of the special machinery used in the Klots mill. We are also told that the docking and "light weight" systems in vogue in the mill will in the aggregate more than make up for what slight increase there might be in the are scale over that in other mills.

We do not believe anybody would ask even a fulld, and many of the employes are young men and women, to work for less money than is asked for in the above schedule and we are very me that no parents in this city would be illing for their children to be subjected to the indecent language and treatment practiced by some of the overseers.

TAYLOR.

An excellent attraction will be the production of the Passion Play to be given at the Calvary Baptist church on Tuesday evening by Professor W. Robert Gos, well and favorably known as an able speaker and missionary. It is a most impressive object for young and old and will be in vivid realism as performed every ten years by the plous peasants of Oberammergau in Bavaria. The wonderful Edison stereo-projecting kinetoscope which is used by Professor Goss in his work is spoken of highly by critics in performing the work.

At the regular session of the Taylorville lodge, No. 462, Knights of Pythias, on Wednesday evening, the following officers were elected for the ensuing term: Chancellor commander, David E. Chili, Honduras and Ecuador to Be Represented at Buffalo.

The republic of Chili has recently demonstrated its enthusiatic interest in the Pan-American exposition by making an appropriation of 500,000 pesos, equal to \$185,000 in gold coin, for the purpose of an exhibit at this exposi-

court of state and foreign buildings for the Honduras building, in which that republic of Central America will make an exhibit creditable to its progress as a member of Pan-America. The building for the republic of Honduras is designed with an octagonal rotunda surrounded with wide porches on three sides and with pavilions on four sides, the remaining side being occupled by the kitchen and tollet rooms. The central rotunda and two of the pavilions are intended for exhibits of the country's products. There will be a cafe and offices for the commissioners in the other two pavilions. Stairs lead from the rotunda floor to a gallery, which surrounds the rotunda and is lighted by sky-lights and dormer windows. There are four large circular doorways, connecting the pavilions with the rotunda, which will give a novel and pleasing effect. The porches are well protected by the broad projecting eaves and will be a comfortab place for weary visitors to rest and er joy a taste of Honduras hospitalit The exterior of the building is an adap tation of the Spanish-American styl with classic detail. The roof will be Spanish tiles and the exterior of th building of staff.

There is marked interest in the expo sition and its objects in the republi of Ecuador which is making gian strides in progress and prosperity Ecuador had a small, but artistic po vilion, at the Paris exposition, and it exhibitors were very successful in winning prizes for their exhibits, most of which will be sent from Paris to Buf-
