NEWS OF THE LABOR WORLD

PRESENTATION TO SPECIAL AGENT P. O'KEEFE.

Remembered by a Number of His Fellow Employes of the Lackawanna Road-Plan for a Railroad That Will Cross the Continent .- D., L. & W. Board for Today-J. E. Adamson, the New Special Agent, Has Arrived in the City.

Special Agent P. O'Keefe, who in about to retire from the service of the Lackawanna railroad, was surprised yesterday afternoon by his fellow employes around the station, who called him over to the Lackawanna Valley house and presented him with a diamond searf pin and a pair of

studded cuff butions.

Mr. O'Keefe was taken entirely by surprise and accepted the gifts in his usual modest manner. It is with the utmost regret that all of the Lackawanna officials and employes, together with Mr. O'Keefe's many friends in Scranton, sever their relations with him, and all wish for his future success wherever he may cast his lot.

Adamson Has Arrived.

J. E. Adamson, of Hoboken, who will succeed P. O'Keefe as chief special agent on the Lackawanna railroad, arrived in the city yesterday afternoon, and today he will make a trip over the road with Mr. O'Keefe.

Mr. Adamson is a man of fine physique, and bears somewhat of a resemblance to former General Superintendent Russell. He is peculiarly well fitted to succeed Mr. O'Keefe, baving been closely identified with him in railroad work for a number of

He will formally assume the responsibilities of his new position on Jan. 15, when Mr. O'Keefe leaves for a short visit with friends in Chicago.

Transcontinental Railroad.

Reports to the contrary notwithstanding, strong intimations come to The Stockholder, that the Erie is involved, with the St. Paul, the Northcon Pacific and the Great Northern, in a big deal to form a trans-continental line. Provided this is true, securities of the Eric are in for further material price gains. More conspicuously in evidence than ever before was inside buying of the stocks yesterday. and this tends to stimulate bellef in important developments soon.

"Should such a system as above in-dicated be formed, it will doubtless be followed by others, In this event, competing lines would be forced to enter the combines for protection. Once a movement in the direction of a transcontinental system is started, it is thought that the Burlington, the Paltimore and Ohio, the Union Pacific and the Atchison will play prominent parts in other deals of gigantic preportions. One of the most prominent railroad authorities in this country made the following statement vesterday, which tends to greatly strengthen the predictions from time to time in

he past made in these columns: The Twentieth century eveidently s about to start out with a reorganization of the railroad systems of the ountry, but along very different line from those of the reorganizations of the past decade. The investors and speculators of the future will have a much shorter list of railroad stocks in which to trade."

Women are vastly more patient than men. It is scarcely believable that a woman, suffering past all telling, can attend to business, and bend and stoop with a back whose ache is agony. And beyond all this she smiles as she bends and stoops about her customer. A man

WAS GRANTED TEN DAYS.

Brown Was Dissatisfied and Ex-

tended Time Three Months. George Brown, a man about 27 years of age, is detained at police headquar-ters on the charge of descriing from the United States army. Walle panue at 4.20 yesterday morning, Officer Hart was accosted by Brown, in the uniform of the United States army, with the request that he be locked up. He said he had deserted.

Brown was attached to Battery A Seventh artillery, stationed at Fort Schuyler, New York. September 23 he was granted a ten days' furiouge to visit his home in Elmira, N. Y. Brown was in no hurry to resume the dull routine of military life, so he did not basten to return when his ten Mr. Thomas Bamford, flagmon on days expired, but at the lapse of three he D, and H. R. R., says: "I had a, and a half months he was convinced that his place was with the army, and gave himself up. The authorities at For Schuyler have been notified of Brown's apprehension here.

THE LANGSTAFF CONTEST.

Witness Wants to Know How to Get His Fees.

The following communication was eccived by The Tribune:

Scranton, Pa., Jan. 7, 1901. cranton Tribune, Scranton, Pa. Gentlemen: Will you please inform a number of your readers, through the columns of your paper, where the people who were subpoensed in the Langstaff-Kelly content and testified will be able to secure their pay and from whom they can Yours truly.

The simplest answer to the subscriber's query is: "Sue the party who sub-poenaed you." This course is always open to a witness.

The contest is at present lying dor mant. The next step towards final disposal will be a motion to have the commissioners file their findings Then would come the exceptions to these findings and arguments thereon and finally a decision from the court as to who was elected and on whom the costs should be placed.

An offer for a 34x100 feet portion of the lot on Spruce street, between Breck and Forest courts, owned by the Stewart estate, has been made by the Merchants' and Mechanics' bank and the possibilities are that the bank's new home will be located on that site. A decision will be arrived at Saturday. It is understood that the price of fered is not much less than \$1,000 per

The bank proposes to creet a large and handsome building, but the details of its construction have not yet been agreed upon.

It is present-day conditions - heaping burdens of work upon the nervous system that tells the story-premature breaking up of health.

It tells why so many men and women, who so far as age in years is concerned, should be in the prime of health, find them-selves letting go of the strength, the power, the vitality they once possessed. It is be-cause that great motor power of the body, nerve force, is impaired. Every organ demuch as the engine depends upon the steam to put it into action. An engine won't go without steam. Neither will the heart, the brain, the liver, the kidneys, the stomach act right without their proper nerve force supply. Let any organ be lacking in this essential and troubles begin—some of them
