The directors of the Eric rallorad in New York yesterday issued a long circular to shareholders, giving details of the proposed issue of securities to earry out the purchase of the Pennaylvania Coal company and its properties from J. Pierpont Morgan & Co. It is proposed to issue to that firm \$30,000,000 new four per cent. fifty year gold collateral trust bonds, and 25,000,000 additional first preferred stock. The authorized amount of the new bond issue will be \$26,000,000, but \$4,000,000 are to be reserved to carry out improvements on the properties whose shares are deposited as security

the new issue of bonds. The directors have called a meeting of stockholders to vote on the proposition to issue the additional first preferred shares and to ratify the tion of the directors in Issuing the \$36.-

The new Issue of four per cent. bonds are to be secured collaterally by the pledge of all shares of stock of the Erie and Wyoming Valley rathroad, Delaware, Valley and Kingston Railroad and the Pennsylvania Coal company, owned by the Eric Raffrond company and of thirty-one per cont. of the shares of the New York, Susquehanna and Western railread.

Culm Not Reserved.

President Thorne, of the Pennsylvania Coal company, who came to his office yesterday, denied the report that the culm heaps of coal stored at the frightened the beast away, mines of the company were still in the At a meeting of the store ossession of the stockholders of the Pennsylvania Coul company. The re-port printed stated that in the transfer of the property the stockholders of the Pennsylvania Coal company reserved the rights to all the coal above ground. Included in this coal were be classified, and which, if washed, would prove salable. The point was made that on this interpretation of the transfer, considerable property would still belong to the old stockholders of Danville, vice-president; L. E. Wal-

Beaver Meadow is excited over the presence of a strange dragon-like animal in the Old Temperance mine. The miners describe the animal as being three feet high and four feet long, with a small head, a long whiskered none and eyes as large as silver dolhars. Its tracks show a good-sized foot with six claws. While pushing a car in the mines a miner was attacked by the animal, which jumped on his back with flerce growis. The miner's clothing was torn from his back before other miners, rushing to his assistance,

WHAT ARE YOU USING

To Cure Yourself and Family of

CATARRH AND CONSUMPTION

A Remedy That Relieves the Symptoms or One Which Cures the Disease Itself?

That there is but one treatment which will permanently cure such diseases of the air passager as Catarrh. Bronchitis and Consumption, is well known to all who are posted in the physiology of the respiratory organs, or who read the United States Health

Why then do sufferers from these diseases continue to expend their money on stomach medicines which can only relieve the symptoms, or on imitations of this new treatment which nature herself will not permit to enter the bronchiat tubes and lungs.

No doubt there are many remodies on the market, which, taken through the stomach, will relieve the cough and give strength and fiesh to the sufsued by President Duffy, and the busi- ferer, thus fortifying the body to ness to be transacted is said to be longer withstand the ravages of the itself, but Consumption is This morning a force of men began caused by germs embedded in the ork at blasting the rock at what is lungs and all the stomach medicines

How many thousands of men and gained fiesh and strength, and relievel their cough by such remedies, have given their testimony as cured of Consumption, only to find when too late, that the disease itself has been constantly gaining ground while they rested in fancied accurity. The same can be said of those who have oband Alton at Springfield, Ill., and was tained relief by the use of sprays, vapors and atomizers, the benefits received are only temporary in both cases, for reports published by the Bureau of Vital Statistics at Washington, show that up to the time HY-OMEL the new Dry-Air Germicide, vas discovered, deaths from diseases of the respiratory organs increased fifty-one per cent, per year, while the eports of the same bureau since HYO-MEI was introduced show a reduction in the death rate of over 31 per cent. due to the use of HYOMEI alone, Such evidence, coming as it does from the highest authority in the land, which only gives facts and figures as hey are found, ought to carry more weight with an intelligent person than all other tertimony, and when there facts are backed up by the indersement of the whole medical profession.

here is certainly no excure for the afflicted being misled. HYOMEI Cures Coughs, Catarrh, Bronchitis, Asthma, Croup and Con-sumption because it desireys the germs which cause the discuse. HYOMEI destroys the germs, be-

ause it can be inhaled in the air we breathe, the only method by which hey can be reached. HYOMEI is the only cure, because is the only dry-air germicide known.

and nature herself will not permit moist germicides to enter the bronhial tubes and lungs. Your money is refunded in any case where HYOMEI fails to cure Coughs, Catarch, Bronchitis or Consumption,

A five days' treatment will be sent to ny person free, who writes for HYOMEI is seld by all druggists of sent by mail. Complete Outfits \$1.00.
