SCRANTON, JANUARY 21, 1901.

Calm sound thought will approve as just the law's disposition of the Patterson criminals. Long imprisonment at hard labor converts them into conspicuous examples of the truth that the way of the transgressor is hard.

Victoria

THE WORLD-WIDE interest shown in the news from the bedside of England's expiring sovereign is more than political in its inspiration; it is profoundly sympathetic from personal esteem for the noble woman whose long career of exemplary usefulness is an international asset.

But Americans have especial cause for interest and for grief. To Victoria's interposition during the dark days of our Civil war they owe the defeat of Lord Palmerston's well-natured plan to grant substantial aid and comfort to the Southern Confederacy.

It will be many a day before the people of Great Britain will have another sovereign personally equal to Victoria.

Overcrowded Street Cars.

ORDINARILY the interference of councils in the business operations of a public service corporation is to be deplored. It tends to establish a habit of interference both when there appears to be some reason for it and when there is none.

But it seems to us that there is one direction in which councils may have to interfere at an early day as a matter of public protection.

On Saturday the congested condition of the cars on some of the lines would have warranted the interposition of the police. Men and women resident in the suburban districts were kept waiting in the central city in some cases as long as an hour before they could secure even standing room in the outward-bound cars.

This hold up of the ordinary travel of people who are in a measure dependent upon the street car lines for conveyance can be accounted for in no other way than as representing an economy of the railway management calculated to recover strike losses at the community's expense.

The company's aim is to squeeze twice as many five-cent pieces out of a car as its accommodations warrant. This can only be done by outraging its patrons. But councils have an unquestionable right to fix a limit to the number of passengers admissible to a car, and to enforce such an inspection of the car's sanitary condition as shall minimize its powers of mischief as a breeder of disease.

The Scranton Railway company must be made to deal fairly with the people of this community.

Last year in Indiana one divorce was granted for every six marriages. Here is a subject fully as deserving of the

attention of General Harrison as the status of the Constitution in the Philippines.

The thirty-eighth annual report of the directors of the Scranton poor district, just published, makes a creditable showing. Especially interesting is Superintendent Beemer's summary of results, from which it appears that exclusive of farm produce the average weekly maintenance cost of the 471 average daily number of inmates at Hillside Home was \$1.82 per capita.

The Board of Trade Banquet.

FROM EVERY standpoint the board of trade is to be congratulated upon securing as the principal guests of honor at its annual banquet, to be held tonight, the governor of the commonwealth and one of Pennsylvania's efficient representatives in the United States senate.

It is appropriate that the representative organization of Scranton's commercial and industrial interests should improve the occasion of Scranton's political expansion to cultivate a closer acquaintance with the active forces in the dominant political organization in the government of the commonwealth.

The usefulness of the board of trade during the years of its manifold contributions to the upbuilding of our city has gained widespread recognition and constitutes a record of which all Scrantonians are proud. But a period has been entered upon in the evolution of the city which increased efficiency on larger planes of endeavor is both possible and necessary.

Editor Watterston's call for a Democratic unknown will probably catch the dark horses to kick their stalls to kindling wood in the near future.

Gardiner Vs. Harrison.

THE NEWSPAPERS of the country are still re-echoing in praise of the thorough manner in which Charles A. Gardiner, esq., of the New York city bar, in a paper read before the New York Bar association at Albany on Jan. 15, replied to and demolished the contention of former President Harrison that the Constitution of its own vigor and in detailed completeness keeps up with the flag.

After showing along familiar lines that this contention originated in the fertile mind of John C. Calhoun, who invented it in the interest of slavery, and after proving by repeated citations from history that in no territory since the government's earliest day has the Constitution obtained further than as decreed by congress in the exercise of its discretionary power to deal as it pleases with "territory and other property of the United States," Mr. Gardiner developed a new line of thought of incisive interest to the Indiana statesman and his admirers:

What solution does General Harrison offer for these momentous problems? None whatever. He offers a constitution, but has no remedy. He offers a constitution, but has no remedy. He offers a constitution, but has no remedy.

Mr. Gardiner did not rest his case at this point. He relentlessly continued: "Who was it that inaugurated our present insular policy? It was the president who received its first practical and definite expression in his transmission to congress by President Harrison on Feb. 15, 1898, of a treaty providing for the immediate annexation of Hawaii."

Again, he urged that all questions arising out of the annexation should be left "to the future and to the judgment and wisdom of the United States." When President McKinley issued his instructions for the government of the Philippines, he not only followed the Hawaiian precedent, but adopted General Harrison's language—bitterly attacked the Philippines a "just and benevolent government" according to the principles and "purpose of the United States."

AS TO WOMEN TEACHERS.

Editor of the Tribune: Sir: In an address before a teachers' conference held in New York state, Professor DeGroot of Cornell university, made the following statement: "If the public schools of the country are to be maintained at their present high standard, it is necessary that women be held nearly every teacher's position must be remedied, even if it is necessary for the national government to interfere and compel the school boards of cities and towns to employ a proportion of male teachers; to compel the women teachers to undergo proper preparation and stricter examinations, and to maintain adequate salaries. The entrance of women into the profession has

put salaries so low that no self-respecting man will attempt to found or preserve a family on the income of a teacher. This statement is remarkable as emanating from so intelligent a man as the eminent professor. If our school system lacks anything, it is more, not less, than the most efficient instruction, not only in school teaching, but in school government. An equal representation of men and women on our school boards; our school economy and our school efficiency; our school government and our school instruction; our school government and our school instruction; our school government and our school instruction.

It will be interesting to note whether General Harrison will undertake to escape from Mr. Gardiner's lasso.

Remarkable Change in Decade's Trade.

Washington, Jan. 20. REMARKABLE change has come over the commerce of the United States in the decade ending with the calendar year 1900. The figures of the Treasury Bureau of Statistics show that imports, which in 1890 were \$227,257,700, increased to \$412,000,000 in 1900, an increase of 80 per cent. In the decade, while the exports, which in 1890 were \$357,202,448, were in 1900 \$1,478,000,534, an increase of 72 per cent. In 1890 the excess of exports over imports was \$130,949,748; in 1900 it was \$1,065,752,788.

In our trade relations, with the various parts of the world, our country has made a marked advance. From Europe we have reduced our imports in the decade from \$174,000,000 to \$129,000,000, while in the same time we have increased our exports from \$100,000,000 to \$131,000,000. From North America imports fell from \$121,000,000 in 1890 to \$121,000,000 in 1900, while our exports to North America increased during that time from \$55,000,000 to \$97,000,000. From South America imports increased from \$10,000,000 in 1890 to \$12,000,000 in 1900, while our exports to South America increased from \$3,000,000 to \$11,000,000. From Africa imports increased from \$1,000,000 in 1890 to \$2,000,000 in 1900, while our exports to Africa increased from \$1,000,000 to \$2,000,000. From Asia imports increased from \$1,000,000 in 1890 to \$2,000,000 in 1900, while our exports to Asia increased from \$1,000,000 to \$2,000,000. From Oceania imports increased from \$1,000,000 in 1890 to \$2,000,000 in 1900, while our exports to Oceania increased from \$1,000,000 to \$2,000,000.

The changes in the movements to and from the continent of Europe are especially noteworthy. First, the increase in home manufactures, which were formerly drawn chiefly from abroad; and second, the diversification of products, by which markets are made for a wider variety of goods. In 1890, for example, our exports to Europe were \$174,000,000, while in 1900 they were \$129,000,000. This decrease is due to the fact that our exports to Europe are now more diversified, and include a larger proportion of manufactured goods.

THE SENATORIAL FIGHT.

The Fake Cry of Fraud.

Now that the battle is over, and those opposed to Mr. Quay fought just as hard and in just as questionable a manner (if there were questionable methods used) as did those who favored him, it is not surprising that the cry of fraud and corruption? This is a very old chestnut with the Democrats. Never have the Republicans won a seat in the senate, and they have never been driven out of it. Why should anti-Quay Republicans raise this cry? When have the anti-Quay Republicans failed to respond to the call for money to aid the election of one of their followers in this legislature? When have they failed to look up a contest where one of their followers was concerned? Let us look at the matter in its true light. It is not a matter of fraud and corruption, but a matter of the right to elect one of our own people to the senate. The Republicans have won the election, and they have won it fairly. The Democrats have lost the election, and they have lost it fairly. The cry of fraud and corruption is a fake cry, and it is time to let it die.

A Good Time to Get Together.

It seems to us that now is a good time to stop the fight in the Republican party. What possible good can it do to continue it? As long as we have good Republicans all over the state will be delighted by Democrats, and every campaign will be a bitter feeling. Why should we continue to fight? Let us get together for the common good. And in the end it will disrupt the party, and we shall have Democratic rule with all its attendant evils. What benefit this can be to any one who calls himself a Republican we fall to see. If we believe in the principles of the party let us have a convention. Let us have a convention where we can discuss the principles of the party and the leadership of the party let us stand against it at the primaries, in convention and caucus, and not in each other's back. Let us get together for the common good. And in the end it will disrupt the party, and we shall have Democratic rule with all its attendant evils.
