THE RIPPER SECTION. "I cannot condemn too strongly the 'ripper' section, or that portion which is not hostile to us," said he. "I am utterly opposed to the bill as a whole. There are a few good features, but they are few and far between. I believe that if it is ever put in operation in any city it will mean the establishment of a little monarchy. It takes entirely too much power away from councils and centers entirely too much authority in the mayor."

CONDITION OF THE CITY'S SINKING FUND. Set Forth in the Report of the Commissioners Presented at Last Night's Council Meeting. The following report of the sinking fund commissioners was received and filed at last night's meeting of common council:

NO IMPLIED POWER. The new bill makes no provision whatever for the taxing of street railways. It involves the removal of the cause if it becomes a law this city would have to act under the present second class city provision governing this matter, which is considered exceedingly unsatisfactory.

NO PROVISION MADE. The claim is made that in no wise does this section of the constitution give any implied power to the legislature to legislate out of office any elected city official.
