THE BEST TEST.

Years.

The best soldier is not the nex cruit of a few months' service. The best mechanic is not the apprentice, and the best man in the line is he who has been tried by years of

service and experience. This is not only true of men but of nearly everything else and especialy is it true of medicines for disease. New remedies must be thoroughly tested and their merit established be youd question before the intelligent public will put faith in them.

There are not many remedies which tie Reitnauer, Yettie Nauman, Bertha, have stood the test of ten years and continued to increase in popularity each year, but this is true of the Pyramid Pile Cure, and it is the only pile cure that has stood this test, and among the many popular medicines on the market it is the only one which linger, Otto Schoen, Edward Christ, can be said to have no competitor; its sale has steadily increased from year to year and because of judicious adcertising as because it has been recommended by word of mouth from one

cured sufferer to another. Piles is supposed to be caused in ost cases by a sedentary life and lack of exercise but it generally comes without any apparent excuse and often people who live an active outdoor are victims of the disease, a case point it that of James Creeden, a tumberman and teamster in Northern Michigan. He says: "I suffered for eight or nine years from itching and retruding piles sometimes so severely that I could scarcely walk, then I ould get better for a week or two but the trouble always returned. I could not afford the expense of an ration and endured the disease until lived in Manistee, to give the Pyramid

ile Cure a trial. "I had never heard of it, but when I went to town I asked my druggist about it and he told me he had so'd for years and never had a comdaint of its failure to cure piles. "I bought a package and found not nly relief but a permanent cure after everal weeks' regular use.

"One of the best things about Pyraaid Pile Cure I found to be its convenience, being in suppository form and used at night, it did not interfere with my daily work and is simple and

THIS is going to be strictly a trimming season; no matter what the gown, whether for street or evening wear, it must have its proportionate amount of trimming. Fashion's eye lends itself to these comely and pretty things, and urges a profusion of them. So it is we have prepared for a big trimming season. The laces have first call; they rule the roost of style, because of their lightness, airyness and daintiness. There is no other such showing of pretty things for many, many miles around.
