THE MARKETS.

Wall Street Review.

New York, Jan. 31 -The stock market consiatgely given over to manipulation by que ulative is a constant shifting of activity from one group t stocks to another and successive advances de-eloped here and there all day. Prices of the favored lastics were inclined to drop back as soon as the manipulation was shifted from them, but the final outburst of activity and strength in the Pacifics and Southwesterns lifted many stocks to near the best again. The stocks under immeflate manipulation at the close where, however about the only ones that closed at the highest. The central figure in the day's market was Southern Pacific. The dealings in the stock were on an enormous scale and the extreme advance was the Pacifics generally sympathized. The announcement of the plan for the absorption of Mobile and Onio by the Southern Pacific company caused a jump in the former stock of 8% on comparatively light transactions, as the com-pany's capital issue is a small one. The Mobile and Ohio development set the speculators upon a search for securities of minor railways which ould in any way be available as feeders of onsections for the great railroad systems of the ountry in the operation of the policy for extension of interests. The roads having Morgan affiliations were prominent in this connection. Chicago, indianapolis and Louisville rose 6 and the preferred 10 points. There were gains Des Moines and Fort Dodge, St. doe and Grand Island first preferred and the Wisconsin Centrals. None of these gains were fully maintained.

FRIDAY **AFTERNOON** SALES

You have come to expect great things of these sales. It would be folly for us to advertise anything that was not distinctively a bargain in every true sense of the word. A waste of money in advertising and no one around the corner when the bell rang. You who visit the sales most know the nature of them. Oftentimes-nearly always, in fact, the crowd extends many feet beyond the space limits of the sale. This would not be so if offerings were not of the greatest interest, and they surely are. A fair sample for today. Judge our standard by these.
