NEWS OF THE LABOR WORLD

OSITION OFFERED TO E. G. RUS-SELL.

endered the General Superintendency of the Intercolonial Railroad Company of Canada-What the Janmary Letter of the Anthracite Coal Operators Says About the Anthracite Coal Market-Shipments of Anthracite During the Last Three Years-Make Up of Board Today.

E. G. Russell, ex-general superin tendent of the Lackawanna railroad, left for New York yesterday afternoon to consult with the officials of the Intercolonial Railroad company, with a view to accepting the general superintendency of the road, which is operated in the Dominion of Canada.

Some time ago overtures were made to Mr. Russell to assume charge of the road, but there were several matters which there was some discussion, and these having been atisfactorily arranged, in all probability he will now

In 1874 Mr. Russell entered the ser vice of the Intercolonial as a telegraph operator, and was successively train dispatcher and chief clerk to the general superintendent. Altogether he was in the company's service about eight years at that time, and the proposition which now comes to him is a recog nition of his ability as a railroad man. The company operates about 1,500 miles of road, and their lines touch

many important points in Canada. The

road is controlled by the Canadian

government and the head offices are

located in New York. Mr. Russell is now enjoying excellent health and has continued his residence in this city ever since he first became identified with the Lackawan-

Anthracite Coal Market. The January Letter of the Anthracite

Coal Operators' association says of the

market: The market for anthracite has been only slight ly affected by the moderate weather of the past month. The demand has been active enough to absorb practically all of the formage mined, leav ing but little to go into reserve stocks, though there has not been so great a pressure for immediate shipments as during the preceding month. Retail yards have not, as yet, been able to secure more than enough for their current demand, and their stocks are musually low to this time of the year.

Prices have shown practically no change nor does there seem to be any indication of a reduction until spring. It is asserted that some of the selling companies have concluded to quote stove coal at \$4 t. o. b. for the spring; \$1.23 for summer, and \$4.50 for the winter trade, but no announcement to this effect has been made, and likely will not be unless the market should weaken enough to justify such a reduction from

be present quotations.

Producers feel that the threatened disturb spece in labor questions will have a decided bearing on prices for both the spring and sum-

Production of Coal.

The January Letter of the Anthracite Coal Operators' associations says the shipments of anthracite coal during each month of the past three years

Summit, Friday, Feb. 1. Brakeman M. Langan will go out on his own run with J. E. Mastera next trip. Brakeman J. Beam will go out with Conductor O, Case Saturday, Feb. 2.

Strike at Marvine Shaft.

Operations were suspended at the Marvine mine yesterday afternoon on account of the drivers refusing to haul cars to the non-union miners employed in the shaft. The miners are employed by contract, and when asked to unite

with the union refused. A committee of the strikers has been appointed to submit their grievances to Superintendent Rose, and they will arrange for a conference with him today. The colliery will remain idle until the differences have been adjusted.

New Caution Signal at Dover. At 12 o'clock today the new caution

signal located on the retaining wall west of Dover station will be put in

This signal will be operated by the gateman at the highway crossing just west of the station and will be set against east-bound trains when a west-bound train is standing at Dover

This and That.

J. E. Childs, general manager of the Ontario and Western railroad, was in the city yesterday, and was registered at the Jermyn.

The new water station at Paterson Junction is now ready for service and Luckawanna engines will bereafter take water at that point instead of at West Paterson.

Ex-Special Agent P. O'Keefe, of the Lackawanna railroad, sailed from New York on Thursday for a pleasure trip to Europe. He will return the latter port of March.

M. J. FitzGibbon, formerly superintendent of motive power and machinery on the Lackawanna railroad, is now the general inspector for the Chi cago Pneumatic Tube company. makes his home in this city, but is or the road much of his time.

A strange coincidence happened yesterday on Lackawanna avenue, when ex-General Superintendent E. G. Russell, ex-Superintendent of Transportation J. M. Daly and ex-Superintenden of Motive Power M. J. FitzGibbon were seen walking together. The trio at-

tracted considerable attention. M. B. Casey, the new superintendent of car service on the Lackawanna rail road, was the recipient of many congratulations yesterday on his appoint ment. Among the messages sent him was one from former General Superintendent E. G. Russell, and a large bouquet of flowers was also placed on his desk by admiring friends.

FLORIDA.
