WAGES SUED FOR.

Five Miners Bring Actions Before Alderman Delevan.

Five suits for wages were brought against the Black Diamond Coal comon Thursday before Alderman pany R. J. Delevan, of the Sixth ward. The plaintiffs in the cases were former employes, who claimed, amounts due them as follows: George Melon, \$4.46; Alexander Gogots, \$10; Charles Banker, \$4.50; William W. Banker, \$5.03; Philip Gogots, \$133.14. The company was represented by R. D. Stuart, esq., and Philip Gogots by Attorney Louis Gramer.

The first case called was that of George Melon, but he soon repented of his action and withdrew it, the alderman assessing him for the costs.

Philip Gogots, who claimed \$133.14 for work done during the months of October, November and December, next took the stand for himself. This case was a long and complicated one. It seems that before the strike Gogots and a partner named Smith took a contract with the Black Diamond Coal company to cut, load and deliver at breaker all the coal produced in the Black Diamond mine. The strike came on and no work was done for six During this time Smith left weeks. town and Gogots claims he gave up the contract, but that President Thomas agreed to give him \$2.50 per day for his labor, but that when he went for his pay the company said that they would have to hold him to his contract. The question involved in the suit was whether this contract was binding after work was resumed when the strike was declared off. Gogots proved by several witnesses that the company paid the laborers, and he claims that this was proof that the company, not he, were the employers of the workmer

Mr. Thomas, the president, claimed that instead of the company owing Gogots that the plaintiff owed the company about \$12, as they had paid to his laborers that much more than was coming to him. Mr. Thomas said that at no time did Mr. Gogots give up the contract. He had shortly after the strike asked for an increase in rates, but this was not granted. He said the laborers were all hired by Gogots and that the reason the company pathem because it was the custom where he came from; Gogots handed in the men's time and this amount was given them and deducted from the contractor's pay; the men had asked to have their wages so protected because they doubted Gogot's honesty. And then, also, this enabled the men to get orders for merchandise during the month.

Gogots admitted that he had hired the men, but claimed that it was for the company as he had been made boss and timekeeper by Mr. Thomas when the contract was surrendered. Both sides swore several witnesses and the attorneys made short pleas.

The remaining cases were similar in nature and were tried together. The amounts were for balances due over and above orders which they had been

door, in response to their knock, he was surprised and almost astonished to see so many unexpected visitors. He threw open the house and all through the evening displayed his hospitality Editor of to the utmost in making his guests

stay a pleasant one. Games and music were freely indulged in, and Mrs. Whipple, despite the short notice, served a bountiful collation as a finale to the evening's festivities. All departed with many expressions of felicty for the host and his estimable wife. Those present were Mr. and Mrs. E. Hadgins, Mr. and Mrs. James Addley, Mr. and Mrs. Williams, Mrs. James Bell, Misses Anna and Lizzie Walker, Bridget Fee, Annie Flynn, Bridget Mc-Cann, Katie Barrett, Anna Monahan, Lizzle Conley, Ruth Bell, Mamie Fee, and Messrs, John Monahan, James John and Patrick Fee, John Moran, George Blue, Patrick Golden, Thomas and William Cannon, James Kilhullen and William Roche.

THE FIRE STILL BURNING.

Blaze in Mine Near michmondale

Will Be Headed Off. Readers will remember that during the recent miners' strike a fire broke out in the Delaware and Hudson workings near Richmondale. Some time previous to that there had been a fire on the surface near the old Buffalo breaker and, cave-in occurring, part of the burning culm dump dropped down into the mine, igniting the coal. The strikers at once delegated men

o assist in subduing the fire. Their forts were, however, of no avail and the blaze rapidly spread. Seeing that he plan they were following would be futile, it was decided to check the spread of the fire by driving an opening across the vein of coal in the path the fire would naturally run. work is now well under way and it would seem as though it will accomplish the purpose desired. Several thousand tons of coal have been consumed already and the loss to the com-

pany will be heavy. The fire will, however, in all probability communicate into the adjoining workings of the new Buffalo colliery, although there is not a large amount of coal left there. The opening to the new drift being far removed from either railroad or breaker, the company has decided to let contracts to teamsters for trans-

porting it to the railroad. A TEMPORARY PUMP

Will Be Rigged Up for No. 3 Shaft for the Present.

A new electrical pump, made by the Hendricks company, is about to be placed in position on the site of the old Campbell pump house, near Brooklyn street. It will be run by an electric motor and will be run until the old pumps at No. 3 shaft can be put in operation again, the fire last Sunday having disabled them. Should the mines become flooded a large number of men would be thrown out of work. loss to both the miners ane Berean Baptist church, corner Linthe company would be heavy. Two pumps will be brought from Jermyn and installed at the foot of No. 3 shaft in addition to the pump which is now being operated at No. 1 shuft where nearly all of the No. 3 miners Young People's Society of Christian are now at work.

A CAUSE OF HEADACHE.

One Very Common Cause, Generally

Over-Looked.

Headache is a symptom, an indica-

tion of derangement or disease in some

organ, and the cause of the headache

is difficult to locate because so many

diseases have headache as a promi-

nent symptom; derangement of the stomach and liver, heart trouble, kid-

ney disease, lung trouble, eye strain

or ill fitting glasses all produce head-aches and if we could always locate.

the organ which is at fault the cure

of obstinate headaches would be a

head and throat; when the headache

is located in back of head and neck it

At any rate catarrh is the most

common cause of such headaches and the cure of the catarrh causes a

prompt disappearance of the head-

There is at present no treatment for

tion of the catarrhal poison from the

system through the natural channels.

Miss Cora Ainsley, a prominent school teacher in one of our normal

chools, speaks of her experience with

tuart's Catarrh Tablets as a cure for

them. She says: "I suffered daily

from severe frontal headache and pain

in and back of the eyes, at times so intensely as to incapacitate me in my

daily duties. I had suffered from ca-

tarrh, more or less for years, but never

thought it was the cause of my head-

that such was the case because the

headaches were always worse when-

ever I had a cold or fresh attack of

"Stuart's Catarrh Tablets were high-

ly recommended to me as a safe and

pleasant catarrh cure and after using

a few fifty cent boxes which I pro-

cured from my druggists I was sur-

prised and delighted to find that both

the catarrh and headaches had gone

Stuart's Catarrh Tablets are sold by
