New York, Feb. 5.—Today's market was very serive and ended the day generally higher, but prices of stocks went through many variations in the course of the trading. The market was extremely spotty throughout but the constant cropping out of new and aggressive points of strength served to overcome the disposition to strength served to overcome the disposition to sell on the part of think holders of long stock as well as by the bear traders, who were disposed to argressive tactics early in the day. The stred stocks shawed themselves not so yielding as those in other portions of the list and when the force of the selling movement had expensed itself the recovery in the steel stocks was an important influence in the market. It was rumored that Chicago and Eastern Illinois had passed to the control of Missouri Pacific or St. Louis Southwestern and the lately prevalent rumors of a general consolidation of the Southwestern railroad asystems still retained their force in speculation.
