RECEPTION AND DANCE TENDERED THEIR EMPLOYEES. Annual Gathering was Held Last Evening in the Main Stores, in Which Over 200 Participated—Republican Club Meeting—Committees Named for the Year—Funeral of Llew Herbert Yesterday Afternoon—William Connell Glee Club. Other Matters of Interest.

The secret of Clarke Brothers' success was clearly and conclusively demonstrated to the few outsiders who were permitted to enjoy their hospitality last night at the annual dance reception and luncheon given by the two hundred or more employees of all their stores in West Scranton and South Scranton. Their unbounded success lies in the fact that they know how to treat their employees, both in a business and social way, and when they undertake anything along either line it is carried out to the entire satisfaction of all.

Once a year every one of the army of clerks, shippers, drivers, managers, cash boys, cashiers and other help that goes to make up a great department store are assembled in what might properly be termed an immense surprise party, for none of them even know beforehand what is in store for them. The Clarke Brothers, B. M. and George, attend personally to the details, and when everything is ready start the fun going and merriment follows supreme for several hours.

Promptly at 9 o'clock last evening Professor Johnson, the blind pianist, struck up a rag-time ditty on the instrument which is always kept in the store for entertaining purposes, and the pretty girls and gallant boys who serve their employers and customers entered into the festivity with a willingness that bespoke "a good time" for all.

Two-steps and waltzes, polkas and five-steps, lancers and schottisches, quadrilles and other dances followed in quick succession, and at a half hour to midnight, all fatigued and hungry sat down to the delectable little luncheon imaginable. There were sandwiches and coffee, ice cream, bonbons and chocolates.

This enjoyable part of the program over, the guests assembled in the clothing department, where a number of stunts were performed by white

A Seal Within a Seal. An inventor has created a wonderful package that preserves the freshness and crispness of crackers, biscuit and wafers. The outside of the package is made of card board, scientifically treated; the inside is a lining of specially prepared paper. This preserves the daintiness and delicacy of the baker's best creations. The outside and the inside are so formed that one becomes a part of the other; forming the famous "In-er-seal Patent Package"—a package that is air tight, dust tight, moisture tight—the only package known that actually carries the goodness of its contents from the oven to the table. It can be distinguished by the trade mark design on the ends.
