#### **NEWS OF THE** LABOR WORLD

HARD COAL MARKET.

With the Possibility of Trouble dividual opinion on points in dispute.

There is either a determined effort Ahead, the Companies Are Likely negie to Build Double Storage Mill.

The increased activity in the hartool trade, due to the cold wave, still solds on and demand is good at all soints. What will happen with the seming of warmer weather, however, s not difficult to be seen. At present, demand at Western points is pretty strong. At the head of the lakes supplies on the docks continue to strink and some firms will now sell only to their regular customers. At Minneapreliance of consumers. In Chicago D. L. and W. board for today: territory retail buying has been active roongh to have some effect on the realloard, the market is governed almost wholly be weather conditions theric buying decidedly bolds up well, however, particularly tor store and nut siz-8.

The very low prices for soft coul a New York harbor and other ports, owing to forced sales, have probably least ded the demand for the sterm sives of antimorite a little. Prices. zen ally continue pretty flent except on proken and egg sizes.

sol-commission of the United carry industrial commission has been he session at New York, and the daily

papers have published more or less detailed accounts of the testimony of the worthy gentlemen summoned before it. Apparently the members of the commission appreciate the posi-tions they hold and are content to take general statements without going INCREASED ACTIVITY IN THE too deeply into details that involve more or less exertion. The testimony so far presented simply states well-known facts, with occasionally an in-

on foot to spread the impression that to Have Considerable Coal Stocked a strike at the collieries is bound to by April 1 at Eastern Points. of the United Mine Workers feel that The D., L. & W. Board for Today.

Meeting of the Journeymen Bakers and are likely to make demands that Will Be Held This Evening—Carnegie to Build Double Storage Mill. prespects of trouble are threatening. The men are apparently determined to secure further concessions and the empanies are likely to reply that rade conditions do not warrant any persone in wages or lower prices ou

With the possibility couble ahead, the companies are likely to have considerable coal stocked it Eastern points by April L. Engine-ring and Mining Journal.

SCRANTON'S SHOPPING CENTER.

## Silk Waists for Spring.

#### Exquisite New Kinds and a Bargain Lot

A manufacturers' entire line of samples (one of a kind) many of which are original French Waists brought here for models. All at 1.3 less the regular prices. The whole showing is ready for you today. We need to say very little about it beyond telling you that much, and adding the remark that it is a collection that we are proud to show.

The makers are the best and most reputable in the business. The prices are from \$3.75 to \$30.00. Further than this there is little that can be said in type or talk. Such indescribable exquisiteness as is shown in these had best be left to do its own advertising. Attempts to word-paint sunsets, Niagara, rolling mills at night, and French costume and lingerie at their best, are generally painful for both writer and reader and pale failures besides. So you must see the waists to learn what can be done with lace and ribbons and color harmonies.

Prices on these samples are very much in your favorfor instance:

# The Union College of Painless Dentistry Association

has proved to be one of these instanteous successes which rise by leaps and bounds from the sheer force of merit. Our aim is to benefit humanity, and that we are doing so must be apparent. to the most casual observer.

Every day brings us crowds of new patients as well as applications from fully qualified dentists now in active practice who desire to study the method by which we have robbed dentistry of its terrors by rendering the most difficult and trying of operations absolutely painless, and that without the use of Gas, Chloroform, Ether or any other form of anæsthetics to render the patient unconscious.

### The Faatz Painless Method Has Proved an Unalloyed Blessing

as scores of men and women in this city can already youch for, while the quality of work done is of such a high class character that improvement is simply impossible, when judged by the best : Hotel Victoria standards of merit known to the dental profession.

These facts have compelled us to look for more commodious quarters, as at present it is frequently impossible for patients to be waited on, and as we have expanded as far as we possibly can in our present quarters, there is nothing for it but to find a building with a capacity sufficient to cope + with our business demands. Meanwhile more dentists have been enrolled to take our Post-Graduate : Course, and we are pushing work forward both night and day, so that delays will be less tedious than \* they have been.

### And Now a Word To the Public in General.

Success always brings malicious criticism and slander. It has been so since the world began, and we presume it will be to the end. It is only natural that dentists who have been in the habit of charging exhorbitant fees and ! who now feel their patronage slipping away from them, should feel ugly over it. That's human nature in its silly form, and to us it affords considerable amusement. But the people will not be misled. Merit counts every time, and we stake our reputation solely on merit and fair dealing with the public, all the kicking, criticism and slander in the world can never hurt us. We will continue as heretofore to give our patrons

All Work is Positively Guaranteed by Us for Ten Years.

### Reader, Just One More Word, Please,

C. S. FAATZ, our general business manager is not a stranger to Scranton. He has been a resident of the city for twenty years, and will probably remain for as many years : more, as the Union College of Dentistry is a permanent institution, established not for a day or a year, but for all time.
