## A MOST SUCCESSFUL RECEPTION

George and Martha Washington, Secretary Hamilton and Miss Custis

The Lade Washington too in the parlors of the First Methodist Episcopal burch in this city last evening was pers ever given in Carbondale. It was a splendid one. A corps of attractive oung todies with powdered hair took ere of the wants of the guests, and the tables were set and viands served n'n way that would induce an appetite in the most confirmed dyspeptic. But the chief attraction, strange as ti may seem, was not the supper nor the pretty waitresses nor the decorations of the table. George Washington and his amiable spouse, recompanied by Secretary Alexander Hamilton and Miss Nellie Custis were present in all their finery and quaint costumes of a FRIDAY, 2 P. M. entury ago. A fascinating little quartette it was, and the hundreds of eyes that gazed upon them were not content with a single look, but turned and stared as if their owners could never how to Become Informed, he satisfied. Four prettier children would be hard to find, and the exactness of details of their costumes made their attractiveness more magnetic.

As the visitor to the tea came into the parl is he was met by Mrs. Meaker, from whose private school the visiting quartette came, and introduced to Secrestary Hamilton, who stood at the extreme end of the line of the quartette. The four stood upon raised dais, ornanented with American flags, Secretary Hamilton shook hands and introduced General Washington, who in urn presented Martha, and Mrs. Washington, after a cordial handshake made you acquainted with Miss Cusis, her adopted daughter.

## MASONS IN HARD LUCK.

Start for a Banquet in Binghamton,

and an Engine Breaks Down. A number of Masons from this city and surrounding towns went to Binghamton on Wednesday night to enjoy a blow-out and the fine degree work given by Otseningo lodge, Free and Accepted Masons, of that city. The party split up into two squads. one going by way of the Delaware, Lackawanna and Western from Scranton, and the second section deiding to go by the Delaware and Hud-With the former crowd this

story has nothing to do. The Delaware and Hudson journeyers boarded the train for Ninevah at 4.30 o'clock and all went well until they reached the railroad yard about half a mile along. There the engine. unaccustomed to pulling such a party of solid, well-fed men, balked and could not be persuaded to act good and go along serenely. So it was unyoked and an hour and a half was spent in getting another in trim, while the blue lodge members spent the fleeting minutes in trying not to get into mood to match the trimmings of their aprons.

After the second engine got started went along all right, but much slower than the schedule called for and when it wasn't stopping at stations it hesitated considerably all dong the line. Visions of the elaborate spread awaiting them at Binghamton helped to dispel the gloom for a while, until it was disc that if the train wasn't hurried up a bit they would miss that, too. the gloom settled down as thick as a

They were escorted to the well-cleaned tables, however, and a careful search revealed enough eatables to supply their appetites. But they had entirely missed the degree work, for which they had

travelled all those weary miles. Those from this city who got to Binghamton in time for all the cere monles, by going by the Delaware, Lackawanna and Western, were Dr. W. W. Fletcher and John B. Shannon. It would be cruel to tell the names of the disappointed ones.

Hon. W. N. Roach, United States Senator from North Dakota.

Hon, W. N. Roach, United States Senator from North Dakota, personally endorses Peruna, the great catarrh cure and fonic. In a recent letter to The Peruna Medicine Company, at Columbus, Ohio, written from Washington, D. C.,

"Persuaded by a friend I have used Peruna as a tonic, and I am glad to testify that it has greatly helped me in strength, vigor and appetite. As a result of the changeable climate, catarrh has become one of the most prevalent and universal diseases known to man. Nearly one-third of the people of the United States are afflicted with ca-

tarrh in some of its many phases and stages. Add to this the fact that catarrh rapidly tends to be-come fixed or chronic, also the further fact that it is capable of producing a great many other dis eases, and we begin to realize the true nature of this dread disease. So formidable has catarrh become that in every city or town of any size numerous doctors are to be found who make the treatment of catarrh a specialty. Of course a great deal of good is accomplished in this way, but as yet a compara-tively small number of the people

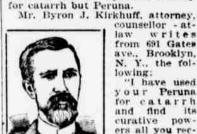

can avail themselves of this treat-

necessarily attached to it.

To all such people Dr. Hart-man's remedy, Peruna, comes as a great boon. Not only is it more successful in curing catarrh specialists, but it is within the reach of every person in this land. Peruna can be bought at any drug store. and is a remedy without equal for cutarrh in all forms, coughs, colds, bronchitis, consumption, and all

climatic diseases of winter.

Peruna is not a guess, nor an experiment; it is an absolute, scientific certainty. Peruna cures ca-tarrh wherever located. Peruna has no substitutes—no rivals. Infall I had a sist upon having Peruna. Let no bad cough, I one persuade you that some other four remedy will do nearly as well.
