SPRING FASHIONS ARE DISCUSSED

A Glimpse at Designs and Materials That Will Be Popular During the Coming Season.

New York, Feb. 23.—Shift waists are not the only things which are made up early for summer wear, for already new neckties, lawn and silk blouses, and many other articles of summer dress are being made up. Valenciennes lace seems to be very much used for trimming this advance assortment of thin gowns and some of the colored lawn skirts are striped all around in vertical lines from the waist to the hem, which are edged with lace. There is nothing especially new in designs as yet, but any kind of ruffles trim the skirts and there is the same full waist with a white yoke and a lace trimmed bertha collar around the shoulders for a finishing touch.

TOMMY OSGOOD AND THE CAT

A SUSQUEHANNA BOY'S NARROW ESCAPE.

Susquehanna, Feb. 22.—Near the Cascade, there is a lumberman's camp, where a large force of men are getting out railroad ties, mine props, etc. On Wednesday a 14-year-old boy named Tommy Osgood visited the camp to watch the men work. As it began to grow dark, the boy started for home, when he was startled by the cry of a wildcat, followed instantly by another, and in a moment two large cats made their appearance a short distance away. Tommy, fully aware that his life was in danger, sought safety in flight, and the ugly brute, half famished during the severe winter, immediately started in pursuit.

A DUCK RETURNS HOME.

A Lanesboro poultry dealer recently sent five live ducks to Stamford, Conn., a distance of 220 miles. One of the ducks, a black one, had not had its wings clipped. On Wednesday it began to grow dark, the boy started for home, when he was startled by the cry of a wildcat, followed instantly by another, and in a moment two large cats made their appearance a short distance away.

MATTERS IN BRIEF.

The annual banquet of the Susquehanna board of trade was held at the Starbuck House on Thursday evening and largely attended. Dr. Samuel Birdsall was toastmaster. Following were the toasts: "The Twentieth Century," John D. Miller, esp.; "The Infamular George Washington," William A. Skinner, esp.; "United States Is," Rev. Charles Henry Newing; "The Real Side of the Question," John Ferguson, esp.; "Our Borough," Dr. W. W. Seale, esp.; "Centralization," Rev. C. W. Bond; "The Engineer and the Policy of Expansion," Dr. S. S. Simmons, Warner and Brothers' orchestra furnished music for the occasion.

UNEXPECTED VERIFICATION.

If Montrose has a centennial celebration, a few of the first settlers will have to return to earth and start the affair all-rolling.—Whitney. It begins to look as if the above statement is correct. These "first settlers" are as alive in the matter now as their descendants. And only the shame of it.—Montrose Republican.

ANOTHER SOCIETY EXPOSE.

We spoke last week of the Exalted Order of the Munchausen, and a correspondent wants some information about them. They are an association of choice spirits, each one of which has at some time in his life, and most of them frequently, told some tale so wildly improbable that their credulity is almost unbelievable. They are as true as steel in their own minds, and their tales are as true as steel in their own minds, and their tales are as true as steel in their own minds.

EARLY MAN A SAVAGE.

A Cardano professor asks: "Was the early man a savage?" That depends. If the early man arose at 4 a. m. and ran to the station, in order to catch the first train east, only to find that he was too early by about four hours, it may be safely said that he was somewhat savage.

IN A LINE OR TWO.

Be kind to the poor. Be charitable for charity's sake. The man who advertises in the newspaper has nothing to cover up in his business transactions.

SOME SHORTS.

The Erie is enjoying a heavy freight traffic. The Erie ran a cheap excursion to New York last night.

TWIN TROUBLES.

They Are Often Together These Days. They Work Hovee All Over the Country and in Scranton. Weak, nervous, the digestion out of order, that is what ails a host of people. It comes about in this way: First, from overwork or other causes, the nerves are burdened beyond endurance, nerve waste is not replaced, nerve force is weakened, then the stomach loses its nerve-controlling power and indigestion follows.
