Four Ministers Tell of Magical Results Brought About

in Burning, Itching, Bleeding Skin Troubles by Dr. Chase's Ointment. Dr. Chare's Ointment draws more praise

dorsed by every profession

Extracts from their Letters.

Rev. W. N. Edwards, Baptist minister, tog Trinky Place, Buffalo, N. Y., writes: 'For over fifteen years the itching piles have been a source of constant annoyance to me, and frequently, too, the suffering has become intense. At times there was bleed-ing and the itching and burning was beyon! The results I have derived from Dr. Chase's Ointment have been magical and the benefits lasting. I feel it a duty to fellow sufferers to recommend it.

Rev. J. N. Van Natter, Methodist ministar, Albion, Wis., writes: "My wife was terribly afflicted with protruding piles and contemplated a surgical

operation when her notice was drawn to Dr. Chase's Ointment, and less than one box 'I then used it for an unsightly and

troublesome skin affection, which had bafiled medical skill for twenty-five years. Dr. Chase's Ointment thoroughly cured it. For piles and skin disease it is worth its weight in gold.

Rev. J. A. Baldwin, Baptist minister, Arkona, Ont., writes:
For over twenty years I was a great suf-

ferer from itching and protruding piles. I used many remedies and underwent three very painful surgical operations, all without obtaining any permanent benefit. When about to give up in despair I was told to use Dr. Chase's Ointment and did so, finding relief at once. I used three boxes, and an The itching is all gone. I have advised others to use it, believing it would cure them as it has me.

Rev. Chas. Fish, Methodist minister, 192 Dunn avenue, Toronto, Ont., writes. Ten years ago eczema began on my ears and spread over my head and hands. Dur-ng that time I was a great sufferer. I tried any remedies, and some of the best physisians-specialists on skin diseases-treated The first box of Dr. Chase's Ointment gave much relief and five boxes completely tured me. "That we request all mine workers to associate themselves with their organization and cease work on Apri' 1, unless paid scale rates,"

The resolution was understood by the delegates to virtually be a dee lution, and that the base of the milimand for all operators in the district tary operations and supplies will be to pay the scale. April I, 1901 was declared a holiday to celebrate the adopt alleges that President Diaz' illness is tion of the eight-hour movement, due to poteon administered by members Thus the convention goes on terotal as of the society, opposed to any other day, although the operators prefer nine hours. Among the other resolutions adopted

Where there is an agreement be tween the operators and miners, no man be employed unless he can present a working card; abolition of company stores and organization of co-operative stores; all free cliques be abolished; asking the legislature to repeal all acts contrary to the ninety day lease: declaring any man a "scab" who loads coal by the car or day: condemning the compulsory education

law; fixing the initiation fee at \$2.50. The scale committee reported this afternoon and a secret session was held to consider the report. National SecretaryTreasurer Wilson was present and participated in the discussion. The scale will be presented to the operators tomorrow for their acceptance or rejection. It asks 60 cents a ton for pick mining, last year's rate, twothirds differential and pay for all dead work

The operators' proposition will be 55 cents, which is the Maryland rate, They claim that this district has an advantage over the Patisburg field, Another argument is that trade conditions do not justify the payment of 60 cents. The operators do not anticlpate a strike.

AUTOMATIC SCULPTURE. Machinery Threatens to Displace the

Artists' Chisel in Italy. In his report on the trade of Southern Italy. Mr Neville-Rolfe, the British consul, has an extremely interesting article on automatic sculpture, Signor Buoniempi, he says, has devised and patented a machine by which a marble reproduction can be made automatically by erosion, machine can be driven by any kind of melive power, and consists of a horizontal rod having at one end blunt wooden traveler, and at the other a steel gouge, both working vertically. The wooden traveler is made to fellow closely the lines of the model. while the gouge at the other end

It cuts the marble as if it were cheese, the first time with a large, strong tool, and subsequently with finer instruments until the detail is finished with a gouge no bigger

than a bodkin. Mr. Noville-Rolfe speaks of the enormous speed with which the work is recomplished. The object is finished with the machine to within one-sixteenth of an inch of the size of the model, and then the artist adds expression and individuality to the work. The machine can do as much in three hours as can be done by one man in three days, and any intidlizeni workman can work the me-For scroll work on architraves and cornices it acts like a charm; and it will curve stone more cosily than
