

WEST SCRANTON

Y.W.C.A. GIVES A RECITAL

WILLARD HOWE WAS ONE OF THE ENTERTAINERS.

Well Known Impersonator Was on the Programme at the Literary and Musical Recital Given at the Washburn Street Presbyterian Church—Meeting of Odd Fellows, and Organization of Glee Club, Royal Arcanumites Celebrate Their Twelfth Anniversary.

Owing to the inclement weather, a small attendance was present at the Washburn Street Presbyterian church last evening at the musical and literary recital for the benefit of the Young Women's Christian association. Those who attended were well repaid. The principal attraction was Willard Howe, the well-known impersonator, who was assisted by local talent.

The church orchestra rendered an opening overture, "The Bird Party." Mrs. Lillian Joseph Kollar, a soloist possessed of a sweet voice, which has delighted many West Side audiences, sang, "Who'll Buy My Lovin'?" She was accompanied by an orchestra and sang, "Little Boy Blue." Mr. Howe followed with several humorous selections. The applause and laughter were frequent and hearty. His stories and impersonations were excellent.

Harvey J. Blaisdell delighted the audience with a cello solo, "Simple Aven." It was excellent. "How Blue, Thou Winter Winds," a bass solo by Thomas Hall, of Waverly, was a number that was greatly appreciated.

Mr. Howe impersonated the characters in the rehearsal, "Pyramus and Thisbe." His descriptive powers are so complete that every character depicted or incident narrated seemed to be actually before the audience. His efforts were greatly appreciated and he was compelled to respond to numerous encores.

The programme concluded with a selection by the church orchestra.

Silurian Glee Club.
Silurian lodge, No. 762, Independent Order of Odd Fellows, met last evening in Evans' hall, on South Main avenue, and transacted considerable business. A glee club was organized to participate in the sessions of the lodge at installation and when the work of the various degrees are held.

DUNMORE DOINGS.

Condition of Borough Streets—Resolutions Passed on Death of William O'Connor by Royal Arcanum.

The condition of the streets in general, and South Blakely street in particular, is the worst seen in some time. That part of the Blakely street which was torn up by the gas and water company last fall is in an impassable condition, it being necessary to have it guarded by a night watchman.

As pedestrians plod their weary way over crosswalks covered by three to six inches of this mud they try to fashion the workings of the ungodly minds that decided that the proper place for a sidewalk is several inches lower than the road level.

Resolutions Were Passed.
William H. O'Connor, who was killed some time ago at the Bunker Hill crossing in Dunmore, was a member of the Royal Arcanum council of this place. At a recent meeting of the council the following resolutions were passed:

Whereas, William Hugh O'Connor, an honored member of Dunmore council, No. 1297, Royal Arcanum, has been removed from us by death, we deem it fitting that we should make some public expression of our loss and that we should bid farewell to his remains; therefore, be it resolved, That in the death of William Hugh O'Connor the council has sustained a serious loss, as he was a faithful attendant at the meetings of the council and an ardent advocate of Arcanumism.

Resolved, That we extend to the bereaved family our heartfelt sympathy and some form of the legal notice in which the deceased was held by the members of this council.

Resolved, That a copy of these resolutions be placed in the hands of one member of the council and be read to the daily papers in connection with publication.

Borough Funerals.
The funeral of the late Mrs. Martin Loughlin was held from the home of the widow street yesterday afternoon and was largely attended. Interment was made in the Catholic cemetery.

The funeral of the late Mrs. Margaret A. Weed will take place from the home of the widow street, at 2 o'clock on Monday afternoon, at 9 o'clock at Holy Cross church. Interment will be made in Waymart, where deceased formerly resided.

At the Churches.
Dudley Street Baptist church—Preaching by Rev. G. W. North at 10:40 a. m. and 7:30 p. m.; Sunday school at 12 o'clock; prayer meeting Thursday evening at 7:30 p. m.

E. Robinson Sons' Celebrated Book Beer on tap Saturday and all next week.

AFTER EFFECT OF GRIP.

Are Often More Serious Than the Grip Itself.

Physicians and grip sufferers alike are agreed that the after effects of the disease are more to be feared than the acute attack; you can never be sure that the disease has left the system completely.

Lactippe naturally attacks the weakest organ and leaves it still weaker. Not only pneumonia, consumption, bronchitis and throat troubles follow the grip, but kidney, liver and stomach are troubled just as liable to result, provided any of these organs should happen to be in a weak condition at the time of attack.

To get rid of the grip germs, to get rid of the system and blood, few remedies are so good and none safer than Stuart's Cathart Tablets; they are not a compound of powerful and dangerous drugs, but a pleasant, palatable, convenient remedy in tablet form, composed of the wholesome antiseptic principles of Eucalyptus bark, blood root and similar germicide remedies which are perfectly wholesome and harmless to the system, but death to the germs of grip, catarrh, consumption and diseases of the throat and air passages.

Mrs. Charles Gormley, of Memphis, says: "Last winter an attack of the grip left me with weak back, a persistent cough and loss of flesh and appetite and after using various remedies for several months with little or no improvement I finally bought a 50-cent package of Stuart's Cathart Tablets at my drug store, and as they were pleasant and convenient to take I used them at all times of day or night and I was astonished to secure such fine results from so pleasant and convenient a medicine. In two weeks my cough disappeared, my appetite returned, I improved in flesh and color and no one would now think that I ever had anything as the grip."

"My druggist told me he sold more of Stuart's Cathart Tablets, for the cure of grip, colds and catarrh, than any other similar medicine."

ALUMINUM HOUSES.

One of the Uses to Which the White Metal Is Put.

Two years ago when the Klondike fever was at its highest point, one man saw the necessity of establishing living places for the many who were bound to spend the winter in the gold fields. He conceived the idea of making small houses of aluminum, and carried out his idea by having sheets of proper size made for shipment there. Possibility that was the first time aluminum was used in this way of house construction. The lightness of the white metal, combined with the manner in which it could be stored away, had recommended itself as being superior to any other material for the purpose desired.

The Pan-American exposition visitors will have the opportunity of seeing a small building made of aluminum. Aluminum is manufactured at Niagara Falls with the use of the electricity generated there in large quantities. Niagara is the principal aluminum manufacturing place in the world, and the white metal is a product of the two principal factories located there, current being taken from both of the great power companies.

The Pan-American structure that is to be made of aluminum will be located in the Manufacturers and Liberal Arts building. In shape it will be octagonal, and it will be as large as can be built in a space fifteen feet square. The height will be about twenty-two feet and it will be made of No. 24 sheet. The architecture will resemble the Spanish renaissance, practically the same style adopted for the buildings of the great exposition. Its lines will be graceful, and there will be a beauty about it that will win admiration for aluminum. No doubt the presence of this building at the exposition will induce numerous ideas to inventive minds whereby aluminum in similar sheets may be used to add to the beauty and utility of the various structures. Pure aluminum is so white and silvery in appearance that it will be hard for many to believe that the building is not a genuine silver palace. It will be a new spectacle in the architecture of the world as well as young will be interested in it. During recent years the price of aluminum has been so reduced that it has now reached a point where it comes in close and successful competition with several of the other cheap metals. That is why it enters into the manufacture of so many articles, the display of which at the Pan-American exposition will excite much favorable comment.

NORTH SCRANTON

ENTERTAINMENT GIVEN BY CHRISTIAN ENDEAVORERS.

North Scranton Society Entertained Endeavorers from All Parts of the City at the Providence Presbyterian Church—Euchre Contest Which Was Held Thursday Night. Coming Basket Ball Game to Be Played by the Stars—Other News Notes and Personals.

A social and entertainment were given last evening by the Christian Endeavor society of the Providence Presbyterian church to the Endeavorers from different parts of the city in the church parlors.

A large number of delegates from different Endeavor societies were present and had a most enjoyable time.

An excellently arranged programme was rendered. Messrs. Guild and Gilligan sang a vocal duet in a very pleasing manner, while Miss Lulu Constantine, the well known elocutionist from this section, recited one of her favorite pieces.

Misses Peas and Smith rendered a piano duet, and after the entertainment a very pleasant and sociable time was spent.

Euchre Contest.
The Marquette council, Young Men's Institute, and the O'Connell council, of Dunmore, played a game of euchre in the Marquette council rooms in St. Mary's hall Thursday evening.

A large number of members of both societies were in attendance and a very lively contest was seen.

Both teams worked hard to capture the prize, but the visiting team was successful, the score being: Marquette, 158; O'Connell, 142. A smoker was given after the game.

Basket Ball Game.
The North End Stars' basket ball team has arranged to play a game of basket ball next Monday afternoon and evening. In the afternoon they will play the well known John Tighe's gymnasium team.

Mr. Tighe has one of the strongest teams in this part of the state, all his players being well known in athletic circles throughout this section.

In the evening the Stars will meet Wednesday evening at the O'Connell council rooms. The undisputed champion team of Northeastern Pennsylvania.

This will be the third time the Stars played the seminary boys and attempt to take from them the championship, which they have held so long.

Wrestling school in the evening will be held at 2:30 o'clock; in the evening at 8:30 o'clock.

REJECTED!

IT IS but a few years since Insurance Companies insisted on a chemical analysis of the fluids of the body of applicants desiring insurance in large amounts. Now, every applicant must undergo such examination, no matter how small the amount of insurance asked for. The Insurance Companies have learned wisdom by experience. They know for a certainty that the only sure way of detecting Bright's disease in its first stage is by a chemical analysis and they govern themselves accordingly. Many men applying for insurance and finding themselves rejected, are dumfounded when told they have kidney disease. Why? Because they look and feel well, suffer no pain, and have a good appetite. But the unerring microscope in the hands of the intelligent physician, has unmistakably shown the beginning of the end, unless repaired, of the breaking down of the delicate tissues of the kidneys. Happily, if taken in time, there is a cure for kidney disease. We say this with entire confidence, because thousands have so testified, and hundreds have obtained life insurance following a course of Warner's Safe Cure, after having previously been rejected because of incipient Bright's disease. Men, do not leave your dear ones dependent through your own carelessness!

Write Warner's Safe Cure Co., Rochester, N. Y., today for free sample of Warner's Safe Cure and full particulars how to proceed to secure an absolutely correct microscopic examination.
