Holy Thursday Services Were Conducted in Several of the Churches Yesterday—Branch 97, L. C. B. A.

Will Hold a Progressive Euchre and Social—Robert Morris Lodge and Republican Club Meeting. Funeral of Leah Evans—Died in Colorado—Notes and Personals.

Today is Good Friday. The most solemn day in the church calendar will be observed throughout all Christendom with services commemorative and appropriate to the occasion. In St. Patrick's Catholic church the mass of the pre-sanctified host will be celebrated, while in St. David's Episcopal and St. Mark's Lutheran churches services according to the rituals of their belief will be held.

On Saturday morning in St. Patrick's church services will commence at 7 o'clock. After the mass the holy water will be blessed and the oils used during the year will be consecrated. Easter Sunday, a solemn high mass will be celebrated and special music will be rendered by a largely augmented choir. The annual Easter collection will also be taken up at all the masses.

At St. David's Episcopal church the services will be matin and vespers and will commence at 8 o'clock. There will also be services in the afternoon from 12 to 2 o'clock. Offerings of flowers and potted plants are asked to decorate the altar for Easter. Special music is being prepared for the Easter services.

Rev. A. L. Ramsey, of St. Mark's Lutheran church, has been conducting special services during holy week, and much interest has been manifested in them. He will conduct the services at his church today and on Easter Sunday.

The Holy Thursday services at St. Lucia's Italian Catholic church, on Chestnut street, were especially elaborate, and many Catholics of all classes visited the church during the day. The repository, where the blessed sacrament was exposed, was beautifully decorated with flowers and plants.

Rev. Father Dominick will celebrate the mass today and on Easter Sunday. The music on that day will be under the direction of Miss Mary L. Cavanaugh, organist. Tomorrow's mass in E. Flat will be rendered, Miss Rose Art...

son and Miss Mary Cavanaugh and Messrs. Joseph Flori and Thomas St. Julian will sing the solo parts. The choir will be assisted at the mass by the Fours orchestra.

Rev. Father Pricker will celebrate the various masses at St. John's German Catholic church. The Greek Catholics will also commemorate Good Friday with special services.

It is customary at all Catholic churches on Good Friday for the faithful members of that faith to assemble at the churches in the afternoon about 3 o'clock, so as to be in the presence of the sacrament at the hour when Christ is supposed to have expired on the cross, and undoubtedly the local churches will be visited by many during the afternoon.

## NORTH SCRANTON NOTES.

**Sacred Cantata Given at M. E. Church—Excellent Programme Acceptably Rendered.**

What was perhaps the finest sacred cantata ever heard in this section was given last night at the Providence Methodist Episcopal church, under the direction of chorister J. H. Conroy, assisted by the church choir.

The audience of the church was crowded to its utmost by persons eager to hear the programme which was rendered. The church was beautifully decorated with large palms, ferns and potted plants. The platform was covered with large and fragrant flowers behind which a grand chorus of over fifty voices was stationed.

In the first part of the programme, "The Brightest and Best," was rendered by a quartette consisting of Joshua John, Mrs. J. H. Conroy, Mrs. E. A. Weatherly and Professor R. H. Martin in a most pleasing manner and won from many singers, Joshua John, the well known tenor singer, rendered a solo in an able manner and also received many encores.

**Injured at the Pancoast.**  
Fred Halperin, a well known young man of this section, met with a serious accident Wednesday while at work in the Pancoast mine at Thorop. He is employed as a runner and was running some cars on the track.

When the car came opposite him he threw a spig in one of the wheels as he had done in the past, the car accidentally struck some object at the moment he sprang it, causing the car to jump the track and collide with him, fracturing his left leg in two places.

He was removed to the surface and then to his home on Florence street, where Dr. Peck was summoned and rendered the fracture. Mr. Halperin's father had just left New York harbor on his way to England and word was sent him by wire but it was too late for him to return as the boat he had taken had just left port.

The quartette went to the clerk of the court's office yesterday to have marriage licenses issued, but Miss Ann Williams had to be removed to the hospital as she was only 15 years of age and did not have either of her parents present to give their consent. This will be some tomorrow and the license will be issued.

## Social Gossip

A very pretty afternoon wedding took place at Green Grove Wednesday, when Miss Fanny Waterman Smith, daughter of Mrs. Ida Smith, was married to Arthur Le Grant Clark, formerly at 230, to the strains of the Lohengrin wedding march, played by Mrs. George Clark, the bridal couple, preceded by the officiating clergyman, Rev. B. R. Hinton, entered the parlor and under a beautiful arch of evergreens were united in holy matrimony; the ring ceremony of the Methodist Episcopal church being used. The bride was charmingly attired in a gown of gray cloth, with duchesse lace trimmings, and carried a bouquet of bridal roses.

After the serving of delicious refreshments the bridal couple left for an extended trip. Upon their return they will reside in the newly furnished home provided by the groom's parents, Mr. and Mrs. J. L. Clark.

Mrs. Clark until recently has resided in Dunmore, where her charming traits of character are well known to a host of friends, who unite in wishing herself and husband a prosperous journey through life, while Mr. Clark's many friends attribute his character to his firmness of mind and his sincere friends in every community in which he is known, all of whom extend heartfelt congratulations. Many beautiful and valuable presents were received.

Miller and wife of this city. It was in the nature of a farewell to Major Miller, who is now conducting his last inspection of the Third brigade, having been appointed as assistant adjutant general of the Third brigade.

The entertainers of the Lackawanna railroad, with their wives, gathered at the home of Mrs. Charles Gargigan, on Lackawanna avenue, on Wednesday night in her absence, and when she returned she found her home in possession of her many friends. After she recovered from the surprise she entertained her company in a pleasing manner. During the evening Mrs. Gargigan was presented with a handsome tabouret and fern. The evening was spent in all sorts of merriment, after which refreshments were served. The friends then dispersed, wishing their host many happy returns.

## THE FOOLISH FISHERMAN

There was once a fisherman who started out with a brand-new seine to earn a living. He was a very industrious man and toiled hard, and for a time was quite successful. But the constant use of the net, and the strain put upon it, began to weaken it. A mesh broke here and there. Presently these breaks extended and gave an opportunity of escape for some fine fish. Neighbors said, "Why don't you mend your net? You are losing fish." But the fisherman said, "I haven't the time to mend the net." So in time the holes in the net united into one huge break through which the larger per cent. of the fish escaped, and with all his effort the man grew poorer with every day's toil.

What a foolish fisherman!  
Very foolish, indeed. But he is a very fair type of a class of people who start out in life with good sound stomachs. Then disease begins to cause weakness. Just as a few fish slipped through the first rent in the net and were lost, so now, there begins to be a slight loss of the nutritive values of the food eaten, because the stomach and organs of digestion are "weak" and incapable of perfectly performing their duties. If these first symptoms of disease are neglected, the loss of nutrition increases. Just as much food is eaten, but for it all the body grows poorer. The nutritive values of the food are being largely lost. The fish are slipping through the big hole in the net.

What folly for a fisherman not to take time to mend the net through which the fish are being lost!  
How much greater folly is that of a man or woman who won't take time to cure the diseased condition of the stomach and its allied organs, through which is being lost the nutrition of the food eaten. They eat but are not fed. They eat but grow lean of body and light of weight. The net of the stomach is letting the food-slip through the rents of disease.

The strength of the body is sustained by food when it is properly digested and converted into nutrition. There is no other means of sustaining the physical life than by the nutrition derived from food. The common cause of debilitated and "run-down conditions" is lack of nutrition. The body is in a condition of semi-starvation, and heart, liver, lungs, kidneys, and every other organ may be involved in disease because they must suffer from lack of nourishment.

"Put the patient on a specially nourishing diet," says the doctor. That's like saying to the fisherman with a big hole in his net, go and try a cast where there are more fish. But the trouble is not lack of fish, but the big hole in the net. So with nutrition, the trouble is not lack of food but the condition of the stomach and digestive and nutritive tract, which prevents the assimilation of the nutrition derived from the food eaten. It is not what is eaten that nourishes the body, but only that part of it which is digested and assimilated and enters into the blood in the form of nutrition.

That hole in the net must be mended before fish are caught and kept. That "weak" stomach must be made strong before the body can regain its strength. Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition. The remarkable results following the use of this medicine are due to that fact. The need of the body is nutrition. "Golden Medical Discovery" cures diseases that hinder nutrition, and so the body grows strong and lost flesh is regained, in the one way in which strength and flesh can be made—namely, from food digested and assimilated.

Thomas A. Swarts, Esq., of Sub Station C, Box 103, Columbus, Ohio, writes: "In June, 1891, I was taken very sick and doctors told me it would kill me if I did not do something for myself. I was taken with severe headache, then cramps in the stomach, and my food would not digest, then kidney and liver trouble, and my back got weak so I could scarcely get around. At last I had all the complaints at once, and I just gave money to the doctors whenever I thought they would do me any good, but the more I doctored the worse I got, until six years passed. I had become so poorly I could only walk in the house by the aid of a chair, and I got so thin I had given up to die, thinking that I could not be cured. Then I saw one of my neighbors, and he said, 'Take my advice and take Dr. Pierce's Golden Medical Discovery and make a new man of yourself.' The first bottle helped me, so I thought I would get another, and after I had taken eight bottles in about six weeks I was weighed and found I had gained twenty-seven (27) pounds. I have done more hard work in the past eleven months than I did in two years before, and I am as stout and healthy today, but the more I doctored the worse I got, until six years passed.
