THE SCRANTON TRIBUNE-FRIDAY, APRIL 5, 1901.

NEWS OF THE LABOR WORLD

DISMANTLING OF THE NORTH STEEL MILL.

It Is Now in Progress and the Machinery Is Being Moved to Buffaio. Strike of the Union Men Employed at the Woodward Mine-Work on the New D. & H. Freight Station Will Soon Begin-The D., L. & W. Board for Today-Odds and Ends of Industrial News.

It looks very much like moving time around the Lackawanna fron and Steel company's premises these days, and anyone gazing at No. 1 furnace and the North mill, upon which the work of dismantling has been inaugurated. cannot but realize that the big company will soon have left this city. The South steel mill is still in full

operation. Monday the work of dis-mantling was begun at the North mill, and the machinery is fast being removed. The mill was idle for some time and therefore its transfer will not mean as much or be as noticeable as that of the other,

The No. 1 furnace was blown out March 1, and shortly afterwards a large gang of men was put to work tearing down the brick sub-structure and dismantling it. Seven of the large metal sheets have been removed and already stripped. It is likely that a full month will be consumed in taking down the entire furnace and operations will then be started upon one of the other furnaces.

Four large furnaces will be included in the new plant. It is expected that by fall, or at least early winter, the entire work of dismantling will be concluded. The men employed at the dismantling work are all employes from around the shops, and the total number of hands now employed by the company is only about one-half as large as the former force. A large number of them will be

transferred to the Buffalo works. The boiler and pattern shops were shifted to the New York state plant last year, and the latter shops are already in full blast there.

Strike at the Woodward.

The employes of the Woodward colliery at Kingston, operated by the Delaware, Lackawanna and Western company, went out on strike Wednes day, and in consequence the mine was idle yesterday. The trouble arose over the second order promulgated by the United Mine Workers of America, it demanding that only union men should be employed in the mines.

It seems that a number of the old employes in and around the colliery are not members of the union, and when they ascended from the shaft on Wed nesday representatives of the United Mine Workers demanded that they show their working cards. This they could not do, and in consequence the members of the union refused to work with non-union men.

old Weston mill property to convert it into a handsome new freight station for the Delaware and Hudson company. A portion of the present struc ture will be torn down on the westerly side to widen the building, which will

called on Superint indent E. E. Loomis of the Lackawanna coal department, yesterday. The two first named gentlemen are officials of the Erie railroad and all have their headquarters at New York.

The Central Labor union will hold an important meeting Sunday afternoon, and a large amount of business requiring immediate action will come up for consideration. The committee on place of meeting will give its report and probably recommend the second floor of the Economy building as an admir-able place for labor headquarters. The ommittee on observance of Labor day will also make its report.

The long-looked-for changes in the ministration of the attains of the 'entral Bailroad of New Jersey will be brought about some time this month and we may then expect to see some changes in the locale of the Central station and heads of departments. This being a terminal point. the present officials do not anticipate any material change. The Philadelphia and Reading regime are taking hold of affair as rapidly as possible.

STILL LEAVING THE CITY.

Silk Workers Are Going to Factor at Other Places.

There were no developments of inte st in the slik mill strike situation ye erday. Daily, numbers of the gi despairing of a local adjustment of t existing difficulties, leave for Hoboke Jersey Heights, Paterson or Alle town and several intend to soon acce the effer received Wednesday from t newly established throwing mills Nutztown, Pa, Half a dozen of the Sanquoit git

esterday applied for transfer cards and left for Allentown, where the Kutz-town people have a plant. No meetings were held yesterday in the central city save the brief morning session of the executive committee. The latter

are busied sending out appeals for aid, as the union freasury has been very considerably thinned out by numerous demands made upor it. There is considerable talk of another big mass meeting and parade of the strikers and next week a committee will be appointed to arrange for the demonstration.

Wash Goods Week

You don't buy Wash Goods simply because they wash. You want dainty Summer wear, because they are dainty, pretty, serviceable and will wash, if need be. If you want the prettiest of the pretty wash goods now in vogue, reliable as well as beautiful, con. here for them. We have them all-Zephyrs, Dimities, Linens, Mouselines. All the dressy sweets that make summer the gayest time of all the year

| the the treasy sweets that make summer the gayest time of an the year |
|--|
| Mouseline De Soie==A silk material as distinctly Parisian as its name implies, |
| Exceptionally fine in texture, with all the distinguisha- |
| ble appearance of a costly Foulard Silk, presenting unrivalled attraction in style and |
| quality. This hint: Embroidered Mouselines, solid colors |
| Embroidered Lace Mouselines, solid colors |
| Embroidered Lace Mouselines, in beautiful floral designs |
| Mercerized Chambrays==A new cottou material with a fine soft silk finish, unrivalled for shirt waists, Colors, 35c |
| red, blue, piuk, buff |
| Mercerized Cheviots == A cotton material, silk finished, that has all the ap- |
| pearance of a brilliant mohair serviceable and |
| beautiful, solid colors |
| a state of the sta |
| some and sturdy material to choose from. The best TE |
| |
| Embroidered Crepes==A pretty cotton and silk cloth, light fine and 50c |
| Embroidered Swiss==In all colors, including black and white, and in \$1 1/2 dozen qualities, ranging in price from 25c to \$1 |
| Dimities==Pretty name, but not one whit prettier than 250 pieces of smooth summer |
| stuffs that are properly called by it. Fancy tinted stripes on white grounds |
| are some of them. Can you picture them and the tiny twill that all true dimities |
| own? Dashes, dots and dainties, until there isn't room enough here to tell you prop- |
| erly of them. Domestic Dimities121/3c Irish Dimities |
| Ecru Effects == In wash materials will be much in demand for the coming season, |
| and will no doubt be scarce later on. Our lines are now complete |
| in all details, ranging from the lowest grade up to a fine French Reveres at \$1.50 Yd |
| A Hundred Other Weaves and kinds of wash materials are here for your inspec- |
| tion, admiration and purchase—if you so desire. |

st trip. Brakennon Authony O'Neil will call at Train

G. W. West, superintendent of moive, power on the Ontario and West-'rn railroad, was in the city yesterlay. His headquarters are at Middle town, N. Y.

John T. Porter, the commission merhant, has re-leased the old Jersey Central freight house, and yesterday workmen were engaged in decorating the building with signs signifying that it is Porter's warehouse.

There are vacancies in Lackawanna passenger and freight service as follows: Brakeman for trains 5 and 6 brakeman for Binghamton lay-over lo cal, Conductor Keller. Applications will be received by Trainmaster J. J. McCann for fifteen days. The latter vacancy is to be filled by a Hallstead man

of 800 class Lackawanna engines per-mitting their firemen to dump ashes on the main track between Pocono Summit and Spragueville must be discon-tinued at once. When necessary to clean five or dump ashes it must be done at Gravel Place, instead of ou Pocono Mountain.
