In the evening "The Operatic" was the attraction, Little Irene appearing in the role of Louise, the blind girl, in which part she is decidedly clever. THE MARKETS.

Wall Street Review. New York, April 10.—The speculation for the advance was renewed in force on the stock exchange today and the market resumed much the same appearance as during the entire continuation of last week. The market opened in a fairly buoyant condition, the competitive buying running apace of several thousand share blocks in a number of stocks at the opening of advances of from 1 to 2 points. This material higher level of prices attracted some large selling to realize and the tone became rather nervous for a while, as shown in the wide and frequent fluctuations in some of the prominent stocks. But the speculative leaders seemed to be again well supplied with resources and they supported the market with orders and manipulations on a scale which has not been witnessed in some time. The sudden and violent advances were well calculated to excite the confidence of outside speculators who were very evidently waiting to come into the market on any definite signs of a further advance. An advance in the call money rate helped to precipitate a lively realizing movement during the last hour which cut in price all around and made the closing range of the market rather quiet. The speculative leaders seemed to be again well supplied with resources and they supported the market with orders and manipulations on a scale which has not been witnessed in some time.

O'Malley and Adam Clark were appointed to confer with the councilmen and Electric Light company to agree on a reasonable rate on the cost of lighting the town. Andrew Clark and T. J. READY FOR THE TORCH

Like Dried, Decayed Wood to the Flames Is the Human Being with Depleted Nerve Force to Disease—Easily Overcome—Quickly Succumb.

It takes but little to topple some people over—here today and missed tomorrow—some of us try hard to ward off the conviction that our standard of health is waning—don't want to admit things once easily accomplished, now beyond our powers to keep up a bold front—men and women sometimes deceive themselves in making light of nature's danger signals—nature is thoroughly in earnest when these warnings are given.

- Throbbing, palpitating heart. Sleepless nights. Sudden startings. Burning languor. Brain fog. Inability to work or think. Exhaustion on exertion. Flaggering appetite.

It is the ones who allow these symptoms to exist who fall easy victims to any disease that may develop—they lack resisting Nerve Force—cannot rally—the reason Dr. A. W. Chase's Nerve Pills are the most talked of medicine today is because of their wonderful influence in relieving people from prevalent present-day symptoms—done by providing needed Nerve Force—the essence of life.

Mr. Henry Alberts, of 616 Birch Street, Scranton, Pa., says:—“For about two years my back and kidneys had been sore—lame and the secretions in bad shape. Nothing seemed to help me until I got Dr. A. W. Chase's Nerve Pills at Matthews Brothers' Drug Store, corner Lackawanna and Washington Aves. They did the work, curing the soreness and lameness—making the secretions healthy and generally giving me health and strength.”

When a druggist offers you something said to be just as good or better than Dr. A. W. Chase's Nerve Pills, remember all the evidence of Scranton people and thousands of others refute his statement. If you cannot get the genuine, call or address Dr. A. W. Chase, Medicine Co., Buffalo, N. Y. Price 50 cents per box. The above is a fac simile of package.
