LOVERS DIE TOGETHER.

Frederick Fisher Shoots His Sweetheart and Then Commits Suicide.

By Exclusive Wire from The Associated Press. Elmira, April 18.—Because his parents objected to his marriage to Anna Linberg, Frederick J. Fisher shot his sweetheart and himself last night. They were found lying dead in the road near the entrance to Rockwell park early today. In Fisher's right hand was a revolver, two chambers of which were empty. The following note, signed by Fisher and Miss Linberg, was found on the person of the former: "We go together and die happily." Fisher's signature was in a firm hand, while that of the girl gave evidence of her excitement.

Fisher was twenty-six years old, and had been a guard at the state reformatory for the past five years. His family objected to his engagement. Miss Linberg was a pretty Swedish girl, about twenty-one years of age.

THE M'CORMICK KIDNAPPING CASE

Pat Sheedy Has Agreed to Act as Intermediary in the Case—Believes the Boy Was Stolen for Revenge.

By Exclusive Wire from The Associated Press. New York, April 18.—Pat Sheedy, who has agreed to act as intermediary between the kidnapers of Willie McCormick and the McCormick family in negotiations for the boy's return made a statement today which he said: "I believe I will be able to recover the McCormick boy. I would deal with any one by letter. If anybody has information concerning the boy's whereabouts he must come to me personally. I can tell in five minutes whether the informant is telling the truth or a lie. I am going to leave New York at 9:30 tomorrow evening for Buffalo. I am interested in the exposition and will be there all summer. Any one can find me at the Troops hotel there.

"My idea is that the boy never was kidnapped for a ransom. I think he was taken out of revenge. I had Mr. McCormick, the uncle of the boy, make a searching investigation relative to any trouble the boy's father or mother may have had with any one. In this way we found out about an Italian who had a grudge against the boy.

"I don't think the police could object to my action. There is certainly no law to prevent the boy's uncle from giving me \$5,000 to give for information leading to the boy's recovery.

"I'll give my word that the man who gives me the information shall not be harmed."

THE BRITISH BUDGET

A Proposed Tariff to Meet Deficit and Provide a Revenue.

PLANS OF HICKS-BEACH

He Proposes to Impose an Export Duty on Coal Amounting to One Shilling a Ton—The Cost of the Boer War Doubt That of the Great Crimean War—Coal Duty Will Excite Opposition.

By Exclusive Wire from The Associated Press. London, April 18.—The exceptional interest taken in this year's budget statement was shown by the crowded condition of the house of commons when it reassembled this afternoon. Members were unusually numerous, and while the appearance of the galleries testified to the deep interest of the public in the fresh taxation proposals required to meet the expenditure for 1901-1902. That, according to parliamentary paper issued this afternoon totals £187,000,000, inclusive of war charges, an increase of £22,000,000 over the expenditure of last year.

The chancellor of the exchequer, Sir Michael Hicks-Beach, rose at 4.15 p. m., amidst shouts of cheers, and began to read the budget statement. His opening sentence was not promising. "During the last five years," he said, "we have been invariably able to congratulate the house on a general increase in the prosperity of the country, but the year 1900—especially the last six months—showed symptoms of a change. Our foreign trade during the year considerably increased, but in value rather than in volume. The increase was derived mainly from the high prices of raw materials, notably coal. That, naturally, must have injured important industries, especially railways. Nevertheless, the revenue for the last year showed no signs of decrease, and the exchequer receipts showed a surplus of £2,865,000 over the estimate."

He was bound to say, however, that the excess was due to forestalment on dutiable articles. But for that, his estimates would have been barely realizable. Much of the surplus was due to a Swedish physician in New York had stated that the body of the alleged prisoner was not that of John Albert Skoog, the famous counterfeiter, said there was no question as to Skoog's identity.

The service has a full description of Skoog and identified him by more than twenty marks on his body. Beside Mr. Wiklie said the man admitted that he was Skoog before he died.

MANILA ARMY REDUCTION

The War Department Will Cut the Body Down to 40,000 Men.

MACARTHUR'S REPORTS

Decrease Warranted by Rapid Disintegration of the Insurrection. Regiments There to Be Replaced by Fresh Troops—No More Natives Will Be Enlisted.

By Exclusive Wire from The Associated Press. Washington, April 18.—The favorable reports from General MacArthur and the increasing surrenders of insurgents have suggested the war department to make the following important decisions: First—That no more natives shall be enlisted, either as regular soldiers or scouts.

Second—That three regiments of infantry, the Fourteenth, Eighteenth and Twenty-third; four batteries of artillery, and possibly a regiment of cavalry, all of the regular establishments, shall be brought home when the movement of the volunteers shall have ceased.

Third—That regiments recruited at home stations shall be held at the various posts in this country until the outward movement of regiments from Manila, the number in the archipelago shall have been reduced to 40,000. Thereafter regiments which have had two or more years' service in the tropics will be replaced by fresh troops from the United States.

The plan has been detailed upon by Secretary Root, after many conferences with the heads of bureaus. The original idea has been to hold 60,000 soldiers in the islands, but conditions have improved so rapidly that it has been deemed advisable to reduce that number.

At present there are several companies of Tagalogs and Macabebes enlisted as scouts, but the department has always been doubtful of their value, even in this capacity. The army reorganization bill permits the extension of that branch of the service, the legislation following the lines of Great Britain's policy in regard to native East Indian troops. Under the circumstances, however, Secretary Root believes such bodies are valueless and unnecessary.

NATIONAL LEAGUE SEASON OPENED

Ball Games Were Postponed in Three Cities Yesterday on Account of the Rain.

By Exclusive Wire from The Associated Press. New York, April 18.—Today was the date for the opening of the championship season of the National League. Rain, however, compelled postponements at New York, Cincinnati and St. Louis.

The National League baseball season opened at Philadelphia today with Brooklyn pitted against the Philadelphia club. Overhanging clouds threatened rain throughout the day, and the raw and chilly atmosphere was most uncomfortable for players and spectators. Both teams appeared to good advantage, but the visitors were more successful at the bat than the local team. A hand of music discoursed popular airs between innings. Attendance, 4,383. Score:
