ATTRACTIONS TODAY.

ACADEMY OF MUSIC—The Corse Payton Stock company. Matinee and night.

GAIETY—Fads and Follies Burlesque show. Matinee and night.

Corse Payton Company.

Large attendance greets the Corse Payton company at each performance they give at the Academy of Music, where they are now playing a week's engagement. At the matinee performance yesterday afternoon, "A Noble Woman" was presented, and last evening, "Kidnappers of New York" was the bill.

This is the last day and two of their best plays will be given. At the matinee, "On the Rappahannock" will be the offering, and tonight "The Eagle's Nest" will be produced.

"The New Dominion" Today.

In view of the fact that all the seats for the evening performance of "The New Dominion" have been sold, it has been found necessary to reduce the prices for the matinee in order to accommodate the large number of people who are holding tickets. In consequence thereof the prices for the matinee performance have been changed to the following: Orchestra, $1; orchestra circle, 75 cents; dress circle, 50 cents; balcony, first four rows, 50 cents, and the remainder of the balcony, 25 cents. Those who have purchased tickets from the members of the International Correspondence School's Social, Educational and Benevolent association can exchange same for their value. That is, $1 tickets can be exchanged for two 50 cent tickets, if desired.

Through the courtesy of Mr. T. J. Foster, the employes of the International Correspondence Schools and the Technical Supply company who desire to attend the matinee performance this afternoon will be permitted to do so without any deduction from their salaries. This kindness on the part of the management of the schools is greatly appreciated by a number of employes who reside out of town, and will thus be enabled to see the performance and add their mite to the association's benefit.

"The Heart of Maryland."

David Belasco's great, wonderfully effective and marvelously successful play, "The Heart of Maryland," is announced for a one night engagement at the Lyceum next Wednesday night and will be repeated in all its original perfection of picturesque and realistic scenic illustrations, and the strongly individualized characters will be embodied by a company of capable players.

"Janice Meredith."

Great care in costuming the characters in a play has never been more strikingly evident than in Frank McKee's production of "Janice Meredith," the new revolutionary drama in which Mary Mannering makes her first appearance as a star in this city at the Lyceum theater next Thursday evening. No one not familiar with the subject can possibly imagine the amount of careful labor and research necessary in a production of this kind.

An expert was several weeks securing authorities for the designs of the dresses and the result is that every costume seen in this play is as real and as correct as if it had been handed down intact from the period which it represents.

Wall Street Review.

New York, April 19.—Today's stock market was the most remarkable which has of late been seen during the present unprecedented speculative era. Not only in the aggregate sales of stocks, which reached 2,162,200 shares, but in the wide distribution and variety of the trading, the amount and the number of the gains recorded, the record prices touched the widenest of the general outside interest manifested in the market and from almost any point of view the market was entirely without precedent in the history of Wall street. The feverish tone which has been a feature of the market on some of the heavy speculative days of late and which was due to a state of nervous apprehension on the part of the speculators for the rise, seemed to be entirely lacking in today's market. There was a steady and persistent spirit of purchase which was as irresistible as it finally proved and the market closed in a buoyant and spectacular outburst such as was perhaps never seen before. In the last five minutes of trading the tape recorded such transactions as 6,000 shares of Pennsylvania at 59, while in Union Pacific there was a string of transactions of 5,000 shares at 99¾, 6,000 shares at 100, 3,000 shares at 99¾, 6,000 at 100 and a final block of 1,000 at 100, the top price for the day and in the history of the stock. These transactions were exceptional but there were blocks of 1,000 to 5,000 shares of a large number of the most active stocks changing hands all day. Only some factor of unusual application could at all account for such general strength. This was the marked relation in the money market and the prospect of a very strong bank statement tomorrow. Of course this factor has only a remote bearing on the properties whose shares were of such eager demand today. There were few specific influences to be detected in the trading. The completion of the Burlington deal of course had a notable influence on sentiment, although Burlington, Great Northern and Northern Pacific had a very inconspicuous place in the trading. But the air was thick with rumors of measures to be taken by rival railroad systems to offset the Burlington deal. The movement in Union Pacific and in the Atchisons was distinctly traceable to its influence, aided by unprecedented rumors of coming dividend increases. The British export duty on coal was a factor in the buoyant uplift of the seaboard bituminous coal carriers, as it aroused hopes of a large growth in our export trade in coal. The express stocks moved upwards on the belief that closer association was in view as the result of yesterday's election as directors of the United States Express of officials of other companies. Belief in a merger of southwestern railroads was a potent factor in that section of the market. The boundary of unexampled activity was accounted for by rumors of further absorptions by that company. The standing stocks were strong. A very sharp contrast to the general movement of the market was the heaviness of the United States Steel stocks, the preferred falling at one time nearly a point below last night. A few of the more important net gains for the day were: St. Paul, 6¾; Baltimore and Ohio, 3¾; Union Pacific, 4; Amalgamated Copper, 4¾; Rock Island, 3½; Texas and Pacific, 3½; Kansas and Texas, 3¾; the junior Vanderbilts, from 2 to 10½; the Lake Canada Southern, American Express, 5; Wells, Fargo, 5½, and a large number of other stocks from 2 to 3 points.

Business in bonds was also very active and became generally strong as the day progressed. Total sales, par value, $7,290,000. Shares U. S. rebounding 2s declined ½, and the 5s ¼ per cent. on the last call.
