NEWS OF THE LABOR WORLD

TODAY MAY END THE SILK WORKERS' STRIKE.

Girls from the Sauquoit and Simpson Mills Will Meet Today and Vote Upon Proposals Made to Their Locals-The Anthracite Coal Trade as It Is Viewed at Present-The Delaware, Lackawanna and Western Board for Today-Odds and Ends of News.

Today will decide whether there shall be a continuation of the silk mill employes' strike, or work resumed on the latest terms offered by the owners. The soft silk workers of the Sauquolt and the girls of the Simpson mill at Minooka will meet and vote upon the proposals made to their respective locals by Superintendent Davis and But-

The terms of these offers are almost practically the same, and were secured for the girls through the intermediation of the Rt. Rev. Bishop M. J. Ho-The latter met Superintendent ban. Davis during the early part of last week and following their conference a meeting was called of the operators at which a joint scale was decided upon. The contract they offered and which was described in Saturday's Tribune, was rejected at Friday's meeting of the hard silk workers, but as there was not a full attendance it is very likely that it will be recon-Bishop Hoban yesterday remarked to a Tribune man:

There is yet one small matter to be straightened out, and if this can be done I expect that the Sauquoit girls will accept the offer made to them."

It is understood that the one obstacle now in the way of a settlement is the wages to be given the warpers. The owners have contended all along that this department is the best paid in the mill and can receive no increas inu their present wages. They still maintain this attitude

The offer upon which the Sauquoit girls will take action this afternoon is an increase of one-half cent pe yard, besides the concessions granted the other employes, i. e. a half holiday on Saturday during the four summer months, chairs provided for the lunch room, a forelady appointed to grant sick absence. They will be also allowed to measure their silk.

The 8-12 per cent. increase offer made the hard silk girls, the operators claim, is augmented by the half-holiday pro-This reduces their hours they claim from sixty to fifty-seven and a half, and the full pay they are allowed for the difference constitutes an adance. Superintendent Davis in making this offer represented all save the Simpson and Taylor mills. At the Simpson mill the offer is practically identical with the exception that only a limited number of weavers will receive an increase, as they are already paid by the day. Superintendent Butler offers to gradually increase wages there until \$6 a week is reached.

At Taylor no increase is offered as the owners claim that the girls who struck at their mill only went out on mpathy, being paid wages much igher than the Sanquoit girls. At the Minooka mill the sentiment is divided, majority being said to be in favor

CONVICTIONS.

evidently originate among the element hardest to control. The mines are term. working from one-half to two-thirds time. The companies are paying the

ten per cent, advance in wages given by the Municipal league. Henry Walthers, a bottler who plead last fall, but such an advance is not appreciated now that work at the mines is falling off. If, as has been guilty of selling over the bar: Winifred Reap, who plead guilty of keeping a speakeasy and Anthony Roth, the case before, some companies should who admitted a similar offense, three not work over five to ten days a month of these nine, succeeded in having senin June, doubtless there will be more tence deferred until next week, on one trouble, though a general strike does not seem probable. excuse or another.

Walther's attorney, H. L. Taylor, Trade in the West is light as yet. The made an earnest plea for suspension strike of the marine engineers affects a large fleet of vessels and the moveof sentence, but whatever effect the plea might have had, was countered ment of coal up the lakes waits for this by a statement from Agent Robert to be settled. A freight rate of forty Wilson that Walthers continued to sell cents from Buffalo to Lake Michigan illegally after his arrest. Court gave ports and Duluth seems probable. At him till Wednesday to straighten un lower lake points and in the East busihis business affairs. He will then be ness is better. Retail buying at all sentenced. In the Reap case there points shows a decline, though a late are a number of extenuating circumspring makes the decline more gradual stances and before passing sentence, han was the case last year. returning, and it is very likely that they will teday decide to return to work.

The Klotz and Harvey strikers met Saturday, but as there was not a full attendance at either meeting the action in refusing the proposal will probably not be accisive. The Pittston strikers have issued an appeal for aid, which is endorsed by the Pittston Central labor union. "Mother" Jones was in Philadelphia last week and there employed her time in attempting to raise unds for the strikers of this valley.

Meeting of Central Labor Union.

The Central Labor union met yesterday afternoon and transacted a large amount of business. Reports were heard from the heads of a numper of organizations, who stated that assessments had been levied in order to raise funds for the striking silk mill workers.

The committee in charge of the Labor day demonstration reported on the picnic which will be held at Lake Lodore, Sept. 2. President John Mitchell, of the United Mine Workers of Ameria, has accepted the invitation extended to him to be present. A resolu-tion was adopted instructing the exeutive committee to wait on councils Thursday night and signify their desire that the request be granted of International Correspondence Schools to prevent the new street railway company from running past the printing plant they are building on Wyoming avenue. The company has announced its intention of placing reading rooms and other conveniences for the laboring classes in the building and for this and other reasons the union takes up the cudgels in its behalf.

Another resolution was adopted, which will be sent to councils Thursday night, in which the appropriation of \$2,000 for the maintenance of the Thirteenth regiment is condemned, on the ground that, as the guard is a state institution, it is not entitled to municipal support. The prospect of seuring new quarters for the union. with attached offices for local labor or-ganizations, has been abandoned, as was reported by the committee.

Anthracite Coal Trade.

The anthracite trade shows a certain feeling of uncertainty among buyers regarding the new price lists. With the gradual approach of warm weather buying naturally fails off. This has been the great obstacle to steady work at the collieries in the past and for hany years the brightest minds in the trade have been seeking a remedy that should stimulate buying in the spring and early summer. The present graded iscounts may prove a solution. Everything is in their favor except the nattrai disinclination of most people to uy coal ahead of current needs, So hile admitting that the position of producers is stronger than ever before. dealers still show a disposition to wait. There is no doubt but that prices will advanced ten cents June 1, but what will happen should buying not be better in June and July than in past years? This is the uncertain element in the situation. On the other hand, sales agents report buying as decidedly better than usual at this season and what may prices will go up ten cents per month until September.

Strikes at the collieries continue and the men show little regard for the pubished statements of the officials of the United Mine Workers. The strikes in many cases are for trivial causes, and
