

MR. QUAY'S FAREWELL

At a Large Outpouring of Republicans He Announces That His Political Race Is Run.

EXTENSIVE REVIEW OF REPUBLICAN TRIUMPHS

The Senator States That He Has Many Friends to Reward, but No Enemies to Punish—A Banquet at Horticultural Hall—Gov. Stone, Mayor Ashbridge and Other Well Known Speakers Heard.

By Exclusive Wire from The Associated Press.

Philadelphia, May 14.—Republicans of the dominant faction of that party every morning of the Keystone state paid homage tonight to United States Senator Matthew S. Quay in honor of his re-election to the upper chamber of congress. Barring a state convention, tonight's gathering was one of the greatest outpourings of Republicans to do honor to one man ever witnessed in this state. Governor Stone was there, as were also all the members of his cabinet, members of the legislature, the municipal heads of several Pennsylvania cities and all the prominent Quay Republicans of this city. The occasion took the form of a banquet, followed by a reception, and was under the auspices of the Pennsylvania State League of Republican clubs.

Senator Quay, accompanied by J. Hampton Moore, president of the league, and Joseph N. Huston, who acted as the senator's escort, arrived from Washington at 4 o'clock this afternoon. The party was met at the station by a reception committee of 300 club men, who escorted Colonel Quay to the Horticultural Hall. The street from the station to the hotel was filled with people. Senator Quay excused himself to all callers at the hotel with the exception of Governor Stone and Insurance Commissioner Durham, of this city, with whom Mr. Quay was closeted for some time. At 6 o'clock the senator was escorted to Horticultural hall, where an elaborate banquet was served, covers being laid for five hundred persons. The banquet hall was in beautiful costume, every figure of the rainbow figuring in the decorations. There was no speech-making at the dinner, this feature of the occasion being reserved for the reception at the Academy of Music which adjoins Horticultural hall.

There was not a vacant seat in the auditorium when the doors were closed by Senator Quay marched into the Academy and the doors were closed to all late comers except those who participated in the banquet and who occupied seats on the stage. Senator Quay's reception was a particularly enthusiastic one. Cheers after cheers were given in his honor as he took his seat at the front of the stage.

President Moore's Address.

President Moore presided. He made a short address before introducing the guest of honor.

Among other things, President Moore said:

"When the State league passed the resolution providing for a dinner to the next United States senator it did not know who the successful candidate would be. There were neither hero worship nor factionalism in the movement. It was simply a desire on the part of the aggressive young Republicans of this commonwealth to celebrate a matter of great importance to the state.

"After a long and unhappy struggle, it happened in conformity with the constitution and the law that the senatorial representation of Pennsylvania was completed by the election of Matthew Stanley Quay to resume his high station of senator in the national congress. We are here tonight to celebrate that event. No matter what our views or individual preferences may heretofore have been, we are here now to honor the man who has been chosen to represent us. We are here to declare our adherence to the rule of the majority under the law. We are here to encourage those who are entrusted with the government of our state. We are here to renew our faith in the honor and integrity of the commonwealth and to arouse the civic pride of her citizens.

"The senatorial battle in Pennsylvania is over. We have no quarrel with our representatives. We believe it better to uphold and strengthen than to defame him. There can come to him no honor in which his constituents do not share. Let Pennsylvanians stand together for Pennsylvania."

Senator Quay's Remarks.

There was another outburst of enthusiasm as Senator Quay arose to speak. He spoke as follows:

"At three years and ten the world grows lonely. Through wilderness almost desolate the stream of life glides darkly towards the great sea. The associations of earth existence are gone. Its objects are gained or lost in its importance and there is a disconnection with ideas once claimed about the reason and destination of beings once molting the heart. Occasions like the present stand in pleasant relief—green patches on the sandy deserts and are especially attractive and welcome. Fully recognizing that your future is not personal, my attraction to the high office which the Republicans of Pennsylvania have honored me I thank you.

"My political race is run. It is not to be understood that God's sword is drawn against me. He nor that my seat in the senate is to be permanently vacated, but that with the subsiding of my official work on the 15th of January my connection with the various labors and responsibilities of active politics ceases, except in so far as I may be committed to certain matters pending in the present legislature.

O'CONNELL AND GOMPERS TALK

They Confer Regarding the Policy to be Pursued in the Machinists' Strike.

ADDRESS WILL BE ISSUED

Strike May Occur of Few Days Duration, but Mr. O'Connell Does Not Think It Will be a Protracted Conflict—Many Firms Sign Agreements Granting Requests—One Request Is That All Disputes Shall Be Settled by Arbitration.

By Exclusive Wire from The Associated Press.

Washington, May 14.—President O'Connell, of the International Association of Machinists, President Gompers, of the American Federation of Labor, and the officials of five allied metal workers' trades were in conference today determining the policy to be pursued in the machinists' strike ordered to take effect on May 20. The conferees represented were the machinists, blacksmiths, metal polishers, glass workers and boiler makers. An address will be issued later, outlining the exact course to be followed. Mr. O'Connell said today:

"There may be a strike of a few days' duration, but I don't think there will be any protracted conflict. Many firms in New York, Chicago, Indianapolis and elsewhere have just signed agreements granting our requests. A telegram from New Orleans says that twelve firms have signed there. Every firm in Omaha has signed.

"The indications are that by May 20 at least 25 per cent. of the employees of the country will have acquiesced. The National Trades' association comprises about 25 per cent. of the machinist employees of the country. While the employees' association, which would be a nine-hour day, we have a dispute with them now regarding wages. One of our agreements with them is that all disputes shall be settled by arbitration, but the association of employers is contending that that matter shall be arbitrated with each individual firm, while the men want the matter arbitrated nationally. Therefore, the general order for a nine-hour day was issued and also the call for an increase of 12 1/2 per cent. in wages.

"That order applies to the employees' association as well as to the shops outside of the association. We have the pledged support of the American Federation of Labor, both moral and financial."

The society for several years has been very heavily in debt, but has made a great reduction of the debt during the last year, and announcements are expected before the present meetings are concluded on Thursday evening of a still further reduction. The probability is that before adjournment the debt will be reduced to such limits as will not seriously embarrass the future work of the society.

Washington, May 14.—A cablegram from Mr. Rockhill, our special commissioner at Peking, received at the state department today, mentions the receipt by the ministers of the response of the Chinese envoys to the ministers' demands for indemnity. The dispatch indicates briefly that the Chinese indicate that an annual payment of \$10,000,000 is the full extent of their power to pay on indemnity accounts. It will take thirty years to discharge the debt at that rate without interest. Mr. Rockhill makes no mention of the subject of interest, nor does he touch upon the means by which the money is to be raised by China, or say who is to guarantee a loan necessary to be made.

It appears that the Chinese feel themselves obliged to submit to the powers in this question of indemnity, as in all other things, and though realizing their own inability to assume this burden, they feel obliged to make the effort. Mr. Rockhill has been instructed to continue his efforts to secure an abatement of the total indemnity, but in the present disposition of the powers little hope of success is entertained.

MRS. NATION CONVICTED.

Jury in the Joint Case Brings in a Verdict of Guilty.

Topeka, Kansas, May 14.—The jury in the case of Mrs. Carrie Nation, charged with "joint" smashing, this evening returned a verdict of guilty. Sentence will be pronounced tomorrow. It is the general impression that she will be released on the payment of a fine and costs. The defense made no effort to deny the truth of the accusation, but tried to prove that Mrs. Nation was insane at the time of the raid. The verdict is a general surprise, as it was expected that the jury would agree to bring in an acquittal.

THE TROOPS CALLED OUT

Police Acknowledge That They Are Powerless and General Manager McNamara Calls Upon the Militia for Protection—The Tenth Battalion of the Third Brigade Called Out—Exciting Features of Yesterday's Riots.

By Exclusive Wire from The Associated Press.

Albany, May 14.—When darkness fell this evening, several thousand weary street car strikers and sympathizers went to their homes, but they were recalled by the police, who brought the vigil to prevent the United Traction men from running their electric cars with non-union men. The darkness brought some confidence that there would be no attempt before morning to move cars, for two attempts had been made to run in the gutter, but the local police, aided by scores of deputies and Pinkerton men, had been unable to quell the disturbance.

One man lies in a hospital seriously wounded, one of the two cars the company attempted to run is in the gutter, the trolley wires are cut in several places, practically crippling the road. Inside the car house, afraid even to look out of the grated windows, are about seventy-five non-union men, whom the company expects to run in the morning. Early this morning there were about 150 of them, but by nightfall sixty-five had deserted and joined the ranks of the strikers.

PRESIDENT AT SAN FRANCISCO

On Account of Mrs. McKinley's Illness, He Confines Himself to Day's Exercises.

By Exclusive Wire from The Associated Press.

San Francisco, May 14.—President McKinley made his official entry into this city, the objective point of his tour, late this afternoon. After being formally welcomed by Mayor J. D. Phelan, he was escorted through the principal streets, attended by a military and naval turnout. He attended a public reception tonight in the large hall of the Market street ferry depot. President McKinley decided early this morning that, owing to Mrs. McKinley's illness, he would not visit Stanford university, as has been planned, but would limit himself to the day's exercises in this city. At 2:40 o'clock this afternoon he left the Scott residence for the Valencia street station. Here he met the train bringing the members of the cabinet and remainder of his party, who had fulfilled the program between San Jose and this city. President McKinley was also met here by Mayor Phelan and formally received. The president, the members of his cabinet, Mayor Phelan and the reception committee were then taken by special train to the Third and Townsend streets station, where the military and naval escort was waiting. Long before the hour set for the president's arrival, Third street from King to Harrison was a solid mass of humanity. On the arrival of the train at the station there was a terrible din. The whistles of the factories and machine shops of the neighborhood were turned loose, bells of the yard engines were furiously rung, thousands of voices joined in the noisy welcome to the city's guests and a general movement among the thickly packed humanity in the streets added to the incident. The procession was formed, and the march up Third street was begun. A platoon of mounted police, Troop A, the special escort of the president, and the veteran guard of the Grand Army of the Republic came first. They followed President McKinley with Mayor Phelan and Irving M. Scott, chairman of the citizens' executive committee. Cheer after cheer arose from the multitude and were echoed along the thoroughfares. With his face wreathed in smiles, President McKinley graciously raised his hat and bowed his acknowledgment of the ovation.

THE LONG PROCESSION.

After the president's carriage came the riding Governor Nash, of Ohio, and staff and the Ohio congressional delegation. The long line of carriages was followed by 4,900 troops, infantry, artillery and cavalry from the President's headquarters at the battle-sites Iowa, Philadelphia and Wisconsin, under command of Admiral Casey. From the moment the president emerged from the depot the cheering was intense, but as the long procession got under way its force soon diminished. Part up the line the cry was caught up. Block after block, in succession, was soon faced with a surging mass that broke forth into a vociferous proclamation of welcome. The line of march was handsomely decorated with flags, banners and evergreens. At Van Ness avenue, President McKinley reviewed the procession, after which he repaired to the Scott residence for dinner.
