## NORTH SCRANTON

### LECTURE DELIVERED IN THE AUDITORIUM.

Rev. A. H. Smith, Pastor of the North Scranton Baptist Church, Last Night Addressed an Enthusiastic Audience—Subject of Lecture Was "Some Folks and Other Folks, or the Greatest Problem of Orators."

Last evening Rev. Albert Hatcher Smith, pastor of the North Main avenue Baptist church, delivered a most interesting lecture in the Auditorium on "Some Folks and Other Folks, or the Greatest Problem of the Century."

He spoke of the influence of orators, poets, musicians, and philosophers on the people in general, showing how the orators have influenced people's lives by means of their eloquence; how the beautiful verses of poets have moved people to higher and nobler actions; how the harmony of musicians and the knowledge of philosophers have affected mankind.

He declared that the earth was all wrong, but it was Columbus who could foresee the great truth. Electricity had always been in existence, but it was men who could see the use of this element that have influenced the world. The same with steam, electricity, and other of great men's discoveries. The opportunity of a man lies in himself and not in others. It is not the man who stands at the head of his class who is necessarily the successful one, but the man who will bring out all that is in himself.

Mr. Smith stated that the greatest mistake of the past century was giving the liberated slaves the full rights of citizenship; men who had no individual worth; who could not read nor write; could not control their own passions, in fact, did not know right from wrong.
