SHOOTING AFFRAY IN THE ITALIAN COLONY

Pasquale Graeco Blazes Away at Cavino Biriato and Wounds Him Twice, but Not Dangerously—A Children's Quarrel Said to Lead to the Shooting—Graeco Flees and Evades Arrest.

The upper part of the city was stirred last night by a shooting which took place in the Italian colony in which Cavino Biriato was wounded twice by Pasquale Graeco, his neighbor.

Seriano was hit on the nose, just at the base of the bullet, the flesh and cartilage, and in the small of the back. The latter ball entered the chest of muscles alongside the spine, where it became imbedded at a depth of about three inches. This wound, which is the most serious, is not dangerous, and Seriano will recover if properly cared for.

Graeco, after blazing away at his victim until he emptied his revolver, fled and had not been apprehended up to midnight. Though Constables Neary and Moran searched all through the colony, among the houses where it was believed he might be harbored by his acquaintances.

It is believed that a quarrel between the children of Seriano and Graeco led to the shooting which came near being a tragedy, Graeco must have been a poor marksman, or he was fearfully excited for the men were only a few feet apart during the shooting. How serious the wound of the boy is, Graeco fled at first, while the wife was free to flee, it is decidedly probable Seriano in describing the happening to the Tribune representative said that he was sitting on his porch in company with three of his neighbors. Graeco came along the alleyway that leads from River street into the settlement behind Van Bergen & Company's office.

When he came close to Seriano Graeco broughed the subject of the quarrel or spat that takes place each day in the day between their children. It appears that Graeco's child went to a nearby candy store for a few cents worth of candies and on her return she was stopped by Seriano's son, who held himself up to her, and the sweet in the Graeco girl's bag. The girl told of the happening when she went home and when the father returned in the early evening, about 7:30, he was informed by his wife of their little one's complaint. He was angry at what he considered was an injury to his child, and he set out to take Seriano to task, Graeco, according to Seriano, made only a reference to the children's spat when he whipped out his revolver and began to blaze away. There was a scattering among the companions of Seriano and Seriano himself ran for his doorway, which was only a few feet away. The first or second bullet caught him under the nose and when he turned on his retreat another ball caught him in the back. The other bullets flew wide, and when Graeco exhausted his gun he fled.

Seriano dropped on the porch of his house, and was afterwards carried upstairs and placed in bed, where he was soon attended by Dr. Campbell, who looked to the room in such manner that the small quarters became almost suffocating. There was an incessant fire of questions at Seriano from his friends, which the wounded man endeavored to answer without the least display of impatience. The men swarmed about his bed, and refused to clear the room when ordered by the police.

Seriano told The Tribune representative that there was no feeling between himself and Graeco, and that the children quarrel was a matter of which he could care for Graeco's attack on him. Dr. Madam attended Seriano, but was unable to locate the bullet that entered the back.

Both men are employed as laborers by the Lockaway and Hudson company. Seriano is a native of Italy, of about 30 years of age, and there is little difference between his name and Graeco's.

This is the first affair in which Graeco has been involved, and his quiet disposition was commented upon by a number of his neighbors, who were at Seriano's home last night.

Frank Killeen, a small boy, was shot in the finger by a stray bullet. Seriano was taken to Emergency hospital.

HAVE TO GIVE UP.

Its All Over When Nervous Sick Headache Comes to Young or Old. Everything Stops and Nothing Goes on but the Nervous Sick Headaches. If anything will engender a disregard for even life itself it is continued or oft-repeated attacks of sick headache. You may be able to partially describe it, but the English language fails to fully do it justice. It's misery so concentrated, so condensed, so prostrating that all else is enveloped in its meshes.

DR. GILLIS CONTINUES TO IMPROVE.

He is Able to Recognize Persons Through the Affected Eye.

Dr. A. F. Gillis continues to make splendid progress towards health. His general condition manifests a daily improvement, but the most satisfying circumstance is that the affected eye has not suffered the loss of sight. On the contrary, it retains its powers, though slightly diminished, and Dr. Gillis is able to recognize persons and objects through this eye. This happy result of the care and treatment of the patient greatly excites the most hopeful outlook that was cherished by the physicians who have managed the case, and they are correspondingly gratified.

Dr. Gillis' temperature and pulse have been normal for a number of days, and he has so regained in strength as to be able to sit up for several hours of each day. It will be many weeks before he can consider returning to his practice, and before doing so will seek a change of scene to recuperate.

JERMYN AND MAYFIELD.

The Jermyn school board met in regular session last evening. Attorney Stocker was present and presented a petition signed by about one hundred Catholic taxpayers, a good-sized delegation of whom were present. The petition condemned and protested against the act of Principal Barrett in allowing a baccalaureate sermon preached in the M. E. church to be a part of the commencement exercises. It was on the ground that it tended to destroy the peace and harmony that had hitherto existed between the different denominations in the borough and asked that in future the innovation be discontinued. After the petition was read it was moved that it be accepted and placed upon file. To this some of the members objected, offering as their reason that it was something the board had had no hand in and they raised the point of order, such as the schools had been dismissed and teachers paid off they had no control of the class or teachers at the time of the graduation. To this Attorney Stocker and several of the members took exception and the roll call was demanded, which resulted as follows: For the petition, Edmonds, Grant, Hunter and Collins. Against the petition, Morcan, Waters, Crawford, Blake and Depeux. A heated discussion afterwards took place, then the roll call was taken and the following resolution:

Whereas, a large body of citizens and taxpayers have entered complaint in condemnation of the action of Principal Barrett in bringing the school work into one of the churches, the school board, Joseph Beckwith and whereas such an act if repeated must become a source of constant irritation to the school authorities and needless, but natural, friction among neighbors, and the said citizens and taxpayers have petitioned the school board to prohibit a repetition of such an act, which in the instance cited was done without its authority and in violation of one of the most sacred rights of parentage; then it is

Resolved, that the principal and teachers of the schools of the borough are and shall be forbidden hereafter to introduce into the school work, or commencement exercises anything that gives or disregards the rights of parentage and citizenship.

The roll call was voted upon and defeated, the vote being similar to that on the petition.

The Mayfield school board held a meeting in the school building last evening, with Walker, Culey, Mattheus, Morgan and Condy present. President William Walker presided at the meeting. The report of the auditing committee was read and accepted. The literary committee reported everything being satisfactory. No other business being brought before the old board the meeting was adjourned.

After adjourning Mr. William Walker tendered his resignation as a school director. Mr. Culey was appointed temporary chairman and Mr. Brady temporary secretary. The new school directors were received and placed on file. Mr. Kilker, were sworn in. Mr. A. W. Kilker was elected permanent chairman, and Mr. John Culey permanent secretary. Mr. Patrick Brady was elected treasurer by a unanimous vote.

OLYPHANT.

A regular meeting of the borough council was held Monday evening, with all members present except Brown, Robinson and O'Holleran. The usual monthly bills, those of the electric plant employees, street and police department, were received and ordered paid.

The street committee reported that through the efforts of James Jordan, Mr. Scranton, of the water company, had consented to furnish the water at the public fountain free. Mr. Scranton is allowing this in consideration of the agreement made by the late James Jordan, Sr., and the borough, in which Mr. Jordan furnished the water free if the borough would erect the fountain.

The street committee further reported that the water company would not allow any decrease in the price of the hydrants or would not consider the proposition to accept a stipulated sum, regardless of the number of hydrants in the borough.

The finance committee reported that they had given considerable time to the examination list of ex-Tax Collector Hoban for the year 1898, and had returned to him a list of names which they thought it was possible to collect taxes from. The secretary was instructed to notify ex-tax collector to have his examination list for 1899 prepared immediately.

The ordinance passed at the last meeting of council, granting a franchise to the Lackawanna Telephone company, was returned by Burgess Manning, with his veto. Accompanying the ordinance was the following message to council:

"Gentlemen—The annexed ordinance is returned to the borough on the following grounds: "First—The borough of Olyphant don't need five telephones at this time.

"Second—If the maximum price to be charged by the company is \$300 per the company pay into the borough each year for four phones, or \$144 per year, and the borough to have one phone, to be used by the borough officers.

"Third—The borough should not bind itself, and sign rights away, to tax any corporation less than another, and should not sign any contract that would hinder it to tax any corporation at any time, as other towns in the valley have done, in case said corporation would prevail.

"I therefore veto the annexed ordinance. John J. Manning, burgess."
