

This is the trade mark on every can of the genuine

Dr. Hand's Phosphated Condensed Milk

It indicates the purest milk from field-fed cows—condensed in scrupulously clean buildings, by a process that preserves all the food qualities—to which has been added phosphates and hypophosphites, the same food properties found in wheat—the greatest body builders. It makes strong teeth and bones, firm flesh, steady nerves, quick brain and rich blood for infants and growing children. It is a wonderful restorative for aged or invalid persons. It is better for the table than fresh milk—rich as cream.

OPENING OF NEW ARMORY

TONIGHT IS SET APART FOR
THE GREAT FUNCTION.

At 8 O'clock will Begin the Reception to the Dignitaries and at 9 O'clock the Formal Programme Arranged for the Opening of the Armory Will Be Taken Up—The Grand March Will Follow These Exercises—Armory Is Most Beautifully Decorated.

Tonight will witness the formal opening of the new armory of the Thirtieth regiment. It will be a vast and important event for it will give to Scranton a building, unsurpassed in the state, of which she has long stood in need. The new armory is a magnificent pile, but it means more to Scranton and Scrantonians than the mere housing of the Thirtieth regiment in a more satisfactory manner than was possible in the old armory. It means that Scranton can now invite and entertain the largest conventions and bodies that meet in the United States. With an auditorium capable of seating 10,000 persons are in a position to attract the attention of many kinds that heretofore had to pass us by. In this way the armory, as a distinct business proposition, ought to be an investment of great benefit to the people of the city generally.

NOT A CLASS AFFAIR.

The ball with which the armory will be opened tonight is in no sense a class affair. It is an affair of the city. The purposes in mind, the first was the raising of a sufficient sum of money to furnish this great building, the second to give people an opportunity to view under advantageous circumstances and the third to make the people of the city of all classes to contribute to a great Scranton enterprise. Big as the armory is it ought to be too small to hold all who will attend tonight's ball. If Scrantonians possess the proper spirit.

If all the people of Scranton could have seen the interior of the armory last night there would not be an unsold ticket in the city of Scranton by dawn today. The armory is a building of four stories, with a main entrance on the Myrtle street entrance of the armory at ten minutes to eight this evening.

Col. W. W. Stillwell desires that all carriages conveying persons to the ball tonight strike Adams avenue at or before Gibson street is reached, and then proceed to the main entrance. This plan will prevent any confusion.

A detail of 100 men of the guard will be on duty in and around the armory tonight. All will enter through the Adams avenue entrance. In leaving the armory those who have private carriages will leave by the Myrtle street entrance, and others by way of Adams avenue.
