

INDUSTRIAL AND LABOR

FOUNDRY OF PENN AVENUE
SHOPS MAY RESUME.

Committee Representing the Striking Laborers Waited Upon Superintendent MacLaren and Asked for Terms—More Men Brought Here to Work in D. L. & W. Shops. Meeting of Silk Mill Owners—The Lackawanna Board for Today. Pennsylvania Railroad Company to Go Into Steel Business.

A committee representing the striking laborers employed in the foundry of the Allis-Chalmers company's Penn avenue shops waited upon Superintendent M. N. MacLaren yesterday and asked him upon what terms they would be taken back. It is only the laborers who have any grievances, as the moulder and coremakers only quit work because of helplessness without them.

The entire working force of the foundry is about two hundred men, and of this number fully one-half are laborers. Superintendent MacLaren informed the men that they could return on exactly the same terms as those under which the foundry was being operated before the strike. He added that the company was willing to open the foundry just as soon as the men satisfied their desire to begin work.

The committee then left the office, and other interviews are expected to take place regarding the matter. Mr. MacLaren only returned yesterday from New York, where he attended the meeting of the Metal Trades association. He denied yesterday that the Allis-Chalmers company's course of action would be entirely governed by that of the association. No effort will be made for the present to operate the shops by the aid of outside help.

A special car containing seventy-two workmen arrived in the city yesterday afternoon from New York, all of whom were immediately put to work in the Delaware, Lackawanna and Western car repairing and machine shops. Among the number were many skilled mechanics, the officials assert, and just at present they have more applications than they have work for them.

With regard concerning the reported purchase of the steel yard yesterday, Master Car Builder Campfield said that such a thing is possible, as the company needs more yard room, but as far as rebuilding the shops on that site is concerned, he had nothing to say.

Has Gone Into Steel Business.

The purchase of the controlling interest in the Pennsylvania Steel company by the Pennsylvania Railroad company, which was admitted by Vice-President Green, proves on closer investigation to be a gigantic move on the part of the Eastern railroads to render themselves independent of the United States Steel corporation. It was admitted, also, that a small interest was allowed the Philadelphia and Reading, so that this road, too, might reap the benefit of rail and structural steel making.

The statement was made in financial circles yesterday that not only the Reading, but the Baltimore and Ohio, Chesapeake and Ohio, Norfolk and Western, Long Island, Lehigh Valley, and at least one or two other railroad corporations are to be, or have been, given a certain interest which will enable them to enjoy the benefits of a cheap standard price on all rails and steel.

The Pennsylvania Steel company ranks as one of the greatest in the United States outside of the United States Steel corporation. With its plants at Steelton and Sparrow's Point, Md., it turns out over 500,000 tons of steel rails each year. This is an amount largely in excess of what the Pennsylvania railroad system, huge as it is, can use, and for that reason, it is said, a certain interest was turned over to the other roads.—Philadelphia Press.

Meeting of Silk Mill Operators.

A meeting was held at the Hotel Jerome last night of the silk mill operators' association, and a couple of hours spent in discussion of conditions throughout the country.

The Scranton mill authorities are highly indignant over the statements made by officials of the textile workers to the effect that general conditions are unsatisfactory. They deny utterly the girls' claim that they have been heavily fined since resuming work. Miss Elida Hurley and Miss Mary Manning, two of the girls' officials, have been discharged from the mill.

D. L. & W. Board for Today.

The following is the make-up of the D. L. & W. board for today:

Scranton, June 14, 1901.

THURSDAY, JUNE 13.
