----THOSE FIRE CONTRACTS.

Councilmen Seem to Favor Approving the Two Unsigned.

At least two select councilmen were seen in city hall yesterday afternoon by a Tribune man favored the passing of the resolutions offered in council on Thursday night by Mr. Clemons, ratifying the action of Director of Public Safety Wormser in awarding the contracts for 500 feet of hose and for the new hook and ladder truck to the highest bidders.

'We could hold up these contracts.' said Councilman D. W. Vaughan, "and direct that new bids be advertised for, but we'd only get into a lawsuit with these firms and have a whole lot of trouble on our hands. The real important contract by which the city was out an even \$600, was signed by Former Recorder Moir before he quit. We'd better pass these resolutions and rest confident in the belief that we've got somebody in charge of affairs now who won't stand any such action in the future."

This seems to be the prevailing sentiment among the members as far as can be learned. While the bid of the Lafrance Engine company for the hook and ladder truck was not the lowest nevertheless the lowest bid was for a truck which the agent admitted is not yet in use in any city. This fact will tend to secure the passage of the reso. lutions.
