URGENT NEED OF PAVED STREETS

PRESENT CONDITION OF NORTH AND SOUTH MAIN AVENUES.

Dirt and Dust That Covers the Un-Paved Streets Ruins the Lawns and Forces People Indoors from Their Porches - Daniel Beynon Presented with a Badge-Fanerals of Mrs. McAndrews and John Ludt. Events of Today and Evening. Celebration in Morris Court.

The urgent need of a pavement, both on South Main avenue, from Oxford street to the city line, and on North Main avenue, from Howell street to Cemetery street, has never been more fully demonstrated than during the past two days. The avenue at both these points is covered with a thick coat of loose dirt, and with the passing of every street car and vehicle, the dirt and dust is stirred up and scattered over the lawns, into the houses and into the eyes of people walking on the street. In some places the dirt is six or eight inches deep and when stirred up by the wind creates a most abominable nuisance. It is almost unbearable and the residents on the street are compelled to forego the pleasure of sitting on their front porches. Garden hose has been put in service at many points, but nothing but a continuous sprinkling will lay the dirt

The promoters of the South Main avenue pave have met with much opposition on account of the desire for sewer facilities on the street before the pavement is laid, but now that a majority of the property owners have signed for the improvement, it is expected the pavement will be laid, even if the sewer pipes are not.

On North Main avenue, the property owners are determined to have the street paved as soon as possible. The united co-operation of the councilmen of the Fourth, Fifth, Fourteenth. Fifteenth and Twenty-first wards is needed to secure these muchneeded improvements, and it is to be hoped that they will work together with that end in view,

Chances of the Borough Securing Free Delivery-Commencement at the High School Tonight

Mr. Atenune, a representative of the postal department, was in town yesterday, looking over the conditions here, preparatory to making a report upon the advisability of establishing free mail delivery in the borough. He assures postmaster Bishop that he has every reason to think it will be pos-

sible to put the plan in operation this fall. It is not likely that the whole town will be included at first, as he found considerable fault about the lack of sidewalks in some of the outlying sec tions. It is thought that a force of three carriers could cover a large part of the town, making two deliveries

and two collections daily. Scholars Entertained.
