THE MARKETS.

Wall Street Review.

New York, June 26.—The sentiment reflected by the stock prices underwent an astonishing number of mutations today, considering the small volume of trading and the narrowness of the interest in the market. The decline in prices was most pronounced in St. Paul, Union Pacific, Manhattan and some of the less prominent stocks, which have been under manipulation recently for an advance. St. Paul fell an extreme 2¾ under last night. The latter part of the day was taken up by a very general but desultory recovery. With the cessation of selling pressure, friends of different stocks bid them again and the hopeful professional element had a story that the secretary of the treasury would pay out government interest immediately, in anticipation of the July first disbursements. Not a few of the most important stocks were lifted well above last night's level, while the larger number rallied to that level. The closing was very dull, but firm. Total sales today, 581,100 shares.

The bond market was dull, but prices yielded to selling in sympathy with stocks. Total sales par value, $2,095,000.

United States refunding 2s advanced ¼ per cent. on the last call.
