FOUNTAIN FOR PARK.

Site It Will Occupy Has Been Agreed Upon.

Director of Public Works John E Roche, Former Park Commissioner A. P. Bedford and Carl Falk, of the J. L. Mott Iron company, went to Nay Aug park yesterday afternoon and agreed upon a location for the drinking fountain which has been given to the park by a Scranton lady

The fountain will be in that part of the park where the music stand is located and be a very ornamental affair. It will have twelve cups and will be made by the Mott Iron company. Beneath it will be a pit in which will be a series of coils of pipe, surrounded by ice, through which the drinking water will pass. By this arrangement 700 gallons of water can be cooled each day.

This fountain will be a very much appreciated feature of the park and will be installed as soon as possible.

Latter Believes That the Ordinance Giving the City's Share of the Tax on Foreign Insurance Companies to the Firemen's Relief Association Is Illegal-Meeting of Recorder's Cabinet-City Detective John W. Moir Has Resigned - The Resignation Was Accepted.

Recorder W. L. Connell has requested City Treasurer E. J. Robinson not to pay any money to the Scranton Firemen's Relief association out of the fund received from the state as the city's share of the tax on foreign insurance companies. Mr. Robinson will obey the request of the recorder. In 1897 the city council passed the following ordinance:

Section 1. Be it ordained by the select and com-non councils of the City of Scranton: That all such money as may be received by the city treasurer in accordance with the act of assembly ap pleted within six weeks. Section 3. That any ordinance or part of or dinance conflicting with the provisions of this

ordinance be and the same is hereby repealed a

far as the same affects this ordinance The recorder believes that this ordinance is illegal and so firmly convinced is he of that fact that he has requested the treasurer not to obey its provisions. He is of the opinion that this money ought to be paid into the sinking fund and form the basis of a fund to care for firemen who are temporarily or permanently disabled while in the service and to pension men who have been in the ser vice for a given number of years The money ought to be controlled by

the city at all times. The Relief association will make strong effort to convince the recorder that he is in error in this matter. Last year the association received \$2,701.02 and in 1899, \$2,400. money is usually paid over the latter part of the pear and so far in 1901 the association has received none of this fund, the state not having forwarded It as yet

Meeting of Recorder's Cabinet.

A meeting was held in the office of Recorder Connell yesterday morning of the heads of city departments and a general conference took place regarding various municipal affairs. Those present were Recorder Connell, Direc tor of Public Safety F. L. Wormser Director of Public Works John E Roche, City Controller Esdras Howell, City Treasurer E. J. Robinson, City Solicitor George Watson and City As sessor Philip Rinsland, representing the

The city solicor and director of public safety will for the west. He had only two days draft an ordinance covering the various phases of the question.

Director of Public Works Roche stated that he is seriously handicapped by the lack of a provision for the oureau of parks; that is, to have this department specifically taken care of, instead of in a general way, which the condition existing under the present ordinance. He declared that he is now drafting rules and regulations to park administration, and when he completed his work will submit the results to the recorder.

A discussion arose regarding the mat ter of delinquent tax collector, and Recorder Connell said that he would low George W. Jenkins to establish his claim to the office through the courts, that he must go before the courts and prove his claim, and he would abide by the results of this procedure. Another discussion was aroused over the sub ject of providing funds for the main tenance of city government next year The great revenue derived from higher licenses this year has abundantly selped the city along, but it was point ed out by some of those present that next year's income from this source is likely to be a great deal slimmer.

It was decided to carefully look into the matter with a view to ascertaining how the city treasury will be during the coming year. City Treasurer Rob inson jocularly commented upon one o the provisions of the license ordinance now in councils, which places a line o \$10 upon the persons selling huckle berries without a license, but the mat er was dismissed after those presenhad laughingly talked it over,

Director Roche remarked that contractors doing city work let the jobs lrag to such an extent that it frequently caused an expense of ten per cent, and in some cases of eixteen per ent, to the city. Some of the contracors, he said, had declared in self-defense that the city deserves nothing better on account of its slowness in The ladies of the choir will entertain paying their claims.

TO REMODEL COURT ROOM. Attorneys' Ideas Reduced to Blue Print Drawings.

Plans for remodelling the court room in accordance with the ideas of the members of the bar were submitted to the judges yesterday by Architect F. L. Brown, accompanied by I. H. Burns, who with Major Everett Warren and James H. Torrey, constitute the committee,

The plans provide for a room in each of the rear corners, one on the Washington avenue side to be 18%x26 and the one on the opposite side, 18% x22. The larger one is to be used as a lawyers' consulting room and the

other as an arbitration room. A gallery with six tiers of seats extending across the rear of the room above these proposed new apartments and the two entrances is also contemplated. This will give a seating capacity of 405, which is in excess of the present capacity.

Two small coat rooms, one on either side of the bench, are included in the provisions of the plans, but these the judges would not approve of. They are very favorably impressed with the

Architect Brown estimates that the cost will be between \$3,000 and \$5,000, and is confident that in addition to providing much-needed quarters, the alterations will greatly improve, if not perfect, the present miserable accoustle properties.

It is likely the judges will soon make an order for these or some other alteration of the room, and that the work will be done this summer.

CONTROLLER IS

WILL REQUIRE COUNTY OFFI-CIALS TO REPORT FEES.

While the Decision of the Superior Court Stands, He Says, He Must Act on the Presumption That the County Officials Are Not Entitled to Fees-Electric Light Company Seeks a Franchise as an Act of Courtesy - Other Court House County Controller E. S. Jones en-tered upon the duties of his office yes-

terday morning, occupying temporary quarters in Sheriff Schadt's private office, while awaiting the completion of his suite of offices in what was formerly the arbitration room. His deputy, John Morris, the wellknown expert accountant, and his chief clerk, Robert Savage, of Dunmore, took the oath of office in the morning, before Clerk of the Courts Daniels and forthwith sat in at their desks waiting for anything in the shape of work that might happen

along. Delay by the printer in delivering some of the record books, prevented the controller from getting down to actual business. What few bills were presented were put over for a day or two. In consequence of the delay in the delivery of the books, Mr. Jones performed no distinctly official act yesterday.

The manner in which the auditing is to be done was explained by Controller Jones to a Tribune reporter. At present a person having a claim against the county presents his bill to the county commissioners and if they approve it, they give him a warrant, which the county treasurer will

cash. Now the bill is to be presented to the county commissioners and if they approve of it they make out a voucher to the county controller. The councils prescribing the duties of the latter official passes on the correctness and reasonableness of the claim, and, if it is all right, he gives it his to work. The city wants to sell its approval. The claimant goes back to last installment of \$10.000 of the Nay rent and, receiving this, returns to the controller for his countersignature The warrant being countersigned, the treasurer will cash it.

To pay money to the county, the person making the payment must get receipt from the treasurer and have troller.

Every day the treasurer makes a return of receipts and disbursements, and this must correspond with the re cord of vouchers and receipts in the controller's office.

Mr. Jones is proceeding on the pre sumption that the county officials are paid a salary instead of fees, and will exact from each of them a monthly statement of all money collected by them. This, Mr. Jones says, is in accordance with the decision of the Superior court, reversing the local court's finding in the Fee vs. Salary case, and until the decision of the Superior court is overruled he must needs accept it as the law. The case is now before the Supreme court and a decision affirming or reversing the finding in favor of salaries ought to be handed down in the course of a few

Claims It Is Superfluous.

Answer was made yesterday b H. Burns, attorney for the defense in the equity suit of R. Willis Rees, burgess of Old Forge, against the Lackawanna Electric Light, Heat and Power company, of the some place, The burgess seeks to prevent the ompany from installing an electric lighting system in the borough, alleging that the ordinance and the con-

tract are both irregular. The defense sought to hait the proreedings by a demurrer, in which it was held that the burgess, either as chief executive of the municipality or as a taxpayer, had no standing. The demurrer was dismissed,

In the answer it is set forth that while it is true the ordinance was vetoed, the veto was not messaged to the council within the prescribed time and that, at all events, when it was messaged, the council passed it over the veto.

Further, it is contended that the ordinance was a superfluity because the company already had a franchise from the township out of which the borough was carved. The application for the second franchise, the defense avers, was simply an act of courtesy.
