THE MARKETS.

Wall Street Review.

Wall Street Review.

New York, July 9.—Support for the market from the large banking interests and syndicates, which seemed yesterday to have absordened it to the effects of forced liquidation, worked a prompt transformation in speculative sentiment today. The opening dealings disclosed that there was still urgent liquidation to be effected and some heavy blocks were thrown upon the market at sharp concessions from last night's closing prices, but brokers with supporting orders were present at the same time and were bidding above the prices at which some were letting stocks go. The consequence was some wide openings in the prices of the granger, Pacific and Southwestern stocks on sales of 1,000 to 2,000 shares each. The sverage level of prices was carried a point below last night and there were exceptional losses in Louisville of 3%, in Baltimore and Ohio of 34, and in Southern Pacific of 1%. United States Steel received determined support from the outset and, although the first offerings were of 10,000 shares, the price was held at last night's level. During the rest of the day the market showed steady recuperation and at times developed a tone of positive buoyancy. The stocks which suffered most acutely in yesterday's liquidation were most conspicuous in to-day's raily, notably St. Paul, Union Pacific, Missourt Pacific and Atchison. The movement in these stocks was eclipsed by that of Louisville, in which the dealings were on a very large scale. The opening loss in this stock and the subsequent move gave ector to the supposition that it was raided for the purpose of secumulating stock. In the late dealings it spurted to 1005, an extreme rise of 7%, it closed with a net gain of 2½. The recovery in the other leaders from the low point ranged from 3 to 5. Some special strength was shown by Illinois Central on the declaration of the dividend and the decision to issue new stock, and by St. Louis and San Francisco second preferred on the election of the stock on a few seconds.
