THE FOUNTAIN MUDDLE

A Heap of Trouble Over Turning on nently in the Muddle.

As a starter it was away behind mean act of the Crescents on Sunday schedule time this season when coun- in trouncing the team that came up ells took action looking to the turning from the Electric City to add to the on of the water, and when the water achievements at Lake Lodore on the was turned on the troubles of the Fourth. The Truth's base ball writer city engineer began. The fountains at said it was the magnificent pitching either end of the city were sent off on of Griffin that did the trick at Lake their errand of benefitting humanity. Lodore, but on Sunday it was the but there's a different story to relate magnificent hitting of the curves of about the park fountains. First, there was some misunderstanding about pitcher, that won the game for Carwhether water was to be turned on in the drinking places for horses only, or both that and the fountains that from a fort, so terrific was speed, supplies the thirsty public. The coun- according to brother Barrett, but this cilmanic resolution said the trough bullet business was as casy for the only, but when the city engineer com- Carbondale sluggers as picking out a menced work to carry out this idea, one of the councilmen interposed and show day. Before the fourth inning declared that the water should be 10.71. was over, it was "sixes" and "sevens" de on in both places. To be sure of with Griffin, and he had to be taken his ground the city engineer held off out of the box. Sunday's victory for a few days, until Monda meeting of Common council, when he the Crescents and 'twill serve as consulted the councilmen who informed ed him that the resolution meant just what it said, "turn the water on to the town down the valley, supply the troughs." Meawhile the public clamor to turn on the water grew louder and louder.

Yesterday, the city engineer directed operations to commence at the connections for the fountain in the park. but he was considerably chagrined when the water was set flowing to just where it is. find that there was a leak somewhere in the supply pipe. The frest during the winter caused the pipe to burst, through the fountain, it flowed from the base. Operations were then ceasthe park was given attention in the be made through the papers. meatime. Last year this fountain was supplied by the waste water from the a meter being installed to measure Hale, Murray; the water that would pass through Emmet, Hall Gordon. the fountain. The company last year but this year such an arrangement ically said, and he refused to allow the it connection to be made unless the city complied with the order.

To be plainer the city engineer found he was up "against it." no matter how called at 3 p. m. sharp, hereafter. he surveyed the ground. The fountain is so located that there is absolutely requested to assemble at Alumni park no room for a meter, and the only course was to order it to be moved a few feet in order to accommodate the measuring device that the water company firmly and resolutely insisted on having installed.

Argument with the water company official, was as uscless as protests against the "continued hgh temperature" of the weather forecaster, and the city engineer made a virtue of necessity, and began to devise a means of meeting the water company's wishes and law. However, he is still figuring but it appears that the only course is to move the fountain a few feet, theremaking room for the device that so faithfully looks after the interests of the water company.

Whateved plan will be followed, it will mean an additional outlay of twenty-five or thirty dollars, which is quite a sum in the eyes of the economists in councils. It is possible, too, that with the meter installed, the expense of maintaining the fountain will be greater than last year, when the waste water from the park fountain. instead of being discharged into the sewer, was piped and sent through the fountain outside, the one that is now causing the worry and trouble. watter, even though it was waste hater, had to be paid for, the water com-

Delaware and Hudson road, was present in behalf of the company. He informed Coroner Roberts and the jury that it was impossible for the engineer and fireman of the train, also the rossing watchman to be present, but that he was able to repeat their statements. The engineer said he knew nothing of the accident until apprised of it by one of the young men, Shin nerhorn. He sounded his whistle and caused the bell to be rang as is customary in approaching crossings.

The watchman declared he lowered the gates as customary. Mr. Crippen also explained that there was an auematic ringer on the engine. He also said, incidentally, that Mrs. Wayman, the widow of the man who died from the injuries received in the accident, had signed a release from damages for the company.

HULL'S HEARING TODAY

Will Be Arraigned Before 'Squire Smith, in Honesdale, This Morning, When the Commonwealth Expects to Establish a Prima Facie Case-Schoonover's Daughter Iden-

Winans Hull, the accused slayer of Edwin Schoonover, of Scranton, will be arraigned before 'Squire Smith, of Honesdale, this forenoon, for the purpose of establishing a prima facie case against him to warrant his incarceration until the grand jury can pass on the evidence against him, which will be during the week commencing Mon-

Constable Edward Neary, of this

Constable Neary vesterday took the hain that was found beside the knife that Hull dropped when arrested, to the home of Schoonover's daughter on pleasantly entertained at the home of Lackawanna avenue, Scranton, for When she examined the chain.
