Destroys Brain Cells and Consumes Nerve Force at an Enermous Rate.

Many Cut Off in Early Manhood and Woman hood on Account of Neglecting to Keep Vitality on the High Water Mark.

In the factories and workshops, at the offices and stores-yes, and in the homes, too, people are being ground to death by the monotonous wear and tear of unceasing toil. Day after day, week in and week out, it is the same story of work and labor-of excessive toll and struggle, without opportunity of recreation. In the summer, above all other times, the burden is heavy to bear, and many a victim falls by the way, overcome by nervous exhaustion,

heart failure and physical decline. It is uscless to talk of rest in the cooling breezes of some take or ocean resort. The world's work must be done -the toiler must toil on. There is one however. method of replacing wasted herve cells and that is by using Dr. A. W. Chase's Nerve Pills after each meal. They give vigor and tone to the system and prevent exhaustion and prostration-they befriend working people by making them strong and well, giving new hope, posting. new confidence and stronger determination to succeed. The wonderful medicinal power of this great medicine is stopped and health restored by its use.

Jackson street, Scranton, Pa., says: Dr. A. W. Chase's Nerve Pills are a splendid cure for nervous sick headwas nervous at the same time. The nerve pills were recommended to me and I got a box at Matthews Bros." drug store, Lackawanna avenue, and and nervousness. This, I think, le rec-

ommendation enough." Dr. A. W. Chase's Nerve Pills 50 cents | Wednesday, and attracted much attena box at druggists, or Dr. A. W. Chase Medicine Co., Buffalo, N. Y. See that portrait and signature of A. W. Chase, M. La are on avery package.

Miss Florence Wilkins, Miss Lillian Garland, Rev. L. L. Lewis, Miss Lillian Tristworth, of Montrose, and Mrs. E. M. Tiffany, of Foster.

#### GIBSON.

Special to the Scranton Tribune. Gibson, July 11.-The Fourth was largely celebrated by the Patriotic Order Sons of America. Proceeds, \$167. Three of Gibson's oldest residents died within the past week, Mr. Increase DeWitt, Mrs. Raymond Scott and Mr. Henry Able.

pany have arrived and are to be placed for the wires within a few days. Many citizens are kicking because the council is allowing the various companies to deface the river bank with telefor a park.

### MILLIONS IN CORN.

Riches in the Soil if the Farmer Wants to Have Them. from the Chicago Chromele

If the farmer is to get riches he must get them out of the soil. Neither the Chicago Board of Trade nor the free olnage of 50 cent dollars will make him rich. The hocuspocus politicians cannot add a bushel to the productiveness of his land, nor can the "kings" of the corn pit add anything permanently to the value of his crops.

Having accepted these obvious truisms, the farmer will be interested in the scientific experiments now being conducted by the Department of Agriculture, with a view to increasing the corn of this country without additional expense or labor. The scientists have found that by cross-breeding the nitrogen contents of the corn are increased and the number of ears to a stalk are increased. Experiments made in growing 10,000 specimens of these hybrids have already demonstrated that it is possible to double the yield of corn rom a given number of plants,

In addition to conducting these experiments the department is sending ut some valuable advice to farmers in the matter of selecting seed for planting. This advice is to go through he field and select corn from the largest stalks for seed purposes. Not me farmer in 10,000 ever thought of doing such a thing. The uniform practice of farmers is to select the argest ears from the crib for seed.

There's more money in corn than in the promises of politicians. The bible holds up for emulation the man who makes two blades grow where only one grew before. How to do this is what Secretary Wilson is trying to show the farmers. In the meantime the products from corn, such as oil, glucose, rubber, celluose, paper and flour are being multiplied and their

value increased. The time is coming when there will be millions in corn. If Colonel Sellers were on earth today there is little doubt that he would begin planting corn on a large scale.

The value of the corn crop of the United States in 1899 was \$629210,110. or more than double the gold output

MILK FORBIDDEN IN CHINA.

### The Indian Lincot of Jan. 21 gives the follow-

ng condensation of a proclamation in the Loo

"Man should not rob the animals of their own coper food, and, of all animals, the cow is the nost valuable to man. The sellers of milk clacken their souls for gain; but those who rink milk do so in the foolish belief that it is good for them. Before taking any medicine, we should carefully investigate its properties, and who does so in the case of milk? Milk is the natural food of babes and of young animals; but then adults drink it do they not thereby entanger the life of the suckling calf and arouse nitter resentment in the souls of the calf and its mother? Besits have not the power of speech, and so cannot tell men that by drinking cow's milk they will become like quadrupeds. If men must have a strengthening draught, there are a meand better things than milk, as why select

that? Besides, the term of life is forcordained, and it cannot be prolonged by drinking milk. "Every one who reads this warning is especialenjoined to abatain from milk in the future. ildren whose parents will not allow them to drink milk will not be stunted in growth, but will have their lives prolonged and be immune in epidemics. So it is proclaimed in the Hall of Good Counsel."

## THE MARKETS.

Wall Street Review.

worth attending.
The funeral of J. P. Loderick, held at his home on Thursday evening, was largely attended by his many friends and by the Masonic lodge, of which he was a faithful member. His remains were taken to Tunkhannock for interment Friday morning. The funeral at Tunkhannock will be in charge of the Masonic lodge, Mr. Loderick was very popular. He came here from South Montrose some years ago. He was employed at W. J. Day's meat market. He is survived by a wife, one brother, one sister and a daughter. Mrs. Clarence Little, of Tunkhannock. The direct cause of death was blood poisoning.

D. W. Jackson, the master mechanic in charge of the round-house and shops here, is convalescing from a serious attack of typhoid fever.

Mr. and Mrs. Lou Nichols have recently been visiting at the home of Henry Mericle.

William Hayner, of Binghauton, is the guest of his uncle, Thomas Shannon, on Church street.
