BOX OF SHOES STOLEN.

Peter Cavanaugh Arrested Charged with Being Implicated.

Peter Cavanaugh, of Providence road, was arrested yesterday morning, accused of being implicated in the robbery of an Ontario and Western freight car, which was standing on a siding near the Park Place station.

A box of shoes shipped by the Olyphant Shoe company to George Hammell, of Passale, N. J., was taken from the car on Wednesday night, and Special Officer Williams, who is also the clue which led him to believe that the men who had taken the shoes removed them alongside the bank of the Lackawanna river.

He started out to investigate vesterday morning, and as he neared the river he espied two men running away from a clump of bushes, evidently alarmed at his approach. Cavanaugh, who ws the third member of the party, has an artificial leg and was unable to

Williams placed him under arrest as soon as he discovered the box of shoes hidden in the bushes nearby. The prisner was taken to police headquarters n the patrol wagon, but refused to tell who his companions were. He will be given a hearing today.

The police searched Cavanaugh's nome yesterday afternoon, on a search warrant, and came across Frank Jordan, one of the other two men supposed to be implicated with him, hidden in a clothes closet. He was arrested and will be given a hearing with Cavanaugh today. He refused to make any statement what-

IS DR. ALBERT KOLB OUT?

Refused to Say Whether or Not He Is Connected with the Bureau of Health.

It was reported in South Scranton last night that Dr. Albert Kolb had resigned his position as health officer. When interviewed by a Tribune man, he denied having resigned, and said he would not resign. He also denied having been requested to resign, but when asked if he had been removed,

refused to make direct answer.
"That's a leading question," he said. "I will have a statement to give out, ossibly within forty-eight hours, in which I will tell the public about this He refused to say whether or tot he is now connected with the health

When the bureau of health was ornized under the provisions of the second-class city act as the successor of the board of health, Dr. W. E. Allen, who had for years been health officer, was made superintendent, and Dr. Kolb was appointed health officer by Re-

J. U. CROSBY ARRESTED.

Charged with Erecting a Building Without a License.

been discovered.

J. U. Crosby was arrested vesterday at the instance of Building Inspector Jackson, charged with erecting a candy shop and ice cream parlor just outside Nay Aug park without a building permit and outside the tenfoot reservation.

A hearing in the case was held in the afternoon, before Magistrate Howe, when the building inspector testified that the building is already erected and that he gave Mr. Crosby five days last week in which to take out a permit, but that the latter had failed to do so.

Crosby had very little defense to offer and the magistrate fined him \$50 and costs,

BREAKER WAS ON FIRE.

Prompt Work Saved the White Oak at Archbald.

The White Oak breaker of the Delaware and Hudson company, at Archbald, had a narrow escape from destruction by fire yesterday morning. A watchman discovered the blaze just as it was beginning to lay hold on the structure and gave the alarm. The prompt work of the firemen saved the structure. Two years ago a breaker which

stood on the site of the present White Oak breaker was destroyed by fire.

Something You Can Afford and Why

You can afford to buy a piano of reliable house that treats their customers right and gives them just what they buy. A dealer who is not deceived himself and does not try to deceive his customers. A dealer who buys for spot cash, sells on easy monthly payments and keeps his expenses at the lowest point, consistent with properly conducting his business. A dealer who knows when a plano is properly constructed, properly tuned and properly cared for, and f out of order, knows how to repair t. A dealer who will make everything as represented and whose guarantee means every word it says. A dealer who is willing and can afford to give you the accommodation you require from his own capital, without horrowing from manufacturers or banks. A dealer who will not sell you a \$250 plano for \$500, then go to prayer meetings the following evening and sing, (or attempt to sing), "Hallelujah, "Tis Done," If you are looking for a dealer of the latter class, do not call on Guernsey Brothers, but if it is the former class you want, try them. If you or your friends have a second-hand piano to dispose of, go to Guernsey Brothers, 114 Washington avenue, near Lackawanna avenue, and get every dollar it is worth in cash. Then any one desiring it can buy it for just what it is worth, and pay by the month, or pay cash, as best pleases their convenience, Guernsey Brothers have no SPOT CASH BARGAINS. Every plano is a special bargain, as their way of doing business guarantees. But the customer decides whether the pay is to be by the nonth or cash. Guernsey Brothers treat every one kindly, considerately and honestly. Not that they claim to be so very good, but this is their way of doing business; the way they always have done business and the way they propose to continue.

OFFICERS OF UNIONS ARE TO CONFER

Presidents of the Anthracite District Unions Meet State Officers of Firemen Today.

HAZLETON IS THE PLACE

Unless the Mine Workers Decide to Give Their Assistance to the Firedent Nicholls of District Union Has stated. This Valley Yesterday.

The differences which have existed in the past between the United Mine Workers of America and the International State Firemen's association and which have cropped out since the strike of the latter was inaugurated on Tuesday last are to be thoroughly discussed and finally settled at a onference to be held this afternoon in Hazleton between the presidents of the three anthracite districts and the state officers of the firemen's asso-

This conference was arranged for yesterday afternoon at a conference held between President Nichols, of District No. 1, the district board and State President Mullahy, of the fire-This conference was held in the headquarters of the United Mine Workers, on Lackawanna avenue, and continued for about three hours.

The district board had a session of its own before President Mullahy ar rived, and directed President Nicholls to order back to work all firemen who are members of the mine workers' organization and who obeyed the strike order of President Mullahy. The latter said after the conference that he had no particular objection to this order, as it was entirely in line with the constitution of the mine workers' organization, which forbids any member from going out on strike unless ordered to do so by his own offi

"They'll have a hard job getting the firemen who have joined our organization back, however," he added.

CONFERENCE ARRANGED FOR. President Nicholls was especially

ion-communicative after the conference, and would make no statement for publication, except that a conference of the district presidents of the Mine Workers and the state officers of the Firemen's association had been arranged for this afternoon, for the purpose of arriving at some decision as to the best manner in which the Mine Workers could assist the firemen in their strike.

President Mullahy was a little more talkative. He said that he would request the officers of the mine workers' direct and advise the firemen who are members of the organization to join the firemen's association, in der that there might be no friction and that the firemen might conduct their strike more successfully. seemed to be very confident that this

couest would be granted. There are some who predict, howver, that the firemen will not have things all their own way at the conference, and that the question as to whether the firemen of the anthracite region should belong to the mine workers' organization or to an individual association will be settled once and for all.

President Mullany stated to Tribune man last night that at yesterday's conference he demanded that resident Nicholls order the Mine Workers in this district, who have aken the strikers' places, to cease doing any firing at once. He says that President Nicholls assured him that this would be done.

"We might as well give up our struggle right away," said he, "if we had no assurance that the places of our men would not be filled by other union men."

AT THE VON STORCH.

The only colliery in this valley in which mine workers have so far taken the places of the striking firemen, is the Von Storch, of the Delaware and Hudson, where work was resumed yesterday morning, the members of the local union having decided to go back to work, at a meeting held on Wednesday night. There are several collieries at Nanticoke, however, where the places of the strikers have been taken by mine workers. Prestdent Mullahy said that he hoped to have these all closed down today.

There was no change in the strike situation in this part of the valley yesterday, as regards the number of mines closed down. As far as could be learned, the strikers succeeded in closing down no additional mines, and there was, in fact, one more mine in operation than there was on Wednesday-namely, the Von Storch, of the Delaware and Hudson company. A meeting of all the firemen and all the engineers employed in and about the mines in this city has been called for this morning at 10 o'clock in O'Malley's hall, North Scranton. President Mullahy said last night that an effort would be made to get the engineers to take some action regarding the handling of non-union steam. or, in other words, steam produced by firing on the part of men not members of the firemen's organization. President Mullahy expressed himself as being confident that the engineers could be induced to decide to refuse

to work with any but union firemen.

The situation in the borough of Jermyn is most serious, owing to the fact that the Hillside company's Glenwood shaft is drowned out. The water is now flowing into the Delaware and Hudson colliery at Jermyn. Both these collieries have been idle for the past six weeks and have been pumping water night and day, no expense having been spared by both companies to empty them.

At both collieries the firemen struck Tuesday morning. At the Jermyn collieries, the outside and Inside foremen, assisted by the engineers, have kept their pumps going, but at Glenwood the boilers and pumps were abandoned and have since remained are rekindled within a few hours the Jermyn shaft will be completely which means an enforced idleness of at least six months.

The people were so aroused that vesterday afternoon six men from Jermyn volunteered their services at Mayfield, and Superintendent Gallagher was waited upon last evening by a committee from the Mayfield 'nited Mine Workers, who assured him they would back up the volun-Mr. Gallagher stated emphatically last evening that the three Hillside collieries would be started today. The striking firemen at these mines have decided to go back, as mentioned above, so that the services of the volunteers will not be re-

of the members of the Firemen's as could be found.

Nearly all of the fifty or more men the assembled around the corner were mine workers, but they did not participate in the discussion to any extent. The organizers waited around for some time, and then jumped on a car and returned to the central city.

Before going, President Mullahy inemed the reporters that there would be a special mass meeting at 10 o'clock this morning in O'Malley's hall, North Scranton, and that the presidents and ecretaries of the three districts, together with the president and secreary of the State Firemen's union will be called together at Hazleton today or tomorrow to take action in ompelling the United Mine Workers o transfer all firemen from that organization to the firemen's union.

WAX CAUSED A FIRE.

It Was Extinguished Without Aid

There was a small fire yesterday afternoon in the brick building at Centre street and Oakford court in the rooms occupied by the Scranton Electrotyping company.

A quantity of wax, which was beng heated caught fire and set the woodwork near by on fire. An alarm was sounded, but the fire was exinguished without the aid of the fire ompanies.
