

TWO CENTS.

SCRANTON, PA., TUESDAY MORNING, JULY 23, 1901.

TWO CENTS.

SITUATION IS NOT CHANGED

Expected Programme in the Great Steel Strike Was Not Carried Out.

FIRST STRIKE BULLETIN

It Gives an Outline of the Conditions Prevailing as Viewed by the Amalgamated Association and Also Gives Advice to the Strikers—The Keynote of the Advice is "Don't Work"—President Shaffer Denies the Story About the Vandergrift Delegation—Other Labor News of a Miscellaneous Character.

Lancaster, Pa., July 22.—The tonnage men of the Penn Iron company struck today because they were refused \$4 a ton, while the other mills in this district were paying \$3 a ton. The Penn workmen were receiving \$3.50. Recently the other mills increased to \$3.75 and last week a notice was posted in the mill that a twenty-five-cent increase would be granted, commencing today. On Saturday, the men made a demand for \$4, which was refused. The strike followed. Over four hundred men are affected by it.

Teamsters Tie Up Business.

San Francisco, July 22.—Wholesale and retail business houses today experienced great difficulty in having their goods hauled, on account of a strike of the teamsters, about a hundred of whom have quit, and it is thought this number will be greatly increased during the next few days. The employers are, it is stated, determined not to yield a point to the strikers. If the strike shall continue, other branches of labor will be affected. Porters undoubtedly will go out, and longshoremen may refuse to handle goods for non-union drivers or for firms employing non-union men.

No Change at Reading.

Reading, Pa., July 22.—The fifty non-union men brought here from New York by the Philadelphia and Reading railroad to take the place of strikers in their shop here are not working today. They say they are well satisfied, however, the company is under contract to pay them for fifteen days. There were no accessions to the ranks of the strikers. There was no effort today to make a settlement, though such is not far off and may come before the end of the week.

Refused to Strike.

Harrisburg, Pa., July 22.—A secret meeting of the employees of the Philadelphia and Reading Railroad company in Harrisburg and vicinity was held last night to consider the strike situation. From what can be learned the men refused to join the strike, although the sentiment among them is said to be strongly in sympathy with the strikers.

Situation at Reading.

Reading, Pa., July 22.—The Philadelphia and Reading railroad shop strike situation in this city remains the same tonight. At the request of Chief of Police Miller, all the coal and iron police, the company special force, have been withdrawn, that the vicinity of the locomotive shops, excepting a few. This was done, after a consultation with one of the Reading officials and has created a better feeling. There are several elements now at work which may lead to a settlement of the strike, if no unforeseen circumstances arise. Superintendent of Motive Power Prince is ready to confer with the committee representing all the men, but the parties have not met together. Such a conference, it is claimed, would result in a settlement, but it will require diplomacy to bring it about.

Wanted Weekly Pay.

Harrisburg, Pa., July 22.—Thirty workmen employed on the Market street subway struck today because of a refusal of Contractor William Martin to pay them weekly instead of monthly.
