SOUTH SCRANTON NOTES.
Congregation of German Presbyterian Church to Erect a Parish House on Site of Old Church.

The work of tearing down the old German Presbyterian church on Hickory street has begun, and within a few months a handsome parish house of modern design and construction will take the place of this old building, which was built in 1857 and was used as a church until 1887, when the beautiful stone structure, now occupied, was erected.

Since then the old building has been used as a parish house. Recently the trustees arranged for the construction of a new parish house, which will cost \$20,000, and is to be completed by Dec. 15.

The new building will be of brick, two stories high, and will be 84 by 66 feet in size. On the first floor will be the infants' department, church parlor, reading room and kitchen. The second floor will contain a large hall for meeting purposes and other parish work. A lecture room will also be on the second floor.

Boy's Narrow Escape.
Felix, the 6-year-old son of Mr. and Mrs. E. Strick, while playing about the unfinished sewer on Cedar avenue last evening with some companions, fell in and was almost drowned. The sewer, which is about eight feet deep, was full of water from the heavy rains, and the place for play of the boys. Last evening some of them had gathered there, among them young Strick, who in some unknown way got too near and fell in and would have drowned but for the timely assistance of George Kell, Jr., 11 years old, who grabbed Strick and held on to him, yelling for help.

Freud Reutcher heard the cries, ran to his assistance and took the boy from the deep, muddy water almost dead. A physician was summoned and after a half hour's work succeeded in bringing the child to life again.

To Finish the Basement.
Work is to begin upon the basement of the new Church of St. John the Evangelist. This part of the new building will be finished so that it can be used for hall purposes. It is the intention of the congregation to let the church stand in its unfinished state for some time before work on the interior is to be commenced.

The basement, however, will be fitted up and utilized for parish purposes.

An Unlucky Boy.
Fred Dieter, the young son of Police Sergeant Robert Dieter, is a very unlucky boy. A short time ago he fell and broke his arm, and had been out of the house for only a few days yesterday when he met with another accident.

He was riding on a wagon, from which he attempted to alight while it was in motion. He slipped, and, having one arm in a sling, was unable to regain his balance and fell. His left leg slid under the wagon wheels, both of which passed over it as the axle, tearing the ligaments and seriously spraining it. He was taken to his home, where he received medical attendance.

Recipe To Make a Woman of Eggs.

Take 1000 eggs, break and whisk them thoroughly. You have now the elements necessary to make a perfect woman, weighing one hundred and twenty-five pounds, if you can put the elements properly together. That "if" is as gigantic as the if of Archimedes: "If I had a fulcrum for my lever, I could move the world." But if woman can't be made she may be mended. The beauty of woman, the fairness of her form, the brightness of her eyes, the soft curves and dimples of her cheeks, all depend on health. When the health begins to wear, and fray, and ravel, the color dies out of the cheeks, the eyes lose their lustre, the form becomes spare and angular. Color is the symbol of life, pallor the sign of death. It is the death of beauty when the cheek becomes pale and the eyes lose their lustre. These are the signs of physical decay and failing vitality.

The general health of woman is so closely linked with the local health of the delicate womanly organism that when she begins to fade and fail the first enquiry is as to the functional health. Are there irregularities and drains, or inflammation, ulceration and female weakness? Then there will surely be headache, back-ache, nervousness, sleeplessness and loss of appetite. There will be dark rings about the eyes, sallow cheeks, and physical languor.

There is no medicine which will so quickly restore the womanly health as Dr. Pierce's Favorite Prescription. It regulates the periods, dries debilitating drains, heals inflammation and ulceration, and cures female weakness. It makes the baby's advent practically painless and gives abundant strength to nursing mothers.

"Favorite Prescription" contains no alcohol, neither opium, cocaine nor any other narcotic.

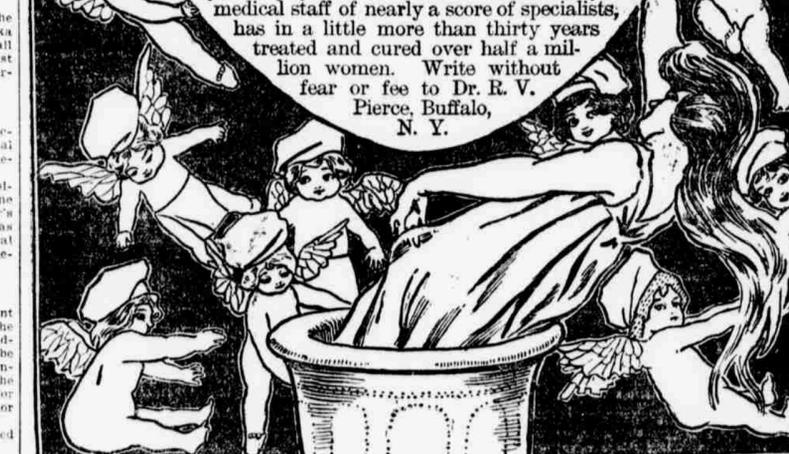

"I was troubled with female weakness for eight years, and suffered more than I can tell," writes Mrs. Gust. Moser, of Ovando, Deerlodge Co., Mont. "My disposition was affected to such an extent, that to say a pleasant word to anyone was almost an impossibility."

"I had two operations performed by one of the most skilled surgeons of the West, but did not get relief. Then, against my doctor's strict orders, I commenced taking Dr. Pierce's Favorite Prescription and 'Golden Medical Discovery,' and also followed the advice given in the Common Sense Medical Adviser."

"I continued this treatment for three months, and to-day am as healthy and well as a woman can be. I cannot thank Dr. Pierce enough for his kind letters to me."

"I was a great sufferer for six years and doctored all the time with a number of different physicians but did not receive any benefit," writes Mrs. George Sogden, 641 Bonda Street, Saginaw, (South), Mich. "One day as I was reading a paper I saw your advertisement, and although I had given up all hope of ever getting better, thought I would write to you. When I received your letter telling me what to do I commenced to take your medicine and follow your advice. I have taken ten bottles in all, also five vials of the 'Pleasant Pellets.' Am now regular after having missed two years and suffered with pain in the head and back. I was so nervous, could not eat or sleep. Now I can thank you for my recovery."

Women suffering from chronic forms of disease are invited to consult Dr. Pierce by letter free, and so avoid the indelicate questionings, the offensive examinations and obnoxious local treatments considered necessary by local physicians. Dr. Pierce, assisted by his medical staff of nearly a score of specialists, has in a little more than thirty years treated and cured over half a million women. Write without fear or fee to Dr. R. V. Pierce, Buffalo, N. Y.

"Ex-Governor Pingree," says a writer in the Detroit Free Press, "was never cold to the call of aid, no matter how wild some it came. I remember one bitter winter's night he was standing at street corner with a group of children, when a 'tramp looking 'dome' slouched up to the crowd and made an appeal for assistance." He had all the estimate of a professional mendicant, and his appeal met with a good rebuff from most of those in the group. He was about to slouch off into the darkness when the governor, who had been long interested in the conversation to notice him at last, called him back.

"Here," he said, in his brusque way, "give this fellow all he can eat, 50 him up, and send the bill to me. Now," he added, turning to the grateful mendicant, "you got something into you, and get a good night's rest. And keep away from here."

"Yes, Pingree was charitable in a quiet, unobtrusive way, and many such incidents could be told of his high-heartedness."
