Another False Alarm.

About 9 o'clock on Saturday evening, the fire companies had the pleasure of turning out to a false alarm from box 44. Scranton and Seventh streets. The cause of it all was an individual who had evidently never known that the place for smoke to come was out of a chimney, and so when he saw a chimney smoking, took it for granted that where there was smoke there was fire, and so turned in the alarm.

Each year the Welsh people of this icinity have been holding an elsteddfed in the various churches about Christmas time. This year the Liter-ary and Bible society of the Welsh Calvinistic Methodist church are making preparations to hold it as usual. No effort has been spared to make this a royal success. Noted Welsh singers have already ben secured and the committee in charge expect to have the programme out within a month.

Last year the Taylor church held it and it was pronounced a grand success. However, the people of Bellevue believe that they can eclipse it, as well as all former efforts, and are doing their best to reach that end.

There will be a very important meeting of the ex-Columbia Volunteers, at the Columbia hose house, on Division street, this evening. All who come under this head are earnestly requested to be present, as business of great importance will be brought before the meeting.

FOREST CITY.

Special to the Scranton Tribune Forest City, Aug. 5.-The Republican primaries will be held Tuesday evening from 7 until 8 o'clock.

Mrs. J. J. Walker returned Saturday rom a stay at Atlantic City. There is a great deal of agitation going on relative to the borough building. Several citizens have made protesta in the newspapers, and it is leading topic of conversation on the streets. There are many citizens who are against the project and, of course, not a few who favor It. Meanwhile, Architect Morris, of Scranton, has been authorized to go ahead with the plans, and efforts are being made to compe D. E. Healey to vacate the lot, so that work can be begun without delay. The people generally are watching for the outcome with interest. There are many
