#### **MERCHANTS' PART** IN CELEBRATION

#### The Dealers Who Have Signified Their Intention of Having Floats in the Trades' Display-Other Interesting News of the Semi-Centennial Plans.

There is no mistaking the great interest the merchants of the town are taking in the plans of the semi-centennial celebration, particularly that part in which they will participate, the trades display. Evidence of this is shown in the canvass made among the merchants by a committee from the retail merchants, which reports the following as signifying their intention to be represented by a float: Seaman Bros., R. Kinback, T. A. Walker & Co., J. B. Gilhool, A. L. Sahm, Star Clothing house, G. B. Berry, W. B. Foster, James Rutherford, D. W. Humphrey, J. F. Robinson, C. W. Fulkerson, N. F. Stephens, G. W. change, Manager Hughes, of the Carbondale Telphone exchange, made an improvement yesterday in connection with the switchboard that will be a great economy in the work of the operators and will also facilitate the calling of subscribers.

He has installed a miniature motor which generates power for the ringing of the 'phone bells. Heretofore a crank had to be twisted to generate the power, but now this will be obviated and all that will be necessary is the pressing of a button. The operator is thus saved a great deal of laborious work during the day, as the turning of the crank referred to cut quite a figure in answering scores of calls. The operators are also enabled to connect subscribers more quickly. Finally the increased power from the new generator makes the 'phone bells ring more loudly, to the satisfaction of subscrib-

ing testimonial:

The life line is not an infallible oracle If it were | Medical Discovery " acts, is marked in the follow it would be wise to select our soldiers by the length of the life lines in their hands. But the soldier is selected on the basis of stature, strength and stomach, for the stomach stands for the general health and vitality of the man. A "weak" stomach means a weak man, and a weak man won't do for a soldier. A weak stomach means a weak man because the body is nourished by food, and unless the stomach and other organs of digestion and nutrition are in sound-health, the food will be imperfectly digested and partially assimilated, and so the entire body will be insufficiently nourished. That is why no man is stronger than his stomach. That is why "weak" heart, "weak" lungs, "weak" kidneys and other forms of organic weakness are often cured when the weak stomach is cured and the organs are nourished into strength.

That is why Dr. Pierce's Golden Medical Discovery cures many forms of disease seemingly remote from the stomach, by curing the diseased stomach in which these other diseases had their origin. "Your medicine helped me so much that I cannot praise it too highly," writes Mrs. C. L. Brooks, of Poland, Androscoggin Co., Maine. "The first dose I took helped me. I cannot torget how I felt when I took it. I was suffering everything with indigestion, and my stomach was so bloated that it seemed as though it must burst. My husband said he was going for the doctor, but I said if he would get me a bottle of the 'Golden Medical Discovery' I would try that. I had not taken it long when I felt relieved, and have not nad a touch of indigestion or stomach trouble since. I had been sick for four years and less than four bottles cured me. Some people that knew me before I began to take the 'Golden Medical Discovery' tell me that they never saw such a change in any one, and they also say they don't see how I can do such large washings as I do now, when I had not done a washing for so long." The relation of other weakened organs to the weak" stomach is shown most forcibly by the wonderful manner in which weak lungs are healed by "Golden Medical Discovery." This is a medicine which strengthens the stomach and purifies the blood. What has a medicine for the stomach and blood to do with the lungs? Answer that question by asking another. What have the stomach and

Why everything. There's no life without blood, and there's no blood without food, and food is prepared for bloodmaking purposes in the stomach. It is evident, then, that the "weak" stomach is intimately related to the weak

lungs. All physicians recognize this. For consumptives they prescribe cod liver oil and its emulsions. This is a food and nothing else. Its use is an attempt to reach

the lungs through the stomach by increased nutrition. But this

treatment in trying to reach the weak lungs does nothing for the weak stomach, and therefore attempts to cure the fruit of a disease with-

out touching the root of it, and that's why the treatment fails. "Golden Medical Discovery" heals diseases of the stomach and organs of digestion and nutrition, and so increases the nutrition of the body. It stimulates the action of the
