THE MARKETS.

Wall Street Review.

New York, Aug. 8.-Developments in the stock market today favored operators for the long acsome time, carried many properties to substantially higher level. Unusual prominence was given to the trading in the United States Steel stocks, owing to the frequency with which large blocks changed hands at a rising scale Professional operators were inclined to cover shorts in these issues, owing to the resumption of work at some plants and the official an-nouncement of the absorption of the Shelby tube works. When the prices of the steel stocks beand 2 per cent., respectively, above vesterday close for the common and preferred, the general market kept pace with the movement and exceeded those gains in some instances. There were many interruptions to the general rise during the day by profit taking and short selling Steel stocks, which ended about a point below the best when a report circulated that a propri-nent operator was unloading stock purchased at a much lower level. This selling soon affected the other market, but semi-stagnation soon re-sulted and the closing dealings showed steadiness,

Conspicuous strength was displayed by St. Paul, Union Pacific, Missouri Pacific, Sugar and Lacka-wanna, which were from 13, to 5 points higher. Total sales today, 417,000 shares. The bond market was strong today, the feature being Mohawk and Malone incomes, which

dvanced nearly six points. Total sales par value, United States bonds were all unchanged on the
