SCRATCH."

"I consider your 'Golden Medical Discovery' one of the "I consider your 'Golden Medical Discovery' one of the best medicines on the face of the earth," writes William Floeter, Esq., of Redoak, Montgomery Co., Iowa. "While in the south-west three years ago I got poisoned with poison ivy. The poison settled in my blood and the horrors I suf-fered cannot be told in words. I thought I would go crazy. I could do nothing but scratch. I would go to sleep scratch-ing, would wake up in the morning and find myself scratch-ing. I scratched for eight months. Had it not been for 'Colden Medical Discovery' I would be accratching yet. I ing. I scratched for eight months. Had it not been for 'Golden Medical Discovery' I would be acratching yet. I tried different kinds of medicine—tried different doctors— but all the relief they could give me was to make my pocket-book lighter. I called on one of the leading doctors in a western town. He charged me one dollar; drugs cost two dollars and a half. If I had given that money away I would have been better off, for it did me no good. I then began taking Dr. Pierce's Golden Medical Discovery. Took ir bottles without any relief. Kept taking it. I took in all ten bottles and I got entirely cured. I can say that if people would take your medicine instead of fooling with some of the quacks that infest the small and larger towns disease would fiee like chaff before the wind."

The action of "Golden Medical Discovery" upon the blood is marked in two ways: by purifying the blood and so removing the causes of disease, and by increasing the quantity as well as improving the quality of the blood. This increased supply of pure the diseases which had fastened on them. In scrofulous diseases the use of "Golden Medical Discovhas time and again worked wonders, curing ery" sores, boils, eruptions, and other painful and disfiguring diseases.

SIGHT ALMOST GONE.

"My little daughter when seventeen months old became afflicted with scrofula, which affected her eyes," writes Mrs. Agnes L. Duncan, of Mansfield, Sebastian Co., Ark, "She could not bear the light for over a year. We tried to cure her eyes, but nothing did any good. We had our home physician, and he advised us to take her to an oculist, as her eyelids would have to be 'scraped.' They had become so thick he thought she would never recover her sight. As there was no one else to whom we could apply my heart sank within me. I went to your 'Common Sense Medical Adviser,' read your treatment on scrofula, getting the prop-erties of medicines there advised. With five bottles of 'Golden Medical Discovery' I have entirely cured my child " child."

Scrofula of the lungs is the other name for that

food and you take away his life. Take away a man's blood and he dies. Give a man blood and you give him strength. The great fact is that life depends upon food, and on the ability of the stomach and organs of digestion and nutrition to extract the nourishment from the food and distribute to blood,

brain and bone, the salts, phosphates and lime they live on.

"Golden Medical Discovery" cannot make a drop of blood. It can no more add to a man's strength than to his stature. What it can do and what it does is to put the stomach and organs of digestion and nutrition into perfect working order so that the nourishment in the food is extracted and assimilated and made into blood and strength.

ITS WONDERFUL WAY.

"Three years ago," writes Miss Jennie Swearingen, of 1056 Market Street, Parkersburg, West Va., "I was taken with what our family physician called typhoid fever, and was sick for seven or eight weeks. My stomach was in a dreadful condition and I could neither eat nor sleep. For four weeks I drank only ice-water. I was taken down in the same manner the next year. manner the next year. I suffered for twolor three weeks manner the next year. I suffered for two for three weeks, and again last winter I began suffering with a pain in my side. It kept getting worse and I had to have a doctor, and he pronounced it a kind of malaria and Grippe. What I suffered I could never express to anyone. I could eat nothing; had to lie flat on my back and could not rise from the bed. Everyone thought I could not live. I had to be covnew life to every organ of the body. Weak organs are thus strengthened and are enabled to throw off the diseases which had for the body is a construction of the body of the diseases which had for the body of th ing to directions and began to improve slowly. The way it helped my stomach was just wonderful. I still continue the use of the medicines, and now have taken not less than sixteen bottles of 'Golden Medical Discovery' and quite number of the vials of the 'Pellets.'

"For catarrh I have used six bottles of Dr. Sage's Catarrh Remedy, and am cured of that trouble also. I cannot say nor write enough in praise of Dr. Pierce's medicines. I snow that no other medicine in the world could have bene fited me in the way it has. I have had no bad spell of sick-ness since I began its use, and I feel entirely well."

The wide range of cures performed by Dr. Pierce's Golden Medical Discovery may be attributed to the scientific method of the treatment which cures through the stomach diseases which have their origin in a diseased condition of the stomach and the allied organs of digestion and nutrition. Blood is the life, but blood is made from food, and the conversion of food into nutrition depends upon the health of the stomach and its allied organs. "Golden Medical Discovery" heals the stomach and so removes the

All of the details of the big celebra tion are so well in hand that the programme of each day can be published On Monday, Sept. 2, will be the civic parade. This will be the first public demonstration of the jubilee. It is expected that over thirty organizations will be in line, which, with their bright uniforms and magnificent floats will make, without doubt, the most imposing procession ever witnessed on the streets of Carbondale. The merchants will also participate in this parade. Thirty-five have already signified their intention of having an appropriate float in line.

THE SCHOOL CHILDREN.

The school children will parade at 1 o'clock in the afternoon. Several thousand pupils will be in line, dressed in the national colors and carrying small American flags. The floats, of which there will be a dozen, will be beautiful and artistic and will be a revelation to all who are anticipating the features of this part of the cele-bration. After the procession the children will be addressed from the platform at the city building by eminent authorities on educational methods and work
