PITTSTON.

Special to the Scranton Tribune

Pittsten, Aug. 22.-The West Pittston Cornet band is a thing of the past. After a struggle of a year or more to raise \$600 to pay for their instruments, they will soon be among the things forgotten. They have falled to meet the payments on their instruments as per contract, and as a result the manufacturing company will seek their return with the aid of Squire Ehret.

A few days ago announcement was made that the Sterling Silk mill here, which has been idle since last February owing to the strike of the mill girls, would start operations tomorrow. A number of the girls started in to prepare the machinery, notwithstanding the Textile Workers, at a recent meeting decided to ignore the managers' proposition to return to work at the old scale. Twenty-three girls responded for work this morning and were stopped by a picket who urged them to turn back. This they refused to do, and as they hurried towards the mill were pelted with nes, by the more persistent strikers, The parents of some of the strikers, it is said, assisted in the attack.

THE DAILY GRIND

Destroys Brain Cells and Consumes Nerve Force at an Enormous Rate.

Many Cut Off in Early Manhood and Womanhood on Account of Neglecting to Keep Vitality on the High Water Mark.

In the factories and workshops, at the offices and stores-yes, and in the homes, 100, people are being ground to death by the monotonous wear and tear of unceasing toil. Day after day, week in and week out. it is the same story of work and labor-of excessive toll and struggle, without opportunity of recreation. In the summer, above all other times, the burden is heavy to bear and many a victim falls by the way, overcome by nervous exhaustion,

heart failure and physical jecline. It is useless to talk of rost in the cooling breezes of some lake or occan resort. The world's work must be done -the toiler must toil on. There is one method of replacing wasted nerve cells and building up the worn-out system, and that is by using Dr. A. W. Chase's Nerve Pills after each meal. They give vigor and tone to the system and prevent exhaustion and prostration-they befriend working people by making them strong and well, giving new hope, new confidence and stronger acterminition to succeed. The wonderful medicinal power of this great medicine is semonstrated in thousands of cares where the wasting process has been stopped and health restored by the use. Mr. Thomas Summers, of No. 1619

Ru mors persist in Wall street of a pendcarried the stock 24 over last night. Rumors of a beneficial agreement besponsible for the movement. Both stocks were affected also by a nervous short account. There was a vigorous advance in Amalgamated Copper in the last hour, which lifted the stock 31/2 points over last night and carrying Anaconda with it 114 on the talk of further extensive consolidation of copper interests. The anthracite carriers continued to show strength, seemingly on the general conditions in the trade and the fact disclosed by the Erie's annual report that the stock of Lehigh Valley had been distributed among the other anthracite interests. The gains extended to 3 in Lackawanna, 3% in Delaware and Hudson and 1% in others of the group. In all other prominent stocks movements were restricted to fractions. The firmness of the United States Steel stocks was maintained on very light volume of dealings. The firmness of the market was in face of some rather notable selling for London account, due to the unsettled feeling on foreign bourses induced by the Franco-Turkish imbroglio and disappointment over the maintenance of the Bank of England rate.
