Miss Janet Causland, B. E., scored a triumph at the Presbyterian church recently on the occasion of her pro fessional debut as an elecutionist and dramatic reader before a Montrose audience. Miss McCausland has a remarkably attractive stage presence, a musical and expressive voice over which she has complete mastery, and elocutionary talent of an unusually high order. It was a cultured and critical audience which greeted her and she took them captives by her excellence and charm of her work.

THE MARKETS.

Wall Street Review.

New York, Aug. 26.-The stock market had I more thorough rest today than at any time since the rise in prices act in. The result was not al-together conclusive. The outside demand for orke was considerably augmented, as was es perfed. A sustained advance for two weeks and an even growth of interest and increasing tendency to buy atomic may be always depended on to produce this result. Equally a matter of course is the tendency of the professionals traders, who have been accomplating stocks and Mizette and Miss Jennie Wildrick have so as to make sure of a portion of their profits, This process was very obviously going on duty the first liour of the market today, which wa the most active of the day. Some recreation is prices resulted, but the market on the whole took the realizing very well and no serious in roads were made upon prices. Afterward there were new advances here and there and the accifient gave the appearance generally of being still in the control of the bulls. The iniving de however, became languid and then almost t and the market proved easily tulnerable to attack by the professional hears. In the last hour prices were quite generally below Saturday's level. A substantial rally followed, but this again proved merchat short-lived and the closing was irregulated lar and quite active, with speculative sentiment manifestly much unsettled. There were various favorable factors which aided the buils in opering prices higher. Total sales, 388,100 shares. Railroad bonds showed a considerable gain in late re-action in stocks. Total sales par value, \$2,500,000.
