In the factories and workshops, as the offices and stores-yes, and in the homes, and, people are being ground to death by the monotonous wear and tear of unceasing toil. Day after day week in and week out, it is the same story of work and labor-of excessive toll and struggle, without opportunity of recreation. In the summer, above all other times, the burden is heavy to bear and many a victim falls by the way, overcome by nervous exhaustion, heart failure and physical fecline.

It is useless to talk of rest in the cooling breezes of some take or occan resort. The world's work must be done -the toller must toll on. There is one method of replacing wasted nerve cells and building up the worn-out system, and that is by using Dr. A. W. Chase's Nerve Pills after each meal. They give vigor and tone to the system and prevent exhaustion and prostention-they befriend working people by making them strong and well, giving new hope, new confidence and stronger determination to succeed.
