METHODIST CHURCH'S DAY OF FELICITATION

Fitting Observance of the Seventythird Anniversary of the Establishment of the Church-The Most Significant of the Day's Doings Was the Burning of the Bonds Which Represented the Church's Debt-Sermon by Rev. Dr. Wyatt.

Vesterday was a day of feliciating and jubilating among the members of the congregation of the First Methodist church.

It was the seventy-third anniversary of the establishing of the church, an event which was observed in the spirit to which the occasion gave rise. But as important as was the anniversary and as interesting was its celebration, more significant by far was the celebration of the fact that the church's freedom from debt. The struggle which the congregation bat. days of racing. tled with for the past few years, the sacrifices which they made during that time, ended last night, when the pas-Rev. A. F. Chaffee, annou debt had been lifted; the handsome sacred edifice, which is a credit to the zealous and energetic flock, was free its pecuniary obligations. This announcement was lowed by the triumphal burning by the justly proud paster of the bonds which represented the church indebtedness.

The services of yesterday, morning and evening, were particularly interesting and impressive, and were marked by the spirit of the occasion. The speaker chosen for the day was Rev. Dr. A. H. Wyatt, of Huntington, N. J. The choice was a happy one for it was Dr. Wyatt's father who was pastor of the church in 1852, when he fought so successfully against the spread of the craze of spiritualism. At the morning service Dr. Wyatt's theme was "The Ascension." His text

was from Luke 24: 51-52. The points of his sermonu were four, as follows: The ascension as viewed from heaven. The ascension as viewed by man

The light the ascension threw in the life of Christ.

The light the ascension gives concerning the kingdom and coming of Christ In the evening Dr. Wyatt's force and

eloquence were shown in his sermon "The Christian Work." His text was from James 1: 25-"A doer of the work, this man is blest in the doing." Dr. Wyatt drew a comparison of James and Christ. They had many things in common; they had family traits that were natural to both of them; they were epigrammatic in speech; they drew their parables from nature and they gave expression to the greatest common sense and truth. prominent was the last characteristic in James that his teachings are called the gospel of common sense James looked upon the practical side of everything. He defined the Christian as the door of work; not the Christian in belief, in experiences and emotions, but in doing the work of the Christian:

We are in an age when no man lives to himself; he is a part of the great brotherhood of man. If a man stands up and says "I enjoy religion." his answer is not to the point; the question is. Does the community, does his church enjoy his religion. The gospel of Christ is so great that no man, no age, can emphasize any one principle

more than another. Dr. Wyatt pointed out the doctrines that Martin Luther and John Wesley taught and emphasized and suggested was not a question of which was the more practical: it was a question of what good and for whose good. Every doctrine must stand or fall as it answers to what benefit it

may be. There was splendid music at both services. W. D. Evans prepared a programme of singing that was in line with the spirit of the occasion. The

FOR NOT PARTICIPATING

Those Who Failed to Take Part in School Demonstration in Jubilee Exercises to Be Censured-Warm Discussion at Saturday Night's Meeting of School Board.

The school board held its postponed egular meeting Saturday night. of the members were present. The most important event was the caustic coring given those teachers who failed o participate in the semi-centennial relebration as requested by the board. Just who these teachers are, the suerintendent would not say, but it is known to include most of the High school faculty and several of the teachrs from the district schools. Several of the directors were very

pointed in their remarks and desired come public display of the board's disapproval. Mr. Gallagher and Mr. Kerwin ob-

jected to this however. Mr. Swigert oved that the teachers who refused to take part in the semi-centennial cetchration be brought before the school hoard and that they be censured by Wensel and Garfield Williams' Red the president. Gallagher demanded a Ayes-Evans, Hughes, Swigert and

LIGHT CONTRACT VETO.

Will Possibly Be Acted Upon by Common Council Tonight.

An important matter will possibly be acted upon in common council this evening. It is the veto of the street lighting contract, which was a few head in select council. There was just the requisite number of votes-four. There was one vote against it. Mr. Barreti's, and one, Mr. Davis, which vas not east either in favor or against ts passage.

This same contract has been buffered about ever since the early spring, and Cemetery street. its face in common council is a matter of speculation. At the last session, it was originally intended to hold in that it would be rejected its supporters succeeded in having it sent to committee, with instructions for a written opinion of the legality of the whole here with friends, returned to her home proceeding from beginning to end. The fact that no action was taken on the veto for a number of weeks after it left Mayor Kilpatrick's hands raised several questions and it was partly though not wholly, for this reason that the opinion was sought. The opinion is expected to be on hand tonight and warm discussion is looked for. The reason that Mayor Kilpatrick is opposed to signing the contract is that he is not in favor of the city entering nto a binding agreement of this character for more than a year, when, as he believes; there is a possibility of street are lights becoming cheaper. and the possibility, also, of improved methods of lighting in the meantime. The rate he considers reasonable enough, the only question being one of

expediency. The members of common council are divided on the question, and whatever ony the measure goes, it will be by a nall margin. There is a widespread nterest in the agitation, which will indoubtedly be manifested in the atendance at tonight's session
