**Wm. Meyervitz Accused of Stealing \$100 from His Employer.**

William Meyervitz aged 35 years, who formerly lived on Hickory street, was arrested on Thursday night in Wilkes-Barre by Detective Lona Day on the charge of stealing \$100 from his former employer, M. Silverman, who runs an umbrella repair shop on Spruce street.

Silverman claims that he gave Meyervitz \$100 on August 28 to deposit in the Traders' National bank. He did not think to ask Meyervitz for the bank book. The day after he had been given the money, Meyervitz resigned his position.

Silverman was not suspicious until a few days afterwards when he had occasion to draw some money from the bank and found that his bank book was gone. Inquiry at the bank revealed the fact that Meyervitz had placed the case in the hands of the police, who discovered that Meyervitz was in Wilkes-Barre.

When arrested by Detective Lona Day on Thursday night he had in his pocket. This was found to be a bank book showing that Peter Bernstein had deposited \$85 in the Merchants and Miners' bank, of Carbondale on August 27 and had cashed it a few days afterwards. It is known that Meyervitz went to Carbondale the day after he left Silverman's employ.

He was given a hearing yesterday afternoon before Magistrate Miller, who held him under \$500 bail for his appearance in court. He did not make any very strenuous denial of the charge.

**RECORDER AND HIS CABINET**

**THEY HELD THEIR MONTHLY MEETING IN CITY HALL.**

City Solicitor Watson Said That the City Has Unintentionally Accepted a Number of Streets and Is Now Held Responsible for Damages When Accidents Occur—A New Arrangement of Offices to Be Made, Surplus in Treasury to Be Used in Paying Deficiencies.

Recorder Connell and the members of his official cabinet considered a number of important municipal matters at a lengthy session held yesterday afternoon in the municipal building between the hours of 2 and 5 o'clock.

Present at the meeting, in addition to Recorder Connell were the following officials: Director of Public Works Wormser, Director of Public Works Roche, City Treasurer Robinson, City Solicitor Watson, President Rinsland, of the board of assessors, and Deputy City Controller Hartley.

City Solicitor Watson referred to a recent resolution adopted by council directing himself, the city engineer and the director of public work to prepare an accurate list of all the streets which have been accepted by the city. Mr. Watson said that his investigations had revealed the discovery that the city has accepted a number of by-ways in years past by spending city money in improving them. This operates as a formal acceptance, he said, and as a result there are many thoroughfares in the city which should never have been streets but which are recognized under the law as highways of the city.

The city has been out large sums in damages which have been obtained by persons injuring themselves on these streets, he said, and steps should be taken in the future to prevent the improvement in any slight way of such by-ways. The director of public works was directed to use great care in the future in this respect.

**MATTER OF LIENS.**

There was a long general discussion over the question of assessing and collecting the carelessness which has prevailed in the past in allowing them to lapse without renewing them. In this connection the question of paying and sewer estimates was considered and it seemed to be the general opinion that as now made by the city engineer they are too low. The director of public works was directed to notify the city engineer to make these estimates a little higher in the future so that the city will not have to make up any deficit which might be caused by the lapsing of a lien or a defective lien or some other unforeseen circumstance.

It was unanimously decided to place the auditing clerks in the several city departments under bonds and Recorder Connell appointed Director of Public Works Wormser and City Treasurer Robinson as a committee to prepare a list of all clerks whom they believe should be placed under bonds and the amount for each.

Director Wormser urged that when the city hall is re-finished and re-painted that he be given a larger office as his present quarters are very cramped for his duties. Director of Public Works Roche was directed to call in Building Inspector Brown and prepare plans for a re-arrangement of the offices.

It seemed to be the general consensus of opinion that the school board should vacate the two rooms which it is now occupying on the second floor of the building. The idea is to have the director occupy the large meeting room and to have the school board occupy the two rooms which are now occupied by the heads of bureaus in his department have desk room with him.

**SURPLUS IN TREASURY.**

Deputy Controller Hartley reported in the city treasury at the end of the fiscal year, that being the estimated receipts over and above the appropriations made. Recorder Connell announced that he favored the use of this money in paying off some of the old deficiency bills which are not provided for in the ordinances now pending in council and said that he would not approve of the appropriation of this money for any other purpose.

It was decided to give the director of public works power on the certificate of the recorder and controller to transfer money appropriated for the repair of streets in one ward to the repair of streets in another. This was done because of unforeseen emergencies which may necessitate the expenditure of an additional sum in a certain ward.

Assessor Rinsland said that the assessors in making the assessment had made a large number of houses in the outlying wards are unnumbered and he desired to know if there was no ordinance in force requiring all houses to be numbered. The matter was referred to City Solicitor Watson, who will look it up.

**Her Work While in This City Highly Commended.**

Miss Grace MacKenzie, President McKinley's nurse, nursed Mrs. R. J. Foster, of this city, through her serious illness a few years ago, as mentioned in a recent issue of The Tribune, and left pleasant memories here by reason of her brightness and devotion to duty. Mrs. Foster's husband, the well known vice president of the Colliery Engineer company, said yesterday:

"Some time before my wife was prostrated by illness she met Miss MacKenzie at the (Mrs. Foster) sister's bedside in Philadelphia. Mrs. Foster was highly impressed with her and when Mrs. Foster fell ill she sent for her. Miss MacKenzie was here several weeks. Her services were eminently satisfactory. She attended to Mrs. Foster all through her illness, and was one of the brightest and most patient nurses I ever saw."

"She has a strong constitution and is an inviolable worker. She never gets tired. I remember when I read that they had secured her for the president. Her people live at Hamilton, Ontario, and once since she first came here she accepted an invitation to remain with my wife to stop over and spend a few days as Mrs. Foster's guest."

**CONVENTION POSTPONED**

**State League of Republican Clubs Not to Meet Here Until After the President's Funeral.**

The fourteenth annual convention of the State League of Republican Clubs, which was to have been held next week in this city, will not be held now until after the funeral of President McKinley.

Chairman M. W. Lowry, of the general committee having the arrangements in charge, received a telegram from President J. Hampton Moore yesterday, telling him that the executive committee had decided to postpone the convention indefinitely in case President McKinley died.

The general committee met last night in the rooms of the Central Republican club, but adjourned to meet tonight, upon hearing that the president was in his last moments.

The members of the committee gathered in the hallway outside the club rooms in little knots before the meeting was called to order, and discussed the situation. Sadness and sorrow was depicted on every face and many men could not keep back the tears that came into their eyes as they talked of the chief executive's impending death.

Some of the leading Republicans in the city, including Commissioner of Internal Revenue T. F. Penman, Deputy Attorney General F. W. Flitz, Major Everett Warren, Colonel L. A. Watros, Major W. S. Miller and others, were gathered together in one group.

"It seems like an impending death in my own family," said Major Warren. "Since President McKinley first came into public life I have revered him as a father and since I became personally acquainted with him, this feeling has ripened into a love that has become dear to me."

The meeting was called to order about 8:30 o'clock by Chairman Lowry, amid a deep and impressive silence.

"It is not necessary for me to say," said he, "that we are all cast down by this soul-depressing news. There has been a fall over us all since that black and hellish tragedy at the exposition grounds in Buffalo a week ago. Our chief executive has been stricken down and we all feel it. We came here tonight expecting to carry forward the work of preparing for the State League convention, but it will not be held if the president dies, which God forbid. We note of us feel like doing anything tonight, and I would suggest that we adjourn, to meet tomorrow night."

It was finally decided to meet tonight to take up the work of preparation, if the president had rallied, and to take suitable action in the event of death.

**PROHIBITIONISTS IN CONVENTION AT NAY AUG PARK.**

Colonel F. L. Hitchcock Named for Judge, C. E. Bradbury for Controller and Milton P. Mitchell for Surveyor—The Resolutions Assert That the Two Old Parties Are Hopelessly Corrupt—Ripper Bill Is Condemned as a Piece of Petty Tyranny.

The prohibitionists of Lackawanna county held their annual convention yesterday at Nay Aug park, and nominated their candidates for county offices. The slate chosen was as follows:

Additional Law Judge—COLONEL F. L. HITCHCOCK.

County Controller—C. E. BRADBURY.

County Surveyor—MILTON P. MITCHELL, of Danmore.

The nominations for coroner were left to the county committee. The convention was called to order at 2 o'clock yesterday afternoon, with about forty delegates present, and the pavilion thronged with male and female devotees of the Prohibition cause. Chairman B. G. Morgan, of the county committee, was in the chair temporarily, and Rev. C. B. Henry, of Taylor, opened the meeting with prayer. Rev. Henry was elected chairman of the convention, and E. F. Altmore, chosen secretary.

The first business before the convention was the nomination of the county officers. Colonel Hitchcock was nominated by Attorney W. W. Lathrop, and B. G. Morgan put the name of Attorney Bradbury before the convention. Mr. Emery nominated Mr. Mitchell. Attorney Lathrop then introduced the following set of resolutions, which were unanimously adopted:

**THE RESOLUTIONS.**

The prohibitionists of Lackawanna county are still in the field and still on the firing line. We invite the co-operation of all patriotic citizens and we present two urgent reasons for the acceptance of this invitation:

First—Ours is the only party that is warring against the ruinous liquor traffic, an enemy that is desolating our homes, debauching our young men, ruining our young women and lives of shame, making widows worse off than orphans, corrupting society and promoting poverty, vice and crime.

Second—The two old parties are hopelessly corrupt. There is no redemption from machine politics in the hands of the present party. The only politics lies in a third party. No party can be clean that is controlled by the liquor interests. The dominant party in our state, aided by a Democratic legislature, has made Pennsylvania a blessing and a by-word throughout the nation. The other states in the Union have been so disgraced by vicious legislation, bribery and fraudulent elections. The infamous "ripper bill" has established a petty tyranny in these cities of the state, including Scranton. Our own county is simply rotten, so far as its politics are concerned. Republicans and Democrats alike make that we have neither a fair vote nor an honest count, and that candidates, as a rule, are nominated and elected not on their merits, but by argument and persuasion, not on account of their party services, but by the unlimited and corrupt use of money.

We commend our last national congress for its patriotism and good sense in passing the anti-liquor law. It is a cheering sign when a majority in both senate and house prove themselves to be independent of the lordly brewers and deaf to the silly argument that an army saloon promotes temperance. In other words, that the way to keep our soldiers from drinking is to put the drink before them.

In common with all good citizens, we deplore and denounce the recent dastardly attempt upon the life of President McKinley, which now seems likely to result in his death. We favor drastic legislation to suppress anarchism and an amendment to the federal constitution that shall make it high treason to attempt to kill our chief executive.

**COUNTY COMMITTEE.**

On the motion of Rev. James Fielding, the following resolutions were adopted:

Resolved, That we, the prohibitionists of Lackawanna county, do hereby condemn the "ripper bill" as a piece of petty tyranny, and we hereby demand its repeal.

Resolved, That we, the prohibitionists of Lackawanna county, do hereby demand the repeal of the "ripper bill" and the passage of a law that shall make it high treason to attempt to kill our chief executive.

ing of this city, the following committee was appointed to nominate a county committee: Rev. James Fielding, Mr. Emery and J. L. Hanghi, of Green Ridge. The names they brought in were those of the majority of members of the present committee. They were: B. G. Morgan, C. L. Hawley, esq., E. S. Williams, C. F. Altmore, of Danmore, A. G. Thomason, Rev. James Fielding, J. F. Hanghi, J. F. Lacey, of Newton, Freeman Lush, of Clark's Summit, Rev. C. B. Henry, of Taylor, G. W. Pearl, of Moonic, Rev. J. M. Bailey, of Moonic, Pierce Butler, of Carbondale, and Gomer Reese of this city, county organizer.

Mrs. Vaughan, of Moscow, president of the W. C. T. U., of this city, gave an interesting address on "Principles" and Rev. N. J. Hawley, of Danmore, county chairman of the Luzerne prohibitionists, and Rev. W. E. Dickson, of Lehighton, both gave striking talks. Rev. Dickson is the clergyman who recently prayed that lightning strike a new brewery at Stroudsburg and the following night a bolt destroyed the building.

In his address he declared that the father of Czolgosz was an ex-ruin seller and that the assassin of President McKinley was therefore largely saloon bred. Like the other speakers of the day he claimed that saloons are nest of anarchy as well as breeders of all crime.

The Conservatory began its work on Thursday and the attendance breaks all records for the beginning of the year. Students continue to come in and the gradual increase will continue throughout the fall.
