### PLANS FOR THE YEAR.

Outlined at Last Night's Meeting of the Newman Club.

The Catholic Historical Society and the Newman Magazine club began the fourth year of its existence last night with a well-attended meeting held in the Knights of Columbus club rooms The plans for the coming year were outlined at some length by the moderator, Rev. J. J. Griffin.

The principal lecturers who will deiver courses of lectures are Dr. J. J. Walsh, of New York city, who will give a course of four lectures on Shakespeare, and Cande B. Pallen, of New Rochelle, N. Y., who will give three lectures on Dante's Divine Com-

These lectures are to be limited to the members of the society and their friends, but Father Griffin is arranging for a course of public lectures to be open to the general public. The speakers in this course will be men of national renown.

Among those who will deliver lecures in this course are Rev. Dr. Conaty, president of the Catholic univer sity at Washington; Bourke Cochran New York; Prof. Henry, of the Overbrook seminary, and Dr. C. Clif-ford, of Providence, R. I. The members of the society will take

up the study of Shakespeare and of Dante, under the direction of the mod erator, with a special study of the plays and poems lectured upon by Dr. Walsh and Mr. Pallen. Individual work will be encouraged, and essays on lit erary and historical subjects will be prepared and presented at each meeting by one of the members.

In a brief address, which he made to the members last night, Father Grif-fin urged them to devote themselves carnestly to the work of the society and not come to the meetings merely for the social enjoyment which might

### COLLIERY CLOSED DOWN INDEFINITELY

Union Men Refused to Work with Men Without Cards at the Pine Brook Mine.

The Pine Brook colliery of the Scranton Coal company has been closed down indefinitely, and about 700 men and boys are thrown out of employment The union employes had a dispute with the non-union men yesterday morning and as they failed to report for work at 7.30 o'clock, the mine was closed down indefinitely, by order of General Manager John R. Bryden.

Of the 700 men and boys employed a the mine, about 600 are members of Local union, No. 1052, United Mine Workers of America. The others do not belong to the union, and the union ists determined yesterday morning to make a stand for the purpose of bringing them into the organization.

A committee was posted at the Caouse avenue gate leading into the vard of the mine early vesterday morning and the cards of all union men were presented for its consideration. The non-union men had no cards to present and were requested to keep away until they joined the union. Proposition and Counter Proposition Failed to Effect a Settlement-Last Communication Sent to General Manager Silliman Has Not Received an Answer from Him Yet. Company Claims the Men, by Going on Strike, Have Left Its Employ-Mr. Silliman Says the Company Will Operate Cars Today

The trolley men struck as was expected, yesterday morning, and not a wheel turned on any line during the whole day except when three trips were made to Dunmore with the mails

Tuesday morning the men waited about, hoping that something would happen to avert the strike, but the hoped for indefinite something did not come, and, in accordance with the decision reached at Sunday morning's meeting, the men did not take out their cars and all the men in the barns who are allied with the union quit work. The strikers' executive committee had a session with National Board Member Reeves during the morning and at his suggestion a counter proposition was framed and presented to General Manager Silliman. This proposition waived the demand for the immediate reinstatement of the discharged men, on condition that the arbitration should proceed without stipulations from either side as to how the arbitrator was to conduct it, and that the existing contract should be rigidly enforced during the period for which it was made. Mr. Silliman said he would read it over carefully and make answer. No answer was forthcoming up to midnight, and at that hour Mr. Silliman had been in bed an hour and a half.

### NO DISORDER.

There was none of the disorderly conduct attendant upon the last trol ley strike, further than the placing of trivial obstructions on the tracks in some of the suburbs. The company proposes to operate cars today, and it is understood that men from outof-town will be brought here to man

The negotiations opened up yesterday with the following communication from the executive committee to General Manager Silliman:

The matter of difference shall be submitted to gether with the evidence of both parties to an arbitration in the presence of Bistop Hoban or any priest of his diocese, whom he may name, whose decision shall be binding upon both parties; and that work shall be resumed pending said aribtration by all members except the two discharged men, whose resumption of work shall depend upon the decision of the arbitrator, and in the event that the decision is in favor of the said discharged men, said men shall be paid by the company for time lost; otherwise no compensation to be received by them, and they shall let it be understood that the contract now existing between the company and this association be rigidly adhered to by both parties until the ex-George Kagler, piration of the same. Secretary of Committee.

In the above, there is a clerical error. The man who copied the letter made "arbitration" instead of "arbitrator" and "presence" instead of "person" in the opening paragraph. According to Secretary Kegler it should read "to an arbitrator in the person of Bishop

me this letter, I read it and asked them if it was intended to be identical to them. They stated it was not, and when asked by me to explain wherein the difference lay, they either could not or would not do so. I thereupon told them I would carefully read and

answer it. After the Interview with Mr. Silliman, The Tribune man sought out the executive committee of the strikers and asked that an explanation be given of the difference between the Silliman proposition and their counterproposition. The following statement

"There is a vast difference between the two propositions, and we pointed it out in detail to Mr. Silliman. His offer contemplates an arbitration by Bishop Hoban according to plans prescribed by the company. Our proposition is that the arbitration shall proceed according to Bishop Hoban's plans, neither side to dictate to him how he shall conduct the investigation. The question at issue is whether or not the two men were rightfully discharged. Mr. Silliman says the company can prove that in discharging them the contract was not violated, and that he s willing to submit these proofs to Bishop Hoban and abide by the bishop's decision as to whether or not any clause of the contract was vio-

REASONS FOR DISCHARGE. Under the contract the company can discharge a man for dishonesty or neglect of duty. To fail to register a fare to be dishonesty or neglect of duty. It is also possible that these things can happen accidentally, even with the nost honest and careful of conductors. The men are asking that they be given full and fair opportunity of showing that the accused men have not been dishonest or wilfully neglectful of duty. It may be that they missed a fare or gave out a transfer more than was proper. They deny though, and are willing to take oath to it, that they have no knowledge of having done so, They feel that if "spotters" are allowed to give evidence without being subjected to cross-examination they will concoct a false story. For this reason they are not content to be tried according to the company's ideas of a rial. They do not want to dictate how they shall be tried. All they ask is that the arbitrator shall try them according to his own ideas of what is fair and just, and without any restraining conditions prescribed by one

ide or the other. The company, on the other hand, is willing to allow the accused men to make answer before the arbitrator and take whatever means they may choose of combatting the evidence the company will submit, but a condition precedent, that must prevail, is that the identity of the company's "sources of information" must be kept secret from everyone except the arbitrator. There is nothing in the contract with the men that calls upon the company to allow any one other than the company to pass upon the question of whether or not an employe shall be discharged. In this instance, however, out of regard for the interests of the public, the company is willing to convince the employes' executive commitee, through some third party, who can be entrusted with a secret which the company does not see fit to confide to the executive committee, that the discharge of the two men was proper

under the contract. WHAT REEVES SAYS.

The following statement was furnished the press last night by National Board Member Reeves:

"As soon as I arrived on the scene and observed the situation, I recommended the proposition submitted to the company, which I regarded as a most fair one, upon which an amicable adjustment may be brought about. No matter how much or by whom the present conditions may be regretted, the fact remains that the strike exists, which I deplore, and I trust that the cepted by the company with as good grace as it was agreed to on the part of the executive committee. proposition should meet with the approval of the company I am confident that the strike will be of short duration. A speedy adjustment of the difficulty by the parties concerned is due

to the public. Bishop Hoban is out of the city and may not return for a number of days. He has not as yet been consulted as to his acting as arbitrator. There is some speculation as to whether or not be will consent to sit in an arbitration where he will be called to pass upon the question of whether or not two

A new difficulty arises from the fact that the company claims the men, by When this committee delivered to going on strike, left the company's employ, and thereby abrogated the contract made at the close of the strike in meaning with my letter of last night last fall. Mr. Silliman does not say that if the men return to work the contract will not be renewed, but he holds now that the Scranton Railway company has no knowledge of any organization known as Division 168, Amalgamated Association of Street Car Employes, and that it has no con-

tract with any body of employes. THEY FORESAW 1T. That the men foresaw the liability of his new complication is evidenced by the fact that at the end of their letter, delivered to Mr. Silliman yesterday afternoon, they added, "Let it be understood that the contract now existing between the company and the association be rigidly adhered to by both until the expiration of the

same." There was no turbulence or any semblance of it yesterday. Most of the men spent the greater part of the day in bed, having been up all night at Carpenters' hall. At 3 o'clock yesterday afternoon they assembled in the hall and had a meeting. The executive committee told of its visit and counter-proposition to Mr. Silliman, and the men unanimously ratifled their action. R. L. Reeves, of Pittsburg, a member of the national executive board of the street car men's union, was present at the meeting.

Mr. Silliman stated to a Tribune reporter yesterday afternoon that the company will operate cars today either with the old men or imported men. 'Busses were pressed into service by enterprising liverymen to accommodate the suburbanites. If the company runs cars today the strikers will run 'busses to compete with them.
