weighs it. Few of us understand the astronomer's processes, all accept his results. In the light of these facts is it hard to believe that medical science can diagnose the diseases of persons who though miles away can write a plain statement of their condition?

IN BUFFALO, M. Y.,

At 663 Main Street, there stands the Invalids' Hotel and Surgical Institute. It is presided over by Dr R. V. Pierce, assisted by a medical staff of nearly a score of physicians, each man a specialist in the treatment and cure of some form of disease, The rooms of this Institute are always full of patients, who come from all sections of the country to obtain the surgical and medical advantages offered by Dr. Pierce and his staff.

But there is another branch of this Institution which is even more important than its home practice; it is the free consultation by letter department, where hundreds of private letters are privately read and privately answered each week of the year, Some idea of the scope of this work can be gathered from the fact that in a little more than thirty years, assisted by his staff of medical specialists, Dr. Pierce has treated and cured over half a million women. Sick and ailing women are invited to consult Dr. Pierce by letter free. All correspondence is held as strictly private and sacredly confidential.

"BEST MEDICINE ON EARTH."

"Over one year ago I wrote to Dr. R. V. Pierce for advice," says Mrs. R. M. Clites, of 1205 William Street, Omaha, Nebr. "Had been doctoring with two of my home physicians for blood poison. They did not do me much good—only for a short time. Dr. Pierce recommended his medicines, and I took three bottles of his 'Favorite Prescription' and two f 'Golden Medical Discovery,' and now I feel better than for more than ten years. We have four children; the youngest is past three years old. I am so very thankful that I heard of Dr. Pierce's medicines; I cannot thank him too much for his kind advice to me. Two of my brothers' wives have taken his 'Favorite Prescription' for female weakness, and have been greatly benefited. I recommend it to all my lady friends as the best medicine on earth for ailing womankind."

not be confounded with Dr. Pierce's genuine offer of free consultation by letter. There is no offer of "free medical advice" made by man or woman which has behind it an institution of national note. such as the Invalids' Hotel and Surgical Justitute, Puffalo, N. Y. There is no offer of "free medical advice" made by man or woman which has behind i. a physician whose success in the treatment and cure of diseases peculiar to women equals that of Dr. Pierce. There is no offer of "free medical advice" made by woman or man which carries with it the privileges of Dr. Pierce's offer of free consultation by letter. This places at the disposal of enced physicians.

ALMOST GIVEN UP.

"When I first wrote to you I was in a bad condition, and had almost given up," says Mrs. Bella Snider, of Wilkes-ville, Vinton Co., Ohio. "I was suffering from female trouble of the worst kind; I couldn't eat anything without suffering great distress; throat hurt m by spells; was nervous and weak. Had numb hands and arms, heart trouble, pains all through my body and aching head and neck. It seemed that I could not vork at all, I got Dr. Pierce's medicine, and took it as directed, and the first week it began to help me. I took three bottler, and am glad to say that did me more good than all other medicine I ever took. I feel better than I have for years. I believe that Dr. Pierce's medicines will do all that is claimed for them.

"May God bless you in your work of helping the sick." Dr. Pierce's offer of free consultation by letter has been imitated by offers of "free medical advice" made by men or women, who are not physicians, and are, therefore, entirely unqualified to give medical advice. A scrutiny of the cunningly-worded advertisements of these people will show that they do not claim to be physicians; they do not because they dare not for fear of the penalties of the law. Many a woman has added to her sufferings by accepting the misleading statements of such unseru-

"My daugeter was bed-fast two winters with what the doctors called inflammation and congestion of the ovaries," writes Mrs. Mary Rogers, of Eldon, Iowa. "Suffered agony day and night, the doctors keeping her under the influence of morphine to keep her from going into spasms. I was discouraged and thought she could not get well that way, so I wrote to Dr. R. V. Pierce, and he advised me try his medi-cine. We did so, and, glad to say, with good results. Last fall my daughter felt the trouble coming back on her, and she got more of your medicine and took it. She says she is better now than she has been for years—still is not entirely cured. She took twelve bottles of 'Golden Medical Discovery 'and six of 'Favorite Prescription.' She hates to take Spurious offers of "free medical advice" should has a bottle of the Prescription now that she has not yet taken. We feet sure that if it had not been for your medicine she would have been in her grave,
"You are at liberty to publish this. My daughter's name is Mrs. Rena Yoder.

Dr. Pierce's Favorite Prescription makes weak women strong and sick women well. It regulates the periods, dries weakening drains, heals inflammation and ulceration and cures female weakness. It carries the mother happily through the months before baby comes, giving her tranquil nerves, sound sleep and healthy appetite. It makes the baby's advent practically painless, and gives the mother abundant strength to nurse and nourish her suffering women the resources of a great medical little one. There is no alcohol in 'Favorite Preinstitution and the skill of nearly a score of experi- scription, and it is entirely free from opium, cocaine and all other narcotics.

THE SCIENCE OF LIFE, with all its problems and perplexities, is fully dis-

cussed in the 1008 large pages of Dr. Pierce's Common Sense Medical Adviser. Every woman should own this book. It is sent absolutely free on receipt of stamps, to pay expense of mailing ONLY. Send 21 one-cent stamps for the book in paper covers, or if cloth binding is preferred, sond 31 stamps.
