

Her Japanese Lover.

Onato Waterman, in Woman's Home Companion.

LONG AFTER the young Japanese had left her Alicia Allan stood in a silence, her hands clasped before her, a look of sadness and indecision on her face.

"No, I have not forgotten," he whispered, bending low over her. She looked up shyly and searched his face with her eyes.

voice quivered a trifle. He was standing by her chair now, looking at her with a mournful gaze. "Do you love her?" she whispered, huskily.

An Analysis of the World's Trade

Special Correspondence of The Tribune.

AN ACCURATE measure of the commerce of the principal countries of the world at the present time is afforded by some figures published by the treasury bureau of statistics in the September number of the Monthly Summary of Commerce and Finance.

This statement of the average monthly value of the imports and exports of the thirty countries furnishes a fair basis of comparison of the commerce of the countries.

Table with 3 columns: Country, Imports, Exports. Lists countries like United States, India, Brazil, etc.

The following table shows the average monthly imports and exports of the twenty countries in which the exports exceed the imports.

Outline Studies of Human Nature

Won Through an Error.

Stock exchange members have been very much amused by the first appearance of a broker on the floor.

"You must not think me bold. It would have been foolish to go through life so, when a few words would have made things all right."

"The man was shivering. His face looked cold and gray, even in the bright light. He rose to his feet with a quick movement of pain."

"It is too late now!" "Too late!" the girl echoed. She went nearer to him, a frightened, uncomprehending gaze replacing the former look of delight.

"No, I have not forgotten," he whispered, bending low over her. She looked up shyly and searched his face with her eyes.

Two Views of Starvation.

Of the two, the man starving amid plenty is the more to be pitied. He eats but is not fed. His digestion is imperfect. The nutritive values of the food he eats are lost. He becomes emaciated, weak and nervous. He is literally dying of slow starvation.

STARVING PEOPLE

Needs just one thing—food. That is plain when one looks at the gaunt body of the starving Hindoo. Give him food, and from a weak, staggering, helpless being, he becomes a strong, active man.

This is just the case of the starving American. The one thing his body needs is food. He has plenty to eat but he is not fed; because it is not what is eaten which nourishes the body.

Dr. Pierce's Golden Medical Discovery has restored thousands to health, because it makes the weak stomach strong. It removes the obstacles to the digestion and assimilation of food.

Thought Himself Incurable. I was afflicted with what the doctors called nervous indigestion. Took medicine from my family physician to no avail.

Accept no substitute for "Golden Medical Discovery." Dealers who offer "just as good" medicine in place of "Discovery" do so for the sake of a little more profit.

Preparing for a Great Effort. According to the New York Times, Henry Waterson, the great Kentucky editor, is one of the largest caterers among the public men of the United States.

She Regarded the Proprietors. Aunt Lucy is an old colored "mammy" who lives up in the vicinity of Twenty-ninth and York streets.

Removing His Objection. President Tucker, of Dartmouth, has been in the habit of spending his summer at a New Hampshire farm.

Just a Coney Island Incident. They were a developing trio, even for Coney Island. When they lounged into a "beach" on Surf avenue and took seats at a table the waters did not splash over each other in their eagerness to wait on them.

Cabbie's Wit Lost Him Money. In England unattached good stories are generally by a kind of prescriptive right, the property of the London "cabbie," says the New York
